Quality Initiatives by IQAC

Training Program for Technical Staff

Report on “Training Program for Technical Staff”

Introduction

The Internal Quality Assessment Cell (IQAC) conducted six day Training Program for all the non-technical staff to improve their technical and communication skills to enhance the quality and knowledge of non-teaching staff. The training program was divided into four sections. The three programs were basically related to technical skills and the final program included enhancing communication skills.

Objective

The objectives of these sessions were as follows:

- Improve the technical skills of the non-technical staff
- Enhance their communication skills
- Improve the quality of teaching and learning while training the non-technical staff is a step towards achieving our objective as an Institution.

Ansys Training

Day 4: 13-06-2019

In this session topics covered

- Introduction to Ansys
- Introduction to workbench 17.1
- Practice

Day 5: 14-06-2019

In this session topics covered

- Introduction to Static structural analysis
- How to edit Engineering data
- How to create geometry
- Tools in model
- Details of setup, solution, results
- practice

Day 5: 15-06-2019

In this session topics covered

- Introduction to Modal analysis
- How to edit Engineering data
- How to create geometry
- How to find frequency
- Tools in model
- Details of setup, solution, results
- practice

AUTOCAD

Day 1: 10-06-2019

In this session topics covered

- Introduction
- Setting the Graphics screen
- Tool bars

Day 2: 11-06-2019

In this session topics covered

- Basic Commands and Shortcut keys
- Practice session

Day 3: 12-06-2019

In this session topics covered

- Manipulation of Text,
- Dimensions and Properties
- Practice session

CAD/CAM

Day 1: 10-06-2019

In this session topics covered

- Introduction to CAD/CAM and CIM

Day 2: 11-06-2019

In this session topics covered

- Introduction to CNC Part Programming using G Codes and M codes

Day 3: 12-06-2019

In this session topics covered

- CNC part programming for simple turning
- Multiple turning operation on CNC lathe

Day 4: 13-06-2019

In this session topics covered

- CNC part programming for facing and threading operation on CNC lathe

Day 5: 14-06-2019

In this session topics covered

- CNC part programming for linear contouring and circular contouring operations on CNC milling

Day 6: 15-06-2019

In this session topics covered

- CNC part programming for drilling operations on CNC milling

Fusion 360

JUNE 10th to 16th 2019

The Topics covered are

- Introduction to Fusion 360
- User interface overview
- Navigation
- Creating, Saving and Modifying file
- Creating a Sketch using various sketch commands viz. Rectangle, Circle, Polygon, Arc, Eclipse etc.
- Applications of various constraints in the sketch viz. Parallel, Perpendicular, Tangent, Coincidence, Colinear etc.
- Applications of modifying tools in the sketch viz. Mirror Rotate, Circular Pattern, and Rectangular Pattern etc.
- Use of Extrude tool for creating 3D models.

Communication Skills

S. No	Date	Name of Resource Person	Topic
1.	10/6/19	Y.Sridevi	Spoken English
2.	11/6/19	Dr. Seema Devi	Interpersonal Communication
3.	12/6/19	Dr. Manjeet Kumar Singh	Soft Skills
4.	13/6/19	Dr. Manu Kurup	Writing Skills
5.	14/6/19	Dr. O. Kranthi Priya	Technical Communication
6.	15/6/19	All the above Faculty	Feedback and Queries

Details**Day 1:**

The first day focused on enhancing the participant's Speaking Skills by discussing the differences between the formal and informal communication. Inputs on functional English, some aspects of phonetics and usage of different expressions while speaking were also discussed in the session. An activity that included introducing themselves and others was also done through pair and group activities during this session

Day 2

The second day covered the vitality of English as a lingua franca, importance of communication, various modes of communication, the four principles of interpersonal skills,

tips for effective communication. Do's and don'ts while communicating were also covered during this session. Few topics were given for group discussion to enable the participants use a set of given expressions.

Day 3

On the third day of training program for the technical staff completely focussed on developing Soft Skills and its importance at workplace. The training program on Soft Skills was attended and actively participated by the staff. The training program focused on interpersonal skills, communication skills, teamwork, self-discipline, time management and other components of soft skills. Finally, the session was ended on a note that such training program should take place on the regular basis.

Day 4

On the fourth day, the session was conducted on writing skills where the technical staffs were trained to write formal letter, email and resume. The session included many components of writing such as organization of ideas, vocabulary, sentence structure, grammar and formal use of writing in academic and professional context.

Day 5

The fifth day focussed on technical communication, importance of it in workplace. Different types of communication and use of formal language in a professional setup were also discussed during the session. Activities such as "The name game", and "Memory Test" were conducted to enhance communication among the participants. Audio-video files were also included to make the session more effective.

Day 6

The final day was the recapulation of the entire topics covered for five days. The participants had shown their interest in activities and provided feedback on the training sessions. Finally, the entire session was fruitful and the participants were interested in all the sessions and requested for such session on regular basis.

Training on Auto CAD

Training on CLAD

Dr. Nageshwar Rao (IQAC DEAN) addressed the gathering and promised to the technical staff that such training program will be held in inter and intra semesters.

VARDHAMAN COLLEGE OF ENGINEERING, HYDERABAD

Autonomous institute affiliated to JNTUH

DEPARTMENT OF ELECTRONICS AND COMMUNICATION ENGINEERING

Academic Year: 2018-19
Training Program Report

“Analog Circuit & Layout Design Using Cadence Tool”

Venue: Cadence Lab (Room No.3002)

Date: 3rd June 2019 to 28th June 2019

Head Quartered at Bangalore, India, Entuple Technologies was founded on 1st January 2010 by professionals with a combined experience of over 80 years in the Electronics Industry. The management team with its experience in different sectors such as Aerospace & Defence, Small & Medium Business, Research & Academia has joined together to build a world class team of Next Generation Solution Enablers in system design technologies. India being one of the emerging markets has been identified as the breeding ground of leading R&D initiatives in multiple domains. Entuple is committed to bridge the ever growing gap in the industry by bringing in expertise to meet technological challenges by introducing cutting edge platforms, tools and solutions.

In the academic sector, Entuple is committed to bridge the growing gap between curriculum and advancements in the industry by providing effective tools, technologies and enabelment to the campuses. In this process a Four weeks Industrial training program was conducted by Entuple Technologies Pvt. Ltd, Bangalore at college campus for final year students. The local coordinator for the internship program was Ms. Sangeeta Singh, Assistant Professor, Dept. of ECE.

This training program was attended by 23 students from ECE who are carrying out their mini and major project in the same field. This program benefitted the students to fine tune their skill and explore the opportunities in analog circuit & layout design more effectively through concepts driven learning with application oriented. It gave them the opportunity to work on industry standard design case studies, exposure to industry standard work environment.

Bangalore

3rd - 29th June, 2019

TARGET AUDIENCE

Interested Faculty of engineering/technical institutions and researchers are eligible to attend these winter courses

Module details

S.No.	Module Name	Topics
1.	Artificial Neural Networks (ANNs)	Introduction to Deep Learning and Motivation. Brief introduction of Artificial Neural Networks (ANN), Perceptrons, Multilayer perceptron (MLP), Back propagation training for MLP, Stochastic gradient descent. Applications to some practical classification problems
2.	Regularization, Hyperparameter Tuning and Autoencoders	Deep Feed forward Networks - Regularization - drop out, Minibatch gradient Tuning and Autoencoders descent, RMSProp and Adam optimization. Autoencoders and their Types
3.	Convolutional Networks	The Convolution Operation, Pooling, Basic architecture of a Convolution Neural Network, Variants of the Basic Convolution Model, Evolution of Convolution NN Architectures - AlexNet, ResNet and other architectures.
4.	Sequence Modeling	Recurrent and Recursive Nets - Unfolding Computational Graphs, Recurrent Neural Networks, The Long Short-Term Memory and Other Gated RNNs
5.	Generative Adversarial Networks, Object Detection Algorithms	GAN and their variants- R-CNN, YOLO and SSD

About Summer Courses

Faculty Development Programmes in core areas of Electronics and Information & Communication Technology (ICT) streams have been planned by academies for delivery during summer (i.e., May – July 2019). All these summer courses will be offered through **National Knowledge Network (NKN) / Video Conference Mode** by inviting experts from IITs, NITs, IIITs and other premier institutes/industries. In addition, local course coordinators at respective academies /identified remote centres (Like Vardhaman College of Engineering) will take care of sessions on design orientation/activity linked problems/ assignments/ case studies and quiz test(s). Candidates could apply for training at academy locations or identified centres as per the convenience.

REGISTRATION FEE

No Registration fee is charged for attending this programme planned at any designated academies/ Remote centres. However, candidate should submit a refundable Demand Draft of Rs.1000/- in favor of "Electronics and ICT Academy, MNIT Jaipur" Payable at Jaipur along with application form and the same will be handed over to the participant on the last day of the training. Satisfactory Certificate will be given to the participants subject to fulfillment of attending all sessions, submission of assignments and clearing the test(s).

FACILITIES FOR PARTICIPANTS

Participants will be provided working lunch, tea/snacks along with the FDP kit. The participants are requested to make their own arrangements for Lodging and travel.

COORDINATOR

Principal Coordinator – Academy

ABOUT THE COLLEGE

Vardhaman College of Engineering was established in 1999 with an endeavour to impart high quality Technical Education and innovative research in the fields of Engineering technologies, with emphasis on industry-oriented programs for development of students as well as faculty. Vardhaman College of Engineering is affiliated to Jawaharlal Nehru Technological University (JNTU), Hyderabad, and is approved by the All India Council for Technical Education (AICTE), New Delhi.

The prime objective of Vardhaman College of Engineering is to update and modernize the quality of professional education. Its aim is to employ innovative teaching methods which carry an emphasis on fast changing technological trends. This is to integrate classroom learning with actual work experience in the industry concerned or in a related professional field. In the course of continued march towards excellence the college was credited with the status of an Autonomous College by UGC and accredited by NAAC with 'A' Grade.

ABOUT THE DEPARTMENT

The department of Electrical and Electronics Engineering was established in 2002 and is accredited by National Board of Accreditation (NBA), AICTE. The department has competitive faculty members from prestigious institutions in specializations like Electrical Power Systems, Control systems, Power Electronics and Instrumentations. The department is also offering M. Tech. (Power Electronics and Electrical Drives) from the academic year 2008-2009 with an intake of 18 and is affiliated to Jawaharlal Nehru Technological university.

Objective of the department is to train and educate undergraduate engineering with academic excellence and to develop the student as a competent and responsible citizen with positive attitude, good character, self-confidence and leadership qualities and to keep pace with the rapidly growing technology in the Electrical and Electronics Engineering field. The department has well equipped laboratories to meet the demands of present day international Scenario.

The department organizes National level conferences/ workshops/ seminars frequently for the benefit of faculty and students of various engineering college for meeting the industry standards.

2018-2019

Report on “Deep learning and applications”

A one week faculty development programme on “**Deep learning and applications**” was held at Department of Electrical and Electronics Engineering, Vardhaman College of Engineering from 27th May to 31st May, 2018. Faculty Development Programmes in core areas of Electronics and Information & Communication Technology (ICT) streams have been planned by academies for delivery during winter (i.e., November - December 2018). All these winter courses will be offered through **National Knowledge Network (NKN)/ Video Conference Mode** by inviting experts from IITs, NITs, IIITs and other premier institutes/industries.

TECHNICAL SESSIONS:

1st Day (27-05-2019):

First day was handled by Mr. Ashish Sardana, NVIDIA, on introduction to Deep Learning and applications and brief introduction of ANN followed lecture by Dr.P.P.Roy, IIT Roorkee, on Learning in MLP.

