Online Education

1. Does all programs/courses were completed on time.	No		
2. Measures taken to complete the syllabus of courses and programs.	<p>The primary concern of digital education is the use of digital medium with the teaching-learning process. The usage of ICT tools and sharing of resources through digital medium was existing prior to this COVID pandemic. But engaging the students in content delivery through online mode has made a revolutionary change to the education system. The continuous advancement in the field of Information and Communication Technology (ICT) and the WWW has made multiple modes of digital education possible. At Vardhaman College of Engineering, with regards to availability of digital infrastructure, a survey was conducted for both faculty and students. The survey questionnaire is mainly focussing on the availability of digital infrastructure for the conduct of online classes. The requirements were identified for both students and faculty and the preliminary data was collected.</p> <p>For students : availability of computer/laptop/smartphone with internet facility</p> <p>For faculty : availability of computer/laptop/smartphone/stylus-based writing pads or iPad with internet facility</p> <p>Almost all the students have smartphone and more than 90% of the students have continuous internet facility except the students ailed from rural areas where the connectivity is poor.</p> <p>Training need analysis was conducted, and all the students and faculty were oriented on usage of digital education platform procured by the institution – which is licensed by MS called "Teams". All the students and faculty were provided with "Team" accounts prior to COVID-19 and were habituated to use Microsoft mail accounts for sharing of resources. Initially, the students and faculty were made acquainted to online mode of teaching-learning process by offering only one course for two hours duration. Later, in due course of time the students and faculty were acquired with the necessary infrastructure. The timetable was made dynamic and changed every fortnight. At any point of time only three courses were offered. The faculty have covered the syllabus not only as per the lesson plan but also with required number of hours were allotted. All the students were habituated to online and blended mode of learning. Students were provided with handouts and other learning resources to prepare the concepts well in advance. Students are encouraged to clarify their doubts in online interaction. The assignments were given to the students are asked to upload in Microsoft teams. The online quizzes and assessments were conducted using Microsoft forms. The faculty and students were oriented to use online assessment tools like Kahoot, Mentimeter, Poll Everywhere and etc to keep them engaged actively. Faculty posed questions to the students to think and respond, made small groups to conduct collaborative activities.</p> <p>Upskilling and motivating faculty, organising counselling sessions for stakeholders such as teachers, parents and students are some of the important measures taken by the institution during this situation. Making a continuous effort to provide customised teaching-learning material suitable for online classes is another way of facilitating the coverage of syllabus. Though there were a little challenges, the faculty and students could overcome them in due course of time and the institution will strive always to impart better education all the time by equipping sufficient infrastructure and by alternate means.</p>		
3. The period of delay in completion of syllabus (in months).	1		
4. The period of delay in conducting exams (in months).	4
