Cancer Awareness Program and Pink Ribbon Rally 16. October. 2017

The health is a major issue and as a young blood ,we are not bothering about the consequences of our health due to our food habits and life style. Our chairman is also an orthopedic doctor and motivates the students towards health concern issues by regular seminars. As such Program volunteers are witnessed and participated in the pink ribbon walk , which creates awareness on cancer related issues and how to eradicate at early stage . What are the food habits we have to change and how to sustain in patient with in our society etc...