2nd Day (28-05-2019):

Dr.Biplab Banerjee, IIT Bombay, had given lecture on Regularization, Hyper parameter Tuning and Auto encoders followed by hands on session.

3rd Day (29-05-2019):

Dr.R.Venkatesh Babu, IISc Bangalore, had given lecture on Convolution Networks, followed by hands on session.

4th Day (30-05-2019):

Dr. Anupam Ray, IBM Bangalore, had given lecture on Sequence Modeling, followed lecture by Dr. Ritu, Intel Bangalore on Recurrent Neural Networks, The Long Short-Term Memory and Other Gated RNNs.

5th Day (31-05-2019):

Generative Adversarial Networks, Object Detection Algorithms session by IIITDM Jabalpur.

OUTCOME:

All the sessions were very much informative. The discussed areas are of great benefit in understanding the theoretical concepts and laboratory practices on Deep learning and applications for the participants further helps in research activity.

A Talk on How to Publish a Technical Paper in SCI Journals

VARDHAMAN COLLEGE OF ENGINEERING
(AUTONOMOUS)
Accredited by NAAC with 'A' Grade | ISO 9001:2008 Certified
Shamshabad, Hyderabad - 501218.

Invitation

A
TALK
on
**"How to Publish a Technical Paper
in SCI Journals"**
by
Dr. SWAGATHAM DAS
Editor in Chief, Swarm and Evolutionary Computation Journal, Elsevier

Date : 27-04-2019
Time : 2.30 PM to 4.30 PM
Venue : Room No. 1009, Block-1

Organized by
Internal Quality Assurance Cell (IQAC), VCE
in association with
Department of Electronics and Communication Engineering
Vardhaman College of Engineering
&
E&ICT, NIT Warangal

VARDHAMAN COLLEGE OF ENGINEERING, HYDERABAD
Autonomous institute affiliated to JNTUH

One day workshop on **Outcomes-Based Education (OBE)**
04-06-2019 at 10:00 AM, in Room # 1009

PROGRAMME DETAILS

10:00AM to 11:15AM	: About Outcomes-Based Education by Dr. K. Mallikharjuna Babu , CEO
11:15AM to 11:45AM	: Coffee / Tea Break
11:45AM to 01:15PM	: How to write Course Outcomes (COs) by Dr. J. V. R. Ravindra , Dean (Academic)
01:15PM to 02:15PM	: Lunch Break
02:15PM to 03:30PM	: CO - PO Mapping by Dr. P. Nageswara Rao , Dean (IQAC)

Circulation to:
HODs to circulate among available faculty and permit them to attend

Copy to:
Principal, Dean Academic and Dean IQAC for information

Coordinated by IQAC

CEO

Felicitations to Dr. Swagatham Das by Prof. Vivek Kulkarni & Dr. B. Subbaratnam

FACULTY DEVELOPMENT PROGRAMME (FDP) ON

**BIO-INSPIRED ALGORITHMS FOR INTELLIGENT SIGNAL PROCESSING
(24th April to 30th April 2019)**

Organized by

**Vardhaman College of Engineering (Autonomous), Shamshabad, Hyderabad
in association with**

E & ICT Academy, National Institute of Technology, Warangal.

(Sponsored by Ministry of Electronics and Information Technology (MeitY), GOI)

Preamble:

"Electronics & ICT Academy" was set up at NIT Warangal with financial assistance from MeitY, Gol. The jurisdiction of this academy is Telangana, Andhra Pradesh, Karnataka, Goa, Puducherry and Andaman & Nicobar Islands. This academy role is to offer faculty development programmes in standardized courses and emerging areas of Electronics, Information Communication Technologies, training & consultancy services for Industry, Curriculum development for Industry, CEP for working professionals, Advice and support for technical incubation and entrepreneurial activities.

About the Workshop:

As part of an initiative of E&ICT, a Faculty Development Programme (FDP) on "Bio-inspired Algorithms for Intelligent Signal processing" is being conducted at Departments of ECE at Vardhaman College of Engineering (Autonomous) to the faculty members of Engineering, MCA, Research Scholars and other allied disciplines from Telangana, Andhra Pradesh, Karnataka, Pondicherry, Goa, Andaman and Nicobar Islands.

Major Course Contents:

- Intelligent systems design
- Particle swarm Optimization (PSO)
- Differential Evolution (DE)
- Bat Algorithm (BA)
- Teacher Learning based Optimization Algorithm (TLBO)
- Sine Cosine Algorithm (SCA)
- Jaya Algorithm
- Grey Wolf Optimizer (GWO)
- Hybridization Mechanism
- Convolutional Neural Networks

Applications

- Image processing and Computer Vision
- Channel Equalization
- Antenna Design
- Adaptive System Identification
- Wireless Sensor Networks

Faculty conducting this programme:

The programme will be conducted by the faculty members from NIT Warangal; Academicians in the concerned field from IITs/NITs/IITs are invited to deliver lectures in the programme. Speakers from industries are also expected to deliver as part of the course.

Eligibility:

The programme is open to faculty of Engineering Colleges, MCA Colleges and other allied disciplines in India. Industry personnel working in the concerned /allied discipline can also attend.

Registration Fee Particulars:

Faculty and Research Scholars	Rs. 2500/-
Faculty of SC/ST Category	Rs. 1875/- (SC/ ST participants should submit the copy of their caste certificate to claim the concession along with application form)
Industry Participants	Rs. 7500/-

SC/ST concession is only for faculty of mentioned states. Research Scholars are not eligible for SC/ST concession.

The fee is to be paid either in the form of DDs or online transfer using the following details:

DD Details	Online Transfer Details
Demand Draft in favor of "Director, NIT Warangal" payable at any bank in Warangal	Account Name: Electronics & ICT Academy NITW Account No: 62423775910 IFSC: SBIN0020149

Accommodation:

All the outstation selected participants will be provided boarding and lodging in nearby college hostels with nominal cost.

Venue: Department of ECE, Vardhaman College of Engineering

How to apply:

A filled in form of application in the prescribed format duly signed and sponsored by appropriate authorities (Along with demand draft) should reach the coordinator by speed post. It is also mandatory to send scanned application form and demand draft through email to hathiram.iisc@gmail.com as selection will be intimated only through mail.

Selection Criteria:

Selection will be done based on first-come-first-serve basis to a maximum number of 50 (fifty). Additionally 10 participants from industry are allowed to participate. The list of selected participants will be intimated through e-mail. In case a candidate is not selected, the DD will be sent back. Candidates will be issued satisfactory certificates on successful completion of the course. Reservations are followed for selecting candidates as per GOI norms.

Important dates:

Last date (Application & DD)	16 th April, 2019
Selection List by E- mail	18 th April, 2019
Duration	24 th – 30 th April, 2019

About NIT Warangal:

National Institute of Technology, Warangal is the first among 17 RECs setup as joint venture of the Government of India and the state government. Over the years the college has established itself as a premier Institute imparting technical education of a very high standard leading to the B.Tech degrees in various branches of engineering, M.Tech. and Ph.D programs in various specializations. All B. Tech and M. Tech programmes of NIT Warangal are NBA accredited.

About ECE Department, VMEG:

The Department of Electronics and Communication Engineering has been playing a vital role in producing quality engineers ever since it was established in the year 1999. With its Qualified, Experienced and committed Faculty/Staff, the department has expanded its activities enormously over the past 20 years. The department runs one under graduate program and two post graduate programs to cater to the ever – changing needs of technical excellence in all areas of Electronics and Communication Engineering such as VLSI Design, Embedded Systems, Telecommunications, Signal Processing etc. It has well equipped laboratories, its own computer centers and departmental library to cater the needs of UG, PG students. A Continuous stream of short-term courses, refresher courses, workshops and winter/ summer schools is the general outlay of the department.

Report
One- Week Faculty Development Programme
on
“Bio-inspired Algorithms for Intelligent Signal processing”
At Vardhaman College of Engineering (Autonomous), Shamshabad, Hyderabad
24th April -30th April 2019

As part of an initiative of E&ICT, a Faculty Development Programme (FDP) on “Bio-inspired Algorithms for Intelligent Signal processing” is being conducted at Departments of ECE at Vardhaman College of Engineering (Autonomous) from 24th April -30th April 2019. This programme was a combination of theoretical exercise & laboratory experiments. This FDP aims to provide opportunities to faculty members to enrich their technical knowledge in the field of Signal Processing. The Programme also intends to develop the culture in participants for motivation the relevant field for inculcating learning values in students and guiding and monitoring their progress. The FDP was attended by faculty members of Electronics & Communication Engineering, Electrical Engineering, Mechanical Engineering.

INAUGURAL SESSION:

The esteemed dignitaries' personalities present on the dais in inauguration of the programme:

- >Dr. Ravi Kumar Jatoth, Associate Professor, Department of ECE, National Institute of Technology (NIT), Warangal.
- >Dr. Hathiram Nenavath, Associate Professor, Department of ECE, Vardhaman College of Engineering
- >Prof.Y.Pandu Rangaiah, Professor, Department of ECE, Vardhaman College of Engineering
- >Dr. P. Nageswara Rao, Professor, Department of ECE, Vardhaman College of Engineering

Mrs. Sangeeta Singh, Anchor welcomed all the cherished dignitaries and participants. She requests to all the respected dignitaries to light the lamp in front of Goddess of Knowledge MA SARASWATI.

Welcome Ceremony: Dr. P. Ramadevi, Faculty of vardhaman college of engineering, welcome Dr. Ravi Kumar Jatoth with bunch of flowers.

24/04/2019 Day-1 Forenoon Session

Dr. Ravi Kumar Jatoth, Department of ECE, National Institute of Technology (NIT), Warangal has delivered keynote address on “Intelligent Signal Processing”. In this session, he discussed about two types algorithms for adaptive filtering i.e. Least Mean Square (LMS) and Recursive Least Squares (RLS) and tries to outlines their strengths and their weakness.

Afternoon Session (Day-1)

Dr. Ravi Kumar Jatoth, Department of ECE, National Institute of Technology (NIT), Warangal delivered lecture on System Identification using Genetic Algorithm (GA)

Hands on session :

A demonstration on “Implementation of GA using MATLAB” was given by Dr. Ravi Kumar Jatoth, Department of ECE, National Institute of Technology (NIT), Warangal. At first participants were trained with MATLAB commands of GA with typical examples of mathematics, communication and signal processing. They had done some assignments regarding the above areas given by the experts .

Afternoon session Day-2 An interactive practical session on “Implementation of PSO using MATLAB” was taken by Dr. Ravi Kumar Jatoth. He explained about

26/07/2019 Day-3 Forenoon Session

Dr. Gopi Ram has delivered a lecture on Cat Swarm Optimization (CSO). He discussed about Antenna array pattern synthesis using Cat Swarm Optimization.

Day-3 Afternoon Session

Dr. Hathiram Nenavath has delivered a lecture on Bat Algorithm (BA). He discussed about implementation of BA using MATLAB.

Dr. Swagatam Das, Associate Professor, ISI, Kolkata, has illuminated on “Differential Evolution (DE)”. In this session participants were gained with the knowledge of the image Processing & Computer Vision application using DE.

Day-4 Afternoon Session

Dr. Swagatam Das, Associate Professor, ISI, Kolkata has explained “How to publish papers in SCI Journals”.

Day-5 Afternoon Session :

Dr. Rama Krishna Sai Gorthi , Associate Professor, Indian Institute of Technology (IIT), Tirupati , has discussed on “NN & CNN for Digit Recognition using MATLAB”.

