Shamshabad– 501 218, Hyderabad

Protection of Lakes Awareness Rally at Tank bund 05. Aug. 2017

The Human values and ethics as on paper does not learn the student much ,other than exposing to the society what the bad things we are doing in our day to day life and what good things we have to learn and mold ourselves for the betterment of society and as a part of our lively hood. So to protect lakes in and around the Hyderabad, which are the major resources from for drinking water facility, but are spoiled due to improper drainage system and chemical residues mixed into the water bodies. To alert the people and its importance of the lakes to sustain back the environment as well as our water bodies for further generations, to eradicate the water war in future.