Day-6 Afternoon Session :

An enlightening lecture on “Implementation of TLBO and JA using MATLAB” was discussed by Dr. Ravi Kumar Jatoth, Associate Professor, Department of ECE, National Institute of Technology (NIT), Warangal.

VALEDICTORY SESSION: The honorable personalities present in this occasion were Dr. Ravi Kumar Jatoth, Associate Professor, Department of ECE, National Institute of Technology (NIT), Warangal, Dr. Hathiram Nenavath, Associate Professor, Department of ECE, Vardhaman College of Engineering, Dr. S.Sai Satyanarayana Reddy, principal, Vardhaman College of Engineering Prof.Y.Pandu Rangaiah, Professor, Department of ECE, Vardhaman College of Engineering and Dr. JVR Ravindra, Professor, Department of ECE, Vardhaman College of Engineering .

APPLICATION FORM

FACULTY DEVELOPMENT PROGRAMME (FDP) ON

BIO-INSPIRED ALGORITHMS FOR INTELLIGENT SIGNAL PROCESSING
(24th April to 30th April 2019)

Organized by
Vardhaman College of Engineering (Autonomous), Shamshabad, Hyderabad
in association with

E & ICT Academy, National Institute of Technology, Warangal.
(Sponsored by Ministry of Electronics and Information Technology (MeitY), GOI)

- Name : Dr. J V R Ravindra
- Designation : ~~Asst.~~ Professor.
- Institution : VCE
- Email : jvr.ravindra@vardhaman.org
- Mobile No : 9440114765
-

SPONSORSHIP CERTIFICATE

Dr. Mr./Ms. J.V.R. Ravindra is an employee of our Institute/Organization and is hereby sponsored to participate in the FDP on "Bio-inspired Algorithms for Intelligent Signal processing", sponsored by Electronics & ICT Academy during 24th April to 30th April 2019 at Vardhaman College of Engineering, Hyderabad.

“Technical Manuscript Preparation with Latex(LyX)”

"Technical Manuscript Preparation With LaTeX(LyX)"
(12th - 13th March, 2019)

Organized by
Centre for Image Processing
Department of Computer Science & Engineering
in association with IQAC
VARDHAMAN COLLEGE OF ENGINEERING
(Autonomous)
Shamshabad - 501 218, Hyderabad, T. s,India

We cordially Welcome

Dr. Mohd Wajid
AMU, Aligarh
Ph.D IIT Delhi

Registrations

**Two Day Workshop
(Hands-on Session)
On
"Technical Manuscript
Preparation with
LaTeX(LyX)"
12th-13th March 2019**

Registration Form

1. Name : SVED ALEY FAJUMA
 2. Designation : Student
 3. Department : C.S.E
 4. Qualifications : M.Tech (pursuing)
 5. Teaching Experience :
 6. Name of the Institution : Vardhaman college of Eng
 7. Mobile No : 903660084
 8. E-mail ID : naayia in mustafa 716@gmail
 9. IEEE Member : YES/NO
(If yes, mention the membership ID)

Aley Fajuma
Signature of the Applicant

Sponsorship by the Head of the Institution

This is to certify that Mr./Ms. SVED ALEY FAJUMA of Vardhaman is sponsored to Participate in the Two day Workshop on "Technical Manuscript Preparation with LaTeX(LyX)" during 12-13 March 2019 at Vardhaman college of Engineering, Kacharam, Hyderabad.

lyx
Signature of Principal

CHIEF PATRONS
 Dr. T.Vijender Reddy (Chairman)
 Sri. T. Uppender Reddy (Secretary)
 Sri. M.Rajasekhar Reddy (Vice Chairman)
 Sri. E.Prabakar Reddy (Treasurer)

PATRONS
 Dr. S Sai Satyanarayana Reddy (Principal)
 Prof. Vivek Kulkarni (Professor, Dept of CSE)

CHAIR PERSONS
 Mr. T.Vidyasagar, Chairman, IEEE CS Hyd-Section
 Dr. M. A. Jabbar, Vice Chairman, IEEE CS Hyd-Section
 Mr. A. Rajanikanth, Secretary, IEEE CS Hyd-Section

CONVENOR
 Dr. Ashwani Kumar

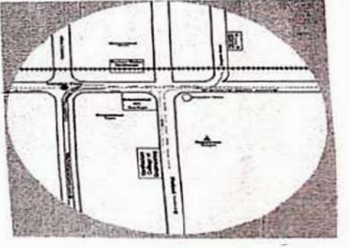

CO-ORDINATOR
 Mr. B Suresh Kumar

RESOURCE PERSON
 Dr. Mehd. Wajid (AMU, Aligarh)

ORGANIZATION COMMITTEE
 Faculty members and students of Centre for Image Processing.

ADDRESS FOR COMMUNICATION
Mr. B Suresh Kumar
 Assistant Professor
 Department of CSE
 Vardhaman College of Engineering
 Kacharam, Hyderabad, India
 Email ID: b.sureshkumar@vardhaman.org
 Mobile No: +91 9533444094

FEEDBACK

Work shop on " Technical Manuscript Preparation with Latex" on 12 & 13 March 2019

Participant Name: R. Manisha

manisha.ravisaba 1994 @ gmail . com

Date: 13/03/2019

9666535923

Designation: M.Tech 2nd year

INSTRUCTIONS

Please circle your response to the items. Rate aspects of the workshop on a 1 to 5 scale:

1 = "Strongly disagree," or the lowest, most negative impression

3 = "Neither agree nor disagree," or an adequate impression

5 = "strongly agree," or the highest, most positive impression

Choose N/A if the item is not appropriate or not applicable to this workshop. Your feedback is sincerely appreciated. Thank you.

WORKSHOP CONTENT (Circle your response to each item.)

- | | | | | | | | |
|----|--|---|---|---|---|---|-----|
| 1. | I was well informed about the objectives Of this workshop. | 1 | 2 | 3 | 4 | 5 | N/A |
| 2. | This workshop lived up to my expectations. | 1 | 2 | 3 | 4 | 5 | N/A |
| 3. | The content is relevant to my job. | 1 | 2 | 3 | 4 | 5 | N/A |

WORKSHOP DESIGN (Circle your response to each item.)

- | | | | | | | | |
|----|--|---|---|---|---|---|-----|
| 4. | The workshop objectives were clear to me. | 1 | 2 | 3 | 4 | 5 | N/A |
| 5. | The workshop activities stimulated my learning. | 1 | 2 | 3 | 4 | 5 | N/A |
| 6. | The activities in this workshop gave me sufficient practice. | 1 | 2 | 3 | 4 | 5 | N/A |
| 7. | The difficulty level of this workshop was appropriate. | 1 | 2 | 3 | 4 | 5 | N/A |
| 8. | The pace of this workshop was appropriate | 1 | 2 | 3 | 4 | 5 | N/A |

Time	Schedule	Speaker
9.30 to 10.30	Inauguration	
10.30 to 12.00	Introduction to LaTeX	Dr. Ashwani Kumar
12.00-12.10	Tea-Break	
12.10-1.10	Installation of Latex and Related Packages	Mr. B Suresh Kumar
1.10-2.00	Lunch - Break	
2.00-4.00	Fundamentals, Drawing Object	Mr. B Suresh Kumar
DAY-2		
9.30 to 10.00	Registration	
10.00 to 11.30	Introduction to LyX (A Graphical interface to LaTeX)	Dr. Mohd. Wajid
11.30-11.45	Tea-Break	
11.45-1.00	Figures, Tables, Labels and Cross-References	Dr. Mohd. Wajid
1.00-2.00	Lunch - Break	
2.00-3.00	Bibliographies, Equations and math mode	Dr. Mohd. Wajid
3.00-3.10	Tea-Break	
3.10-4.00	Exercises (if time permits)	Dr. Mohd. Wajid
4.00-4.30	Valedictory	

Overall Outcome:

Department of Computer Science & Engineering sponsored Two Day Workshop on "Technical Manuscript Preparation with Latex(LyX)" among Various Stakeholders has been organized by Vardhaman College of Engineering, Hyderabad on 12 March 2019 to 13 March 2019.

25 participants attended the Workshop in which respective stake holders were present, inclusive of students and faculty members from various the college.

Introduction

LaTeX is a high-quality typesetting system; it includes features designed for the production of technical and scientific documentation. LaTeX is the de facto standard for the communication and publication of scientific documents. LaTeX is available as free software.

LaTeX, which is pronounced «Lah-tech» or «Lay-tech» (to rhyme with «blech» or «Bertolt Brecht»), is a document preparation system for high-quality typesetting. It is most often used for medium-to-large technical or scientific documents but it can be used for almost any form of publishing.

LaTeX is not a word processor! Instead, LaTeX encourages authors not to worry too much about the appearance of their documents but to concentrate on getting the right content. For example, consider this document:

Cartesian closed categories and the price of eggs

Jane Doe

September 1994

Hello world!

To produce this in most typesetting or word-processing systems, the author would have to decide what layout to use, so would select (say) 18pt Times Roman for the title, 12pt Times Italic for the name, and so on. This has two results: authors wasting their time with designs; and a lot of badly designed documents!

LaTeX is based on the idea that it is better to leave document design to document designers, and to let authors get on with writing documents. So, in LaTeX you would input this document as:

```
\documentclass{article}
\title{Cartesian closed categories and the price of eggs}
\author{Jane Doe}
\date{September 1994}
\begin{document}
  \maketitle
  Hello world!
\end{document}
```

Or, in English:

- This document is an article.

DEPARTMENT OF ELECTRONICS AND COMMUNICATION ENGINEERING

Indo-Israel Space-Tech Leadership Programme-Israel Visit, 10-15 Feb 2019

A new paradigm of student satellite development programme/s on the foundations of experiential learning, backed by veteran collaborators is envisioned by this program. The consortium gave the best available expertise across cross-border technologies required to identify a path-forward for small satellite development missions by Indian academia.

Globally, Israel has been a pioneer in developing and successfully launching student-built satellites into orbit. The visit to Israel has given a perspective of space technologies developed by the institutes/universities of that country, and facilitate participants to establish similar such successful satellite missions.

This exploratory visit to Israel facilitated interaction with Israeli organisations which are into space technologies including successful student satellite development and launch. The visit gave insights that include a comprehensive understanding of the student satellite development life-cycle, the associated best practices, networking opportunities with experts and exploring funding opportunities.

The detailed program schedule is attached. The report on each day of the visit is given below.

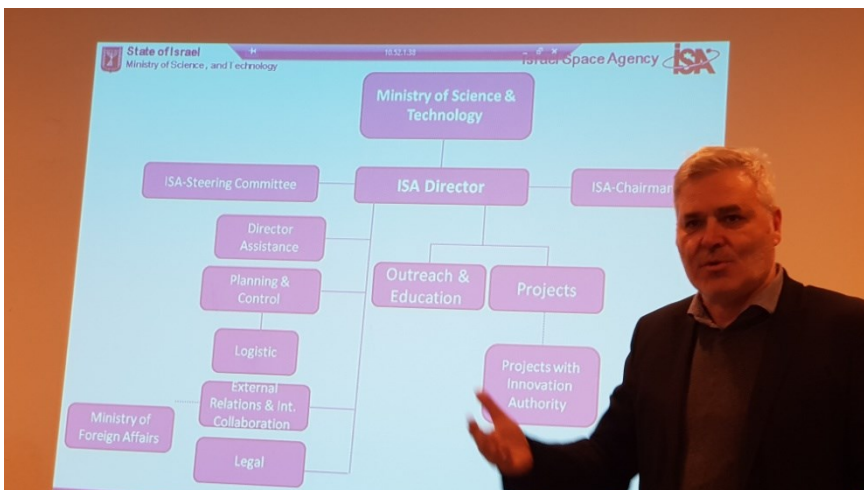

Day 1: Arrival from Airport to Grand Beach Hotel in Tel-Aviv, 9.00pm

Day 2: Conference at the Hotel (9.00am to 12.00pm), Industrial Visit to Elbit Systems (2.00pm - 4.00pm)

Session 1: ISA collaboration with international space agencies by Leo Vinovezky, Director of Department-Incharge of external relations and international collaborations, Ministry of Science and Technology, Israel Space Agency (ISA). Brief talk on where ISA is today in collaboration with big players in space agencies all over the world including ISRO.

Key points discussed:

1. System hierarchy in Ministry of Science and Technology, ISA

ISA State Of Israel Ministry of Science & Technology Israel Space Agency Leo Vinovezky Director of Department-In charge of External Relations & International Collaborations 52 Menachem Begin st. SONOL TOWER Floor 15 Tel Aviv 67137, Israel Tel: 972-3-7649609 Fax: 972-3-7649622 Mobile: 972-50-6203054 E-mail: leov.ext@most.gov.il

2. Main Objectives of ISA

- Supporting the space industry
- Positioning Israel's Global Status
- Expand basic research and infrastructures
- Education and community outreach
- International Collaborations

Session 2: Creativity and Innovation in Israeli Space Program – Past, Present and Future by Prof. Chaim Eshed.

An elaborate talk by Prof. Eshed. He is the founder of space program in Israel. He shared few challenges encountered from his time in military service, in keeping his ideas into actions, from developing Ofeq satellites which is of size of a refrigerator to Nano satellites. Shared few technical details in developing basic satellite. And Israel Space journey from 1967 till today.

Key Points discussed:

- There is no formula for creativity, a brilliant lead is required to achieve technological breakthroughs (In academia the bright minds turn creativity into science. In industry they turn creativity into money)
- The world of technology is becoming chaotic and therefore requires continuous technological and organizational intelligence as well as social intelligence (after all we all are social beings)
- The Israeli eco-system, which has explosive thinking, daring and ethics, creates added value in the global technology
- We need to know how to let go of existing technology in time (be free of intellectual convictions) and look five and ten years ahead while examining trends in the world.
- The creativity of the leaders should be encouraged and not be discouraged by the organization (a common autoimmune disease of organizations!)
- The technological trend today is "wisdom of the crowd" which means: Artificial Intelligence/ Deep Learning, New Space, Robotics etc.

Session 3: Nano satellites Development Project by EladSagi, Systems Engineer working in Herzliya space center

Key points Discussed:

- ➔ System Engineering involved in Satellite development (V-Model)
- ➔ Simplified Project Life Cycle -NASA and ESA
- ➔ Typical Project Life Cycle consisting of
 1. Phase 0-Mission analysis/needs identification
 2. Phase A- Feasibility Phase
 3. Phase B-Preliminary Definition
 4. Phase C-Detailed Definition
 5. Phase D-Qualification and Production
 6. Phase E-Utilization
 7. Phase F-Disposal

Phase 0-Mission analysis/needs identification

Defines the mission need and examines the proposed mission's objectives and the concept for meeting those objectives.

MRR (Mission Requirements Review) affirms the mission need and examines the proposed mission's objectives/ Requirements and the concept for meeting those objectives.

Phase A- Feasibility Phase

Systems requirements definition and first design concept which complies with the requirements.

- Preliminary concept design
- Technical requirements specification
- Selection of system and operations concept

Phase B-Preliminary Definition

Definition of sub-systems which comply with system requirements

PDR (Preliminary Design Review) - the verification of the preliminary design of the selected concept and technical solutions against project and system requirements.

Phase C-Detailed Definition

- Completion of detailed design
- Completion of system budget analysis
- Detailed definition of interfaces (internal and external)
- Completion of assembly, integration and testing planning

CDR - Critical design Review – The goal of the review is to analyze the detailed system definition at system level and that the system complies with requirements.

Phase D-Qualification and Production (Part 1)

- SW development
- Assembly of flatsat
- Assembly and integration at sub-systems level (SW and HW)
- Assembly and Integration of S/C
- At System level
- Full Functional tests
- “Test as you fly” - S/C with Ground Control station

IRR – Integration Readiness Review – The goal of the review is to assure that:

The integration plan is detailed, accurate and adequate for the system

That the support equipment and infrastructure is appropriate for the integration process

Phase D-Qualification and Production (Part 2)

The goal of the test is to prove that the S/C can with stand the launch and Space conditions

- vibration
- Backout and thermal vacuum
- Thermal balance only for PFM (optional)

TRR –Testing Readiness Review - The aim of the Review is to assure that the:

S/C is complying with the requirements and is ready for the tests

That the testing plan is final and complies with the testing requirements

LRR – Launch Readiness Review – To assure that the S/C is proven and complies with all the launch requirements

Phase E-Utilization

- Launch of Spacecraft
- Operation in Space

First acquisition of S/C

IOT – In Orbit Testing and S/C qualification

Routine monitoring and controlling of S/C

1.00pm – 2.00pm Lunch at Arcaffe

Session 4: Industrial Visit -Elbit Systems (5 Hamada ST, Rehovot)

Elbit Systems design and manufactures electro-optic-based solutions for space, air, land and sea applications. Its electro-optic products include laser and thermal imaging systems, head-up displays, countermeasure systems and ISR systems, including payloads for space, airborne, naval and land-based missions. The products in this area also include ground integrated sights and homeland security solutions. Manufactures high resolution cameras that serves satellite imaging purposes.

Mr. ArieLeizer, Manager – System Engineer Group Manager, He gave a brief introduction about Elbit Systems which is a leading technology for Defense for homeland security and commercial applications.

Business Areas:

- Defense, Air bourne and simulations
- Counter measure systems
- Cyber Solutions
- Combat Vehicles
- Communication systems
- Training and Simulations
- Multi Domestic Company

Had an elaborate lecture on high spectral resolution cameras used for satellite applications for land and oceans-SHALOM. The design, manufacturing process, levels of testing in the presentation. We visited **Daniel laboratory**, where we saw Thermal Vacuum Chamber, Clean Room, Sample Satellite Telescope (Jupiter and Neptune)

Then the day ended with visit around the cities **Tel Aviv and Jaffa**.

Day 3 – Tel Aviv University Visit

Tel Aviv University is the biggest university in Israel, which has following departments.

- Department of exact sciences (Includes Physics, Mathematics, Chemistry and Computer Science)
- Department of Environmental and Earth Science
- Department of Material Science
- Department of Computer Science and Engineering
- Department of Electrical and Electronics Engineering
- Department of Electronics and Communication Engineering
- Department of Mechanical Engineering

They took us on a University Tour to all departments. We visited the Classrooms and Laboratories. Had guided tour of the University. Showed us different departments and ongoing interdisciplinary research works, tour of sophisticated lab facilities particularly in physics department (atomic, nuclear research lab, nano-femto lab) and environmental science building.

Porter School of the Environmental and Earth Sciences is the only building in the entire Israel which is constructed environmental friendly. It has natural lighting, natural air conditioning, dark water (which is sewage water) purifier and used for irrigation purpose, desalination of sea water for drinking purpose etc. We spend more time in Environmental and Earth Science. Two major projects initiated by the environmental Science department are

- ✓ **Green Roof** – It reduces Temperature of the building, absorbs noises , radiation and rain water also we had a chance to look at the vegetation planted on the roof of the building
- ✓ **Water Recycling** – They recycle water sewage from hand wash and dish washer to vegetate the green roof and other plants that grows in the university premises.

Finally we had a presentation on Environmental Innovations to solve Global Solutions by **Prof. Colin Price, Porter School of the Environmental and Earth Sciences**

He gave a brief introduction on Nature Ventilation, Passive Design, Water recycling, Solar tube technology, Sustainable Development Goals- 15 years

Purpose of Satellite Launch - Areas to be considered

- To monitor refugee and Management
- To monitor air pollution
- To monitor deforestation, oil spills
- Urbanization (water resources and population)
- To study space weather

After the visit to Porter School of the Environmental and Earth Sciences, we had lunch at university cafeteria and headed to the holy place Jerusalem.

Day 4 – Asher Space Research Institute (10.00am-12.00pm), Technion University (1.00pm-2.30pm), Ramon Chips (2.30pm-4.00pm), Herzliya Science Centre (5.00pm-6.30pm)

Session 1: Application of Nano devices for Nano satellites by Prof. Giora Shaviv

On the Third day we were at **Technion university** visit. One of the top institutes in the world, and first institute in Israel with engineering discipline. They do leading research in all Engineering fields. Whereas the other university, Tel Aviv has many schools apart from school of Engineering. The university has three noble laureates from the same university. It has distinguished space research centre. And very senior **Prof. Giora Shaviv**, has given a lecture on Nano devices for Nano satellites.

Session 2: Asher Space Research Institute-Activities by Prof. Pini Gurfil

Another lecture by Prof Pini Gurfil on integrated parts involved in satellite and different architectures, models in different stages of development. It was good to hear about Space studies program they conduct for international students and short campus tour, followed by lab visits in space center, Vacuum chamber for testing, clean room, small prototype models developed.

Laboratories at Technion University

Technion and Asher Space Research Center

We were at **Ramon chips** a leading industry which supplies chips and processors that are exclusively used for satellites.

Herzliya space center is a center for student satellites development where in school children from different schools get together and develop nano satellites Duchifat-1 which is 1U successfully launched as first student satellite from Israel. And Duchifat-2 was launched successfully and worked for 4 years. Now the students are developing Duchifat-3. They gave excellent presentation on their project and experiences. Israeli schools made satellite training subjects as a part of the curriculum. Students told us that, during their childhood most of the children has this dream of making satellites. And by the time they were at 8th standard, they start building the successful satellites. It was a wonderful experience talking with those children. We had glimpse of very small size ground station and clean room which is shown below for their satellite projects. And Prof. Miere who is the main

person coordinating from Israel side assured that they will provide entire technical support in every step right from training to establishing labs.

And after the school student presentation, there was 30 min presentation by one of the three founders of a small sized space company called Spacell. Initially they started as non-profit volunteering organization that promotes science to the public especially space science. So, there was once this competition conducted by Google space and many teams all over the world participated in it including India along with these three guys who were just about to finish their graduation. Their challenge is towards mission to moon. Google has to sponsor the project if gets selected and somehow time went on no one submitted their actual working model on time and Google left them from the challenge without funds. But these three guys founded Spacell and kept working towards the moon mission. They raised money from big donors in Israel. The total money they raised is 700 crores. Now, they are ready to land an unmanned rover onto moon, within next 6 days as dated on 13th Feb 2019.

Clean Room facility at Herzliya Space Center

These talks, lectures, and experiences gave much insight to the satellite project. Meanwhile we got some information about Indo Israel Mission 2022 from Dr. Gopala Krishnan. Later we had free night to visit streets of Tel Aviv and dinner at Tandoori, an Indian restaurant.

Day 5 - (9.00am to 12.00pm) – Visit to Ben Gurion University of the Negev, Inspiration meets Excellence, Green house and hydroponic cultivation

Ben Gurion University is the fast growing research university in Israel. It has 20,000 students, 4000 faculties and which has following departments.

- Department of Engineering science
- Department of Health Science
- Department of Natural Science
- Department of Social science and Humanities
- School of Medicine

Prof. Dan Blumberg gave a brief introduction about Ben Gurion University and introduced few faculty members. He presented on distinguished fields of research, small satellites launch by different faculties (from senior professor to PhD student) He also explained more about Robotics, Nano technology, Cyber security, Bioinformatics, Biotechnology and Information Technology and Communications.

Ben Gurion University is a partner in initiative and establishment of Advanced Technologies park-Hi – Tech and Biotechnology Park located next to the Marcus Family Campus, where students get an opportunity to get hands on experience while doing their graduate studies. He spends his time to and fro in the campus and IT park.

They took us on a University Tour. We visited ILSE KATZ Institute for Nano scale Science and Technology within the same campus, where we had a chance to visit optics lab ongoing research involving spectrometers for small satellite cameras.

Later, upon our request, they arranged a short visit to the **hydroponic cultivation** discovered by Israelis. They explained how the technology is used for cultivating green vegetables in an organic way. The process involves, small size packed seed inserted soil bed dipped in just sufficient water containing well programmable controlled pesticide and other minerals required as per the plant requirements. The plant requirements are also can be programmed like our hybrid quality vegetables. The water and the plants are placed on very long plant carriages in rows n columns at certain height not on ground for easy removal once the plants are grown.

Finally we had a conclusion meeting of the program. MAZ investment Ltd. Israel, are ready to lend us loan and can start the process immediately best before March. Once the paper work is done, the program starts immediately aiming to complete by 2022.

Presentation of Memento and Participation certificate at Ben Gurion University

Classification/Category of Satellites

- a) Minisatellite (100–500 kg)
- b) Microsatellite (10–100 kg)
- c) Nanosatellites (1 -10 kg)
- d) Picosatellites (100 gm-1 kg)
- e) Femtosatellites (10-100 gm)

Proposed Plan of Action

- a) Selection of Payload (Novelty)
- b) Payload Design and Development
- c) Payload Integration
- d) Mission Software Development (Programming)
- e) System-Level Testing

Major Components of Satellite Project and Agencies to be Identified for the following:

- Payload development
- Built-to-print of flight hardware
- Environmental test services
 - Vibration testing
 - Mechanical shock testing
 - Mass properties measurements
 - Thermal vacuum testing
 - Thermal cycling
 - EMC testing
- Technical consulting on Small Space Missions

Standardized Training Options

- Space Systems Engineering Training
- CubeSat Mission Design and Development
- Spacecraft Operations
- Dedicated Training Hardware Solutions

Development Programmes (also to maintain or further develop their position in the space domain.)

- Tailored programmes based on our needs
- Coaching and support to faculty/student specialized teams
- Support in establishing local labs and facilities
- Options for on-the-job training at Space Industries/Institutions

APPLICATION AREAS:

1. **Earth Sciences:** *Nanosatellites for better understanding of our own planet*
2. **Ship Tracking Services:** *Near real time vessel tracking using satellite-AIS*
3. **Aircraft Tracking:** *Keeping track of aircraft on a global scale using ADS-B*
4. **Space Research:** *Small scale astronomy and exploration missions*
5. **Climate Monitoring:** *Network of satellites to monitor climate change*
6. **Earth Observation:** *Provide real-time imaging capability with satellite swarms*
7. **Agriculture Monitoring:** *Improve crop production using remote sensing data*

8. **Microgravity Research:** Use the space environment to gain new insights
9. **Pipeline Monitoring:** Monitor critical infrastructure using satellites
10. **Signal Intelligence:** Use small satellites to ensure the security of our nation
11. **Education and Training:** Train the next generation scientists & engineers
12. **Telecommunications:** Provide global connectivity using small satellites
13. **Technology Validation:** Test your latest technologies onboard a small satellite

Funding Models/Agencies:

Banking/Non Banking Institutions from Israel and/or Self Supporting by Host Institutions

Note: In case of funding @2-3% Annual Interest for 5-10 year period, concerned borrower institutions will provide collaterals as per norms of funder(s)/funding agencies.

Major Components	Approx Budget in Rs.	Remarks
a) CubeSat and Nanosat/Picosat Missions: <i>Antenna Systems, Attitude Control Systems, Communication Systems, Command Data Handling Systems, CubeSat Structures, Solar Panels</i>	70-100 Lacs	2-3 Year Duration to Launch
b) CubeSat Platforms		
c) Payload Development and Integration		
d) Training and Mentoring Sessions	25-50 Lacs	
e) Internships and Exchange Programmes		
f) Launch Services	15-25 Lacs	
g) Ground Stations	50-75 Lacs	
h) Commissioning and Operations Support	15-25 Lacs	
i) Publications/Promotions and Participation in Events/Conferences	5-10 Lacs	
j) Travel and Secretarial Assistance and Coordination/Project Monitoring	15-25 Lacs	
k) Contingency @ 10-15% as per Project Cost	5-20 Lacs	

Average Project Cost per Satellite: Rs. 2 Cr to 3.5 Cr

Conclusion:

The Indo Israel Space tech Leadership Programme has been well organised by ITCA, India as well as Israel Programme directors. We came to know about Israel Space Agency in the world on par with other international space agencies and its collaborations with big players like NASA, ESA, ISRO etc. and various industries. Visits of Tel Aviv, Technion and Ben Gurion Universities facilitated meetings with world's renowned emeritus Professors and their ongoing multi-disciplinary researches, well equipped sophisticated laboratories. We gained a brief knowledge on developing Nano satellites. The industrial visits made us understand the Israeli industrial standards, precision and accuracy of developing and manufacturing of any products such as high resolution spectral cameras, on board processors chips etc. used for Nano satellites. We gained good networking with Israeli Space Technologists, scientists, and highly qualified Professors and industrialists. The overall trip created a friendly relationship with Israel coordinators and also among various institutes who have participated in this delegation.

Acknowledgements:

I sincerely thank Dr.Vijayender Reddy, Chairman, Dr. Sai Satya Narayana Reddy, Principal, Mr. Hanuman Reddy, Head of Administrative Office, Prof. Y. Pandurangaiah, HOD, ECE Dept. Vardhaman College of Engineering, Dr.MallikarjunBabu, for giving me this opportunity to lead Vardhaman Student Satellite project and sending me to Indo Israel Space Tech Leadership Programme to gain insights into the project. I personally thank programme directors, Dr. K. Gopala Krishnan, Secretary General, ITCA, Dr. Meir Ariel Director, Nano satellite Center, University of Tel Aviv, Israel, Mr. AkibaPenkar, Director, TMISAT, Israel for well organisation of the programme and making it success.

Outcomes achieved:

- Understanding the feasibility of the projects
- Overview of Life-cycle of Student Satellite Development
- Best Practices in successfully developing Student built Satellites
- Networking opportunities with Israeli Space experts
- Professional engagement with Israeli Space -Tech Organisations.

ONE WEEK FACULTY DEVELOPMENT PROGRAMME ON

RAISING AWARENESS ON CONSULTANCY IN CIVIL ENGINEERING

(RACCE-2018)

26th Nov. - 1st Dec, 2018

ORGANIZED BY

DEPARTMENT OF CIVIL ENGINEERING

IN ASSOCIATION WITH IQAC

VARDHAMAN COLLEGE OF
ENGINEERING

(Autonomous)

Shamshabad – 501218, Hyderabad, T. S., India

www.vardhaman.org

How to Reach Vardhaman: Reach Shamshabad BUS COMPLEX - Take a right turn following bus complex
(Towards Shabad) - Travel 8 KM to reach the college.

For details of bus routes please go to: <http://www.vardhaman.org/facilities/transport.html>

RAISING AWARENESS ON CONSULTANCY IN CIVIL ENGINEERING (RACCE-2018)

ABOUT THE COLLEGE

Vardhaman College of Engineering was established in the year 1999 with an endeavour to impart high quality Technical Education and innovative research in the fields of Engineering technologies, with emphasis on industry oriented programs for development of students as well as faculty. Vardhaman College of Engineering is affiliated to Jawaharlal Nehru Technological University (JNTU), Hyderabad, and is approved by the All India Council for Technical Education (AICTE), New Delhi.

The prime objective of Vardhaman College is to update and modernize the quality of professional education. Its aim is to employ innovative teaching methods which carry an emphasis on fast changing technological trends. This is to integrate classroom learning with actual work experience in the industry concerned or in a related professional field in the course of continued march towards excellence. Vardhaman College recently has crossed another milestone of success by emerging as top college in achieving UGC - College with Potential for Excellence (CPE) status out of two Engineering colleges from State of Telangana.

ABOUT THE DEPARTMENT

The Department of Civil Engineering is established in the year 2009. The department is equipped with well qualified and experienced faculty members, well established laboratories with latest software and advanced equipment as per university norms with an emphasis on practical approach and skills. The goal of the Civil Engineering Department is to prepare students for entry into Civil Engineering profession, and is designed to meet a carefully planned set of educational objectives.

PROGRAM MILESTONES

The program offers expert talks on consultancy services for the following:

- Materials (Concrete)
- Quantity Surveying
- Good Construction Practices
- Tenders
- Building Bye-Laws
- Transportation Engineering
- Geotechnical Engineering
- Environmental Engineering
- Remote Sensing and GIS

SPEAKERS

Academicians

Dr. N.S.R Prasad, NIRDPR

Mr. Kasi Ram, ACC Secretary

Mr. Chandramouli, College of Engg. A.N.U

Industrialists

Dr. Vinod, Assistant Manager Highway Department, Aarvee Associates, Hyd

Mr. Srinivasa Singh, D.E.E R&B Department

Mr. R. Ranga Rao, Head of SL Structural Consortium

Mr. Sunil, Structural Engineering & Consultant

Dr. D Neela Priya, Sanitation expert & Knowledge Manager, ASCI

Education breeds confidence. Confidence breeds hope. Hope breeds peace. -Confucius

**Report on
Faculty Development Programme
On
RAISING AWARENESS ON CONSULTANCY IN CIVIL ENGINEERING
(RACCE-2K18)
at
Civil Engineering Department, Vardhaman College of Engineering**

A one week faculty development programme on “**Raising Awareness on Consultancy in Civil Engineering**” (RACCE-2018) was held at Department of Civil Engineering, Vardhaman College of Engineering from 26th November to 01st December, 2018. The FDP is aimed in setting a platform to the academicians, research scholars, Industry experts and students to enrich their long term goals in consultancy services. The main intent to conduct this FDP is to examine mechanisms for bridging the gap between academics, research and consultancy needs.

One Week FDP on RACCE-2K18 from 26th Nov-1st Dec 2018

INAUGURAL SESSION:

The esteemed personalities present on the inauguration of the programme:

- Dr. Neela Priya Devulapalli, Sanitation and Knowledge Management Expert
- Dr. Sai Satyanarayana, Principal, Vardhaman College of Engineering
- Dr. G. Mallikarjuna Rao, HOD, Department of Civil Engineering
- Dr. G.V.K Reddy, Professor, Vardhaman College of Engineering

FDP started by introducing the guest and followed by lighting lamp by all the respected dignitaries.

Dr. G. Mallikarjuna Rao, HOD of CE welcomed all the respected dignitaries and participants. Dr. Sai Satyanarayana, Principal of Vardhaman College of Engineering appreciated the program organized by CE department in his speech.

Dr. G. Mallikarjuna Rao, HOD of CE welcomed all the respected dignitaries and participants

Dr. Sai Satyanarayana, Principal of Vardhaman College of Engineering appreciated the program organized by CE department in his speech.

TECHNICAL SESSIONS :

1st Day (26/11/18):

Dr. Neela Priya Devulapalli, Sanitation and Knowledge Management Expert, Administrative Staff College of India has delivered a talk on **“Institutional Support & Capacity Building for Operating Environmental Consultancy”** on 26/11/2018.

2nd Day (27/11/18) Session I:

Mr. V. V. Rangarao, Design head – SL Structural Consortium has delivered a interactive lecture on **“Consultancy works in Structural Engineering”**.

Mr. V. V. Rangarao, Design head – SL Structural Consortium has delivered a interactive lecture on **“Consultancy works in Structural Engineering”** on 27/11/18

2nd Day (27/11/18) Session II:

Dr. N.S.R Prasad, Assistant Professor, NIRD-PR has delivered informative lecture on **“Applications of RS & GIS in Civil Engineering”**. In this session participants gained the

knowledge about RS & GIS applications and about the tools that allow users to create interactive queries (user-created searches), analyze spatial information, edit data in maps, and present the results of all these operations.

Dr. N.S.R Prasad, Assistant Professor, NIRD-PR has delivered informative lecture on **“Applications of RS & GIS in Civil Engineering”** on 27/11/18.

3rd Day (28/11/18) Session I:

Mr. Adepu Kashiram, Chief Consultant, AKR Associates (Structural Engineers, Valuers & Builders), has delivered informative lecture on **“Building Bye-Laws”**. In this session participants gained the knowledge about certain rules and regulation framed by a municipal or town planning or urban development board to control the development of area under its jurisdiction.

Mr. Adepu Kashiram, Chief Consultant, AKR Associates (Structural Engineers, Valuers & Builders), has delivered informative lecture on **“Building Bye-Laws”** on 28/11/18.

3rd Day (28/11/18) Session II:

Er & Ad P. Srinivasa Reddy, Concrete Rehabilitation Expert, Advocate & Arbitrator has delivered a lecture on “**Management & Legal Issues in Civil Engineering Consultancy**”.

Er & Ad P. Srinivasa Reddy, Concrete Rehabilitation Expert, Advocate & Arbitrator has delivered a lecture on “**Management & Legal Issues in Civil Engineering Consultancy**” on 28/11/18.

4th Day (29/11/18) Session I:

Mr. M. Vamshi Raj, Assistant Executive Engineer, Irrigation & CAD Department has delivered a lecture on “**Consultancy Works in Water Resources Engineering**” on 29/11/18.

4th Day (29/11/18) Session II:

Dr. A. Vinod, Assistant Manager, Transportation Roads & Bridges Department, Aarvee Associates has delivered lecture on **“Consultancy Works in Transportation Engineering”** on 29/11/18.

5th Day (30/11/18) Session:

Mr. D. Chandra Mouli, University College of Engineering, Acharya Nagarjuna University has delivered a informative lecture on **“Quality Control & Quality Assurance in Concrete Construction”** on 30/11/2018.

VALEDICTORY SESSION:

The honorable personalities present in this occasion were Dr. N. Darga Kumar, Assistant Professor, Civil Engineering Department, JNTU Hyderabad.

Dr. G. Mallikarjuna Rao, Head of the Department summarized the program. The program was ended with vote of thanks.

Dr. N. Darga Kumar, Assistant Professor, Civil Engineering Department, JNTU Hyderabad was invited for valedictory session on 29/11/18.

OUTCOME :

All the sessions were very much informative. The discussed areas are of great benefit for the participants to start their consultancies in civil engineering. This in turn will help in research activity and consultancy works.

Semester Toppers Certificate Presentation

A Guest Lecture Report On “Opportunities in Civil Engineering” dated 20th September 2018

About the Guest:

Shri, Dr. V. S. S. Kumar, B.E., M.Tech., Ph.D (IIT-D), Post-Doc (USA)
Vice-Chancellor,
JNTU, Kakinada.

Shri, Dr. V. S.S. Kumar, Vice-Chancellor, delivering a Guest Lecture on Opportunities in Civil Engineering

On the occasion of VARADHI event conducted by Department of Civil Engineering, Vardhaman College of Engineering, **Dr. V.S.S Kumar**, Vice-Chancellor, JNTU Kakinada was invited as a Chief Guest. As part of the event **Dr. V.S.S Kumar**, Vice-Chancellor delivered a Guest Lecture on **Opportunities in Civil Engineering** on 20-09-2018.

The students from B.Tech Civil Engineering and Faculty members participated in the Guest Lecture on “Opportunities in Civil Engineering”. The speaker explained about the job prospects for civil engineers, career growth opportunities available for civil engineering students and shared various real time issues in the field of civil engineering. The expert speaker mentioned that “More than 70% of the jobs are offered by private companies. They need Civil Engineers with basic degree only. But job proficiency is a must. If you closely observe the job market, you can see that the job requirements are focused on specialized engineering skills such as **Planning Engineer, Project Engineer, Billing Engineer, Quantity Surveyor, Tendering Engineer, QA/QC Engineer** etc based on the nature of the job”. Also, explained about importance of competitive exams. Later, students interacted with speaker and clarified their doubts. Students greeted the speaker for sharing his valuable thoughts. Finally, Dr. G. Mallikarjuna Rao, Head of the Department, felicitated the guest speaker.

Abstract:

In the age of globalization, the world has turned into a small family due to extensive development in the field of science, and information and communication technology. While progressing so fast, we as a society failed to build our relationship with the self, family, society and nature. At this stage, the role of the teachers becomes extremely important in order to guide or instruct our students regarding Universal Human Values. When we discussed the role of teachers, the emphasis should be on content of teaching as well as human values to the students. The overall development of the students should be the goal of our teaching and learning. Value education may seem a vague term to many of us even though we may be hearing frequently. But it is precious in the context of professional education, personal and societal growth.

The purpose of this workshop is to clarify certain fundamental issues which are related to all of us in our life. Issues related to our happiness, our welfare, our aspirations, goals and success in life.

Outcomes:

By the end of the workshop, faculty will be able to

1. To understand the individual and collective happiness and prosperity in a sustainable manner.
2. It may enable the participants to understand values and its role in the professional context.

Schedule:

03 September 2018 to 08 September 2018

9:00 AM – 4:00 PM, Venue: E-Classroom, Block - 5

FDP on "Teaching Methodologies and Understanding Universal Human Values and Ethics"

"Wisdom is a kind of knowledge. It is knowledge of the nature, career, and consequences of human values." Sidney Hook

Report on

**Faculty Development Program (FDP) on
Teaching Methodologies and Understanding Human Values & Ethics**

03/09/2018 to 08/09/2018

Background to FDP

Faculty development programs (FDPs) have proven to be successful for improving teaching skills in higher education particularly in the field of technical education. As it has long been believed that the teaching faculty is the soul of any institution of higher education who teach/impart knowledge and skills to students. But till last century, the focus was mainly on content based teaching for which faculty members sometimes being criticized for shortcomings in their teaching performances. In the present context, the amalgamation of skills and knowledge is in great demand with creative and effective teaching and use of technology such as Information and Communication Technology (ICT), Computer based Educational Program, up gradation of Knowledge and Skills, taking roles and responsibilities for teaching and learning are highly demanding and important for the present generation teachers. Hence, Faculty Development Programs (FDP) address all the above issues to update the teaching faculty with new knowledge and skills in order to make teaching and learning process conducive and learners as well as learning friendly.

Introduction

Faculty Development Programs (FDPs) have been one of the regular PRACTICES of the department of Freshman Engineering under Humanities and Sciences. The department of freshman Engineering, in the leadership of Prof. Rajendar organized Faculty Development program to enhance and share our teaching and learning experiences with the help of advanced and updated teaching methodologies and human values. The topic for one week Faculty Development program (FDP) was Teaching Methodologies and Understanding Human Values and Ethics under the coordination of Prof. Rajendar which was scheduled on 03/09/2018 to 08/09/2018.

Objective

The primary objective of the Faculty Development program was to share or update our knowledge and skills in the present context. Following are the objectives set to achieve for this FDP:

- ❖ To help the faculty to Integrate technology into teaching, learning, and help to understand new computer-based educational programs in the field of technical education
- ❖ To demonstrate innovative and active teaching learning process
- ❖ To develop the understanding of the faculty to bring humane aspects of teaching and learning
- ❖ To understand human values and ethics in the professional as well as personal contexts

Speakers/Resource Persons

1. Dr.P.Sarah, Dean & Professor

Professor, Dr.P.Sarah has twenty four long years of teaching experiences, a great scholar with forty one international conferences paper publication and fourteen national conferences with paper publication that has also authored six books in area of Optical Fibres and Engineering Physics and Chemistry. Her areas of specializations are Ferroelectrics, Sensor Technology and Composite Materials. Her lectures included for the FDP were Role and Importance of Faculty Development Program and Innovative Teaching and Learning. She discussed at length regarding the current practices and methods of teaching and learning how out of box thinking would help the teachers to enhance their teaching. Her focus was to accept the challenges and respond creatively and innovatively.

2. Prof. S. Rajendar, Head

Prof. S. Rajendar needs no introduction as he is the head of the department and main resource person for the Faculty Development Program. It was his ideas which were materialized to go ahead with the FDP topic which was discussed at length during the program. He is equipped with thirteen years of teaching experience and several international and national publications. He has co-authored two books with his colleague. His area of specialization is Low Power and High-Performance VLSI Circuit Design and Interconnect Modelling and Optimisation. For this particular Faculty Development Program he delivered his lectures on Instructional Design, Enhancing Learning Communities through Networking, Active Learning and Creating an Inclusive Classroom.

3. Dr.P.Nageswara Rao,Professor

Professor, P. Nageswara Rao is an enthusiastic and energetic faculty who loves to teach and shares his experience with other faculty. He has twenty six years of teaching career in which he has established himself as a great teacher trainer. His area of specialization is Microstrip Antennas. He has several research publications in International and National Journal. His topics for the Faculty Development program were Classroom Management, Educational Assessment, and Role of ICT in Teaching and Learning. His lectures mainly focussed on the role of teacher and instructional material to manage the classroom. He provided the details of Educational Assessment tools which was really helpful and stressed on the role and importance of Information and Communication

Technology in the present context. He, further, suggested the faculty to start using technology in order to make teaching and learning meaningful.

4. Ms.V.Kavitha, Associate Professor

Ms. V. Kavitha is renowned Mathematician and research scholar who loves to solve the mathematical problems. She has nineteen years of teaching experiences and currently serving at VCE as an Associate Professor. Her area of specialization is Fluid Mechanics. Her talks included topics for this FDP were Trends in Higher Education, Faculty Evaluation, and Engaging Today's Learners. She discussed all these topics very clearly for the newly joined faculty and asked them to take challenges and ready to change their methods and materials to engage the learners in the classrooms.

5. Mr. S. P. Kishore Assistant Professor, Mathematics

Mr. S.P. Kishore is a talented Mathematician who is working as an Assistant Professor for VCE and very active to deliver talks. He possesses fifteen years of teaching experiences and has specialization in Mathematical Modelling and Operational Research and published five papers in International journals. He has done several NPTEL courses and got A.K.Ramanujan award for his contribution in the field of Mathematics. His talks were mostly related to Universal Values and Ethics and how universal values play an important role for the students. He discussed role of education in order to develop universal values in the students of the current generation. His topics of discussions were Role of Education in Holistic Development, Role of Education and Right Understanding, Harmony in Society, Harmony in Existence and Right Understanding of Physical Facility and Harmony with Nature.

6. Dr.Manjeet Kumar Singh, Assistant Professor in English, VCE

Dr. Manjeet Kumar Singh is an enthusiastic and energetic teacher who works for VCE as an Assistant Professor in English with two years of teaching experience. His area of specialization is Language Teaching and Learning especially in Teaching Academic Writing. He talks included topics for this FDP were Role of Education for Definite Human Conduct, Harmony in Family and Understanding Relationship, Teacher as a Researcher: The role of research in teaching, Harmony with the SELF and Designing Writing Assignments and Responding to Students' Writing. He discussed about teacher as a researcher and researcher as a teacher and the role of teacher in the field of research. He stated that teaching is a self-reflecting practice and must be done by each faculty. Further, he also discussed how Harmony with SELF would change the face of family and society.

Outcomes

The FDP was expected to result in enhanced teaching performance by faculty and improved learning outcomes for students. Such improvements included the development of new teaching skills or assessment techniques, improved ways of designing or implementing curricula, newer ways of viewing the student-teacher relationship, and increased commitment to the educational perspectives.

Following outcomes were achieved by this Faculty Development Program:

- ❖ High satisfaction with FDPs

- ❖ Changes in attitudes toward teaching and faculty development
- ❖ Gains in knowledge and skills
- ❖ Changes in teaching behaviour
- ❖ Changes in organizational practice and student learning.

Conclusion

Faculty Development Program was organized by Freshman Engineering had achieved objective for which it was conducted. It was a grand success to share the teaching methods, materials and techniques with on another. Universal Human Values and Ethics were highly stressed in the sessions conducted by two resource persons from the department. All the sessions were highly fruitful and helpful for the faculty who would take up the challenges.

E-Summit Hyderabad 2018

PROGRAM SCHEDULE

Day 1

Tuesday, August 21, 2018

8:00 - 9:30 am - Registration

09:30 - 10:00 am

Opening Session

Lamp Lighting & Traditional Dance

Intro to E-summit - **Aakash Masand** (Founder & CEO Masand Tech, Acting CEO NucleusTech)

M. Rajashekar Reddy (Vice Chairman, Vardhaman College Of Engineering)

E. Prabhakar Reddy (Treasurer, Vardhaman College of Engineering)

Dr. Sai Satyanarayana Reddy (Principal, Vardhaman College Of Engineering)

10:00 - 11:00 am

Keynote Speakers

T.I.G.E.R Santosh Nair (Entrepreneurship Coach, Motivational Guru)

A.P. Reddy (FDSA President)

Vamshi (Managing Partner Visaka industries)

11:00 - 11:30 am

Role of Indian Startups in World Economy -

Panel Discussion moderated by **Bala IPeddigari**

Bala Peddigari (Technology Head- Digital Initiatives TCS)

Rajesh Sehgal (Founder - Equanimity Investments)

Madhu Vadlamani (Sr. Analyst, Kony Inc.)

Geeta Goti (NSIC Independent Director)

Dr, IVNS Raju (G. M, Renewsys)

11:30 - 11:45 am Tea Break

11:45 - 12:30 pm Taking the Leap of Faith

Panel Discussion moderated by **Srinivas Madhavam**

Rahul Kanuganti (Co-Founder and Chief Executive Officer - Flytta Innovations)

Praful Vinayak (Founder Blockruit)

Sunil Kumar (Founder Blue Semi)

Srinivas Madhavam (Founder and CEO, Vdeliver)

Prashant Lingam (CEO, Bamboo House)

Amarnath Kothapalli (Project Manager, Genpact)

12:30 - 1:15 pm Lunch Break

1:15 - 1:45 Stand-Up Comedy (Sandesh Johnny)

1:45 - 2:40 pm

Social Entrepreneurship - Towards a Better India (Take Care by Surge Impact)

Dr.G.V. Ramanjaneyulu (Executive Director, Centre for Sustainable Agriculture)

Patrick Widmann (Digital Advisor - Surge Impact)

Prashant Lingam (CEO, Bamboo House)

Abdul Mujeeb (Founder and CEO, Alika)

2:40 - 3:10 pm

Startup on Campus

Panel Discussion moderated by

Fredy (Co-Founder StuMagz)

Prof. Nitin Kulkarni (Director, Center for Technology Innovation and Entrepreneurship)

Rajanikanth (C.I.E Head, Vardhaman College of Engg.)

3:10 - 3:30

PEP Talk

Raghunandhan Vadla (Author The Great Indian Treasure)

3:30 - 3:45

PEP TALK

3:45- 4:00 pm

Keynote speaker

Vaishnavi Gaddam (Managing Director V6 News)

4:00 - 4:15

Jayesh Ranjan (IT Secretary Govt. of Telangana)

4:15 - 5:00

Startup Lounge

Pratik (Co-Founder SOAL)

Karan (Founder 8fx)

Antriksh Bajaj (C.E.O The Aura Group)

Aakash Masand (Founder & CEO , Masand Tech and acting CEO Nucleus Tech)

Yashwanth Reddy (MD, Nucleus Tech)

Disclaimer the Guest with * are yet to be Confirmed.

E-Summit Hyderabad 2018

5:00 pm - 5:30 pm

Project Expo & Startup Expo
Followed by workshops and Hackathon

Day 2

Wednesday, August 22, 2018

10:00 - 11:00 am

Women Entrepreneurship
(Panel Discussion) moderated by
Tripti Singhal Somani (CEO & MD at KGS
advisors LLP)
Deepthi Ravula (CEO, WeHub)
Shanta Thoutam - (Director – Innovation
Cluster, T-Hub)
Anil Jyothi Reddy (CEO, Keys Software
Solutions)
Tara Varghese (HR Manager - Invesco)

11:00 - 11:30 am

Rap Performance by Rohan Premi

Let tt 11:30 - 12:30 pm

Geeks garage & PEP Talks
Team Mozilla (Mixed Reality & Addons)
Adhitya Kasunapalli (startup mentor)
Abhimanyu Aryan (AR/VR)
Sandeep Mudalkar (CEO & Founder, Sytech
Labs)
Umang (E-cell IIT-BOMBAY)

12:30 - 1:15 pm Lunch Break

1:15 - 1:45 pm Celebrity Slot

1:45 - 2:00 pm

Felicitatation for (Sponsors and partners)

2:00 - 2:45 pm

New trends in funding
(Panel Discussion) moderated by **Vikrant
Varshney**
Amit Singal (Co-founder and CEO, Startup
Buddy)
Vikrant Varshney (Cofounder & Managing
Partner, SucSEED Angel Network)

Rishabh Bardia (Associate, Venture Catalysts)
Harshad Lahoti (Founder & CEO, ah! Ventures)
Viiveck Verma - (Co-Founder IIIT Seed Fund)
Nagaraja Prakasam (Angel Investor, Mentor,
Fund Advisor)

3:45 - 4:15 pm

Pitching Session by Finalists of Hackathon-
Hear me out!

4:15 - 4:30 pm Tea and Coffee Break

4:30 - 5:00 pm Why to become a job creator?

Kadiyam Srihari (Deputy CM, Govt. of
Telangana) (15 min)
Rahul Vishwanath Karad (Vice Chair, MIT Pune
WPU) (15 min)

5:00 - 5:30 pm Award ceremony

Kadiyam Srihari (Deputy CM, Govt. of
Telangana)
Rahul Vishwanath Karad (Vice Chair, MIT Pune
WPU)
Malla Reddy (Member of Parliament)
Rajashakar Reddy (VC, Vardhaman College)
Yashwanth Reddy (M.D NucleusTech)
E. Prabhakar Reddy (Treasurer, Vardhaman
College of Engineering)
Dr. Sai Satyanarayana Reddy (Principal,
Vardhaman College Of Engineering)

6:00 to 6:30 - Valedictory Session

Parallel Session:

11:30 - 12:30 pm

Investor Connect -

Pitching Session by Startups - Hear Me Out.!

Investments)
Viiveck Verma - (Co-Founder IIIT Seed Fund)
Nagaraja Prakasam (Angel Investor, Mentor,
Fund Advisor)

Vardhaman College of Engineering is all set for E-Summit Hyderabad 2018: E-

Summit 2018 is the juncture where notorious tech giants, speakers, entrepreneurs and the entire startup ecosystem of India will congregate.

Work from home, order food from home, order cosmetics, cloths, cab, vegetable, computers is so convenient and easy in today's date. What's common in all of them? The answer is simple; it is Entrepreneurship.

In order to further make our life comfortable and peruse our dreams of being an Entrepreneur, Vardhaman College of Engineering has organized the E-Summit Hyderabad 2018. The two days events on the 21st and 22nd of August has begun in the college, where thousands of Engineering students from across India have participated. To further fuel their interest in Entrepreneurship, the experts from various fields have come to the college and share their experience, clear the doubts and highlight the importance of Entrepreneurship in India and across the world.

How can one go empty hand after attending the E-Summit at Vardhaman College of Engineering, here we go with what E-Summit 2018 Hyderabad has to offer on 21st August:

The Eminent speakers have delivered the lectures on varigated topics, and made the concept clearer. E-Summit, includes Aakash Masand (CEO of Nucleus Tech), Santosh Nair (Entrepreneurship Coach and Motivational guru), A.P Reddy (Popcorn Apps), Geeta Goti (NSIC Independent Director), Rajesh Sehgal (Founder, Equanimity Investments) Srinivas Madhavam (Founder and CEO of Vdeliver), Prashant Lingam (CEO, Bamboo House) and Abdul Mujeeb (Founder and CEO, ALIKA). Apart from these Entrepreneurs, we had eminent figures such as

Vaishnavi Gaddam (Managing Director V6 News), Jayesh Ranjan (IIT Secretary Govt. of Telengana) and Antriksh Bajaj (CEO the Aura Group).

Highlights of The Entrepreneurship Summit Hyderabad 2018:

Introduction to E-Summit:

If you have no idea about the Entrepreneurship, then attending the lecture of Aakash Masand would have helped you a lot. The description of Entrepreneurship as the passion and your love cannot be better than anything.

How to Become an Entrepreneur:

T.I.G.E.R. Santosh Nair motivated the students to become the entrepreneur. Some of the tips of becoming a better and successful entrepreneur was his theory (Not developed by him) of 10000 hours of hard work. If one invests 10000 hours, she/he will definitely become successful.

How to Build a Business:

A.P. Reddy, is a great entrepreneur who tried to create PPT'S in the minds of the students without showing any PPT's manually. He tried to inculcate in students brain that how to build a business. Though he studied abroad he spoke in his mother tongue that shows the love and concern for the indigenous development. He urged students to respect their parents, teachers and god. He also has given a call for faculty that they should be remembered by the students for ever. The impact that the faculty create should matter a lot for their future. He also focused on goal setting by saying that they should work hard for four years to enjoy for life time.

Taking a Leap of Faith in Entrepreneurship:

Panel of Five Entrepreneurs like Rahul Kanuganti, Praful Vinayak, Sunil Kumar, Madhu Vadlamni and Srinivas Madhavam was moderated by Srinivas Madhavam. The panel focused on the execution of the idea in the right place. It raised an important question on the issue of more Engineering colleges in Telengana and less entrepreneur. One has to constantly work to implement his/her prototype model into the full-fledged products.

Role of Indian Startups in the World Economy:

There are four Entrepreneurs in the panel. Mr.Bala Peddigari is a moderator, he led the panel in such a way that that the students need the information about it. Ms.Geeta Goti, is one of the panel members who raised about women Entrepreneurship and how they would be able to survive in the business field with the single determined mindset in spite of many responsibilities. Other panel member is Mr.Rajesh Sehgal focused more on the mind set of Indians and the broad mentality because of which we can find Indians globally. And also he stressed on Blue ocean strategy and Red ocean strategy. Another panel member, Dr. I.V.N.S. Raju has given a live example that if any student prepares well in advance for examination and performs well in the examination, is there any chance to fail. He posed this question to students. No one could answer. By say this he wanted to convey that if one puts hard work and well prepared, there is no chance of failure.

Stand-up-Comedy:

Mr.Sandesh Johnny was the fresh air to breathe specially after lunch with his impeccable comic timings. However, his passion towards his work was something we could have taken from the show.

Social Entrepreneurship:

Panel by Four Entrepreneurs, Dr G.V Ramanjaneyulu, Patrick Widmaan, Prashant Lingam and Abdul Mujeeb was on developing the concept based on the Indian need. Understand the problems that are prevalent in India and find the solution that can cater to the mass level or so called Indian Middle class family. The Entrepreneur should be providing the service to the people than earning money.

Startup on Campus:

Panel of Five Entrepreneurs such as Fredy, Prof. NitinKulkarni, Ravi Devulapally , Madhu Pravathaneni and Rajnikanth was moderated by Panjak Diwan, focused on the various avenues that Engineering colleges (Vardhaman College of Engineering) could adopt to promote the idea of Entrepreneurship in India. The idea to implement in colleges and help them to nurture their Entrepreneurial zeal with proper guidance was the best aspect of the day.

Startup Lounge, Project Expo and Startup Expo:

The various exhibitions and the projects done by the experts and students from different colleges of Telengana (Other states of India) and Vardhaman College of Engineering must have fueled the zeal among the students to come up or materialize their existing idea.

VARDHAMAN COLLEGE OF ENGINEERING

(AUTONOMOUS)

Shamshabad – 501 218, Hyderabad

Department of Freshman Engineering

Presents

One Day Workshop on

Preparing Competitive Research Grant Proposals

Speaker: Dr. P Sarah, Professor, H&S and Dean, R&D

Coordinator: Mr. M. Siddhartha, Assistant Professor, H&S

Date:

Saturday, 18th August 2018.

Time:

2.00 PM to 4.00 PM

Venue:

Room No: 1009, Block 1

Registration Details:

Registration is open to all; interested persons are requested to register for participation by 17th August 2018.

Abstract:

Beyond the academic duties of teaching and research, expectations that faculty should generate external funding are increasing – and are increasingly important. Researchers, as well, seek outside monies to conduct their research activities, not only to garner additional financial support, but also to demonstrate their abilities in fund-raising and gain early grants experience that will serve them well in their budding careers.

Even if a grant is not awarded, the process of writing research grant proposals can help you solidify your research ideas and make them tangible, realistic, and programmatic. Proposals, funded or unfunded, can themselves become sources for publishing journal articles. Writing to external sponsors can aid you in thinking through your rationale or finding ways to connect with others in the scientific community or with the broader society.

The purpose of this workshop is to train participants in efficient grant proposal writing, and to provide a deeper understanding of the factors affecting the success of a grant proposal.

Outcomes:

By the end of the workshop, faculty will be able to

1. Identify a research problem
2. Write research proposals

Speaker Profile:

Dr. Pasala Sarah is an accomplished academician with over 20 years of teaching experience blended with additional experience in Research & Administration. The Research experience includes execution of projects from DRDO, BARC in identifying materials for different needs of the Industry.

Dr. Sarah has published more than 60 Papers in International Journals and Conferences and has organized International Conferences on Nanomaterials, Nanotechnology and Composite Materials. Dr. Sarah has written 08 Text books which are relevant to students, Industrial Users on structures, Lasers and Optical Fibre Communications.

Schedule:

18th August 2018

2:00 PM – 4:00 PM, #1009, Block - 1

Workshop on “Preparing Competitive Research Grant proposals”

“Knowing is not enough; we must apply. Willing is not enough; we must do.” Johnson Von Goethe

ARDHAMAN COLLEGE OF ENGINEERING

(Autonomous)

Shamshabad, Hyderabad - 501 218

Department of Freshman Engineering

Report on One Day Workshop on Preparing Competitive Research Grant Proposals 18/08/2018

Background

Good teachers can become great teachers by going beyond the call of duty and beyond the textbook. To do this, he or she must continue their education. There are conferences, workshops, FDP and continuing education that could give the teacher that extra help in technology for their students. There are online workshops, and classes that teachers could attend as well as on-site workshop and classes.

There are also conferences that will have several workshops all at one time so that teachers and administrators can go to more than one workshop at a time. These conferences will give the teacher the information and tools they need to integrate technology in the classroom as well as CPDUs (Continuing Professional Development Units) to help their career.

Introduction

Workshops get participants fully involved in the learning process: small and large group discussions, activities & exercises, opportunities to practice applying the concepts that are presented. It helps the teachers to learn from peer or group and work as a team. Workshop organized by Department of Freshman Engineering was based on developing research minds and how to generate external funding to support their research and ability to develop fund-raising and gain early grants experience which will benefit them well during developing their career.

Objectives

- ❖ Learn research-based strategic learning and teaching practices.
- ❖ How to write a good proposal
- ❖ Identify the research problems
- ❖ Collaborate with colleagues on best practice in doing research

Speaker Profile:

Dr. Pasala Sarah is an accomplished academician with over 20 years of teaching experience blended with additional experience in Research & Administration. The Research experience includes execution of projects from DRDO, BARC in identifying materials for different needs of the Industry.

Dr. Sarah has published more than 60 Papers in International Journals and Conferences and has organized International Conferences on Nanomaterials, Nanotechnology and Composite Materials. Dr.Sarah has written 08 Text books which are relevant to students, Industrial Users on structures, Lasers and Optical Fibre Communications.

Outcomes

- ❖ Faculty members were able to identify the research problems.
- ❖ They also learnt to write the process of research proposals.
- ❖ Gain familiarity with research methodology
- ❖ Learn how to generate funds for research grants

Conclusion

One day workshop was an eye-opener for newly joined faculty and learning experience for them. Professor Sara brought many research oriented issues and draws the attention of the faculty members who really want to go for research funds/raising funds for research. Her day long instruction was invaluable for all of us and is fruitful to go for research projects.

Research question

Any research must start with a research question...

Your research idea or topic was probably derived from an experience, an interest, or some form of knowledge that you gained during studying.

Before you proceed, ask yourself these questions about the research question:

Is it researchable?

Is it significant?

Can I do it?

What do I want to know?

Is it accessible?

A Talk on Creating Effective teaching and Learning Environments, Dr. P. Sarah, Professor of Physics

Shot on OnePlus
Powered by Dual Camera

Title

Provide a short description here of the next slide (30 characters maximum)

- 1 Write an appropriate title
- 2 Make it easy to read
- 3 Make sure that it is written in active voice
- 4 Keep an eye on the subject
- 5 Give your audience a clear idea of what you're going to read

Academic Writing Skills for Research Journals Articles

Welcome

Dr. Mamun Bin Ibne Reaz

Professor, Universiti Kebangsaan Malaysia

Invited talk on

**Academic Writing Skills
for Research Journals Articles**

(11-08-2018)

Organized by

ISTE FACULTY CHAPTER & IEEE COMPUTER SOCIETY CHAPTER

in Association with IQAC

VARDHAMAN COLLEGE OF ENGINEERING

(AUTONOMOUS)

Accredited by NAAC with 'A' Grade | ISO 9001:2008 Certified
Shamshabad, Hyderabad - 501218.

Dr. Mamun Bin Ibne Reaz Delivering the Lecture

Report: IQAC has arranged a guest lecture on Academic Writing Skill for Research Journals Articles by Dr. Mamun Bin Ibne Reaz a professor from Universiti Kebangsaan Malaysia on 11th August 2018. About 100 faculty attended the lecture. He spoke about how to write a technical paper for research journal. He also emphasized the importance of original contribution in writing an article.

(Autonomous)

Shamshabad - 501 218, Hyderabad, T.S., India

forwarded to principal

Objectives:

LabVIEW software is ideal for any measurement or control system, and the heart of the NI design platform. Integrating all the tools that engineers and scientists need to build a wide range of applications in dramatically less time, LabVIEW is a development environment for problem solving, accelerated productivity, and continual innovation.

LabVIEW is a graphical programming platform that helps engineers scale from design to test and from small to large systems. It offers unprecedented integration with existing legacy software, IP, and hardware while capitalizing on the latest computing technologies. LabVIEW provides tools to solve today's problems—and the capacity for future innovation—faster and more effectively.

Workshop on National Instruments LabVIEW – CORE 1 & 2 (CLAD) Program will fulfill the following objectives:

- Learn how to develop basic applications in the LabVIEW graphical programming environment.
- Design, implement, and distribute stand-alone applications using LabVIEW.
- Learn the skills needed to create scalable, readable, and maintainable applications.

Keeping in mind, the importance of research in frontier areas like Virtual Instrumentation, ECE Dept., Vardhaman College of Engineering in association with National Instruments & VI Solutions is organizing a workshop on "CLAD Certification Training in Virtual Instrumentation"

Resource persons:

Application Engineer in the concerned field from VI Solutions, Bangalore is invited to deliver lectures in the program.

Eligibility:

The programme is open to the teachers of engineering colleges from Electronics and communication Engineering, Electrical Engineering, Information Technology, and other allied technical disciplines, Scholars in Telangana, Andhra Pradesh, Karnataka states and Goa. Industry personnel working in the concerned/allied discipline can also attend.

How to apply:

The filled in Registration form duly signed by appropriate authorities and scanned copy of Registration form should reach the coordinator through e-mail.

About VISOLUTIONS:

VI Solutions was founded by a pool of live wire professionals having several years of combined technical and corporate expertise in providing high quality, cost-effective and complete end-to-end solutions to its valued customers. All our team members are highly qualified in their respective fields and have years of industrial experience behind them. It is an automation Company and a pioneer in providing Systems, Solutions and Products for a wide range of industries and applications.

About VCE:

The Vardhaman College of Engineering was established in 1999. The college holds UGC autonomous & affiliated to JNTUH. It offers B.Tech. programs in six branches of Engineering, viz. Civil, EEE, ME, ECE, CSE & IT, and PG courses in MBA, M. Tech (DECS), M. Tech (ES), M. Tech (CSE), M. Tech (PEED), M. Tech (SE) and M. Tech (ED). All the eligible UG engineering programmes have been accredited by National Board of Accreditation (NBA) of AICTE, New Delhi and by NAAC. The College is recognized with Centre for Potential of Excellence by UGC. The college is also accredited by TCS.

Accommodation:

For outside participants accommodation will be provided on prior request. No TA will be paid for the participants.

Important dates:

Last date for submission of application: 8.03.2018
Selection intimation will be by email: 10.03.2018

Duration of Program:
12-22 March 2018

Department of ECE:

The Department is headed by Prof. Y. Pandurangaiah having vast teaching experience and supported by highly qualified faculty- 10 Professors, 19 Associate Professors and 34 Assistant Professors. The department has established centers of excellence in Cadence VLSI Design, NI LabVIEW Academy, Signal processing and RF and Microwave Simulation.

Major Course Contents:

The workshop content is divided along the lines of following projects and learning outcomes.

- Introduction to LabVIEW
- Creating, Editing, and Debugging a VI SubVI
- Loops, Charts, Strings, Arrays, Graphs and Clusters
- Case and Sequence Structures, Strings and File I/O
- VIT Customization, File I/Os
- Planning LabVIEW Applications
- Introduction to PC based data acquisition.
- myDAQ basics- IO details, specifications and its software requirement.
- Introduction to NI MAX and hardware detection in MAX Hands-on with Test Panels (AI, AO, DIO and Counter).
- Hands-on with Temperature sensor, Signal generation through AO, Digital IO's- IR sensor based counter including logging using LabVIEW.
- Interfacing motor driver and motor using myDAQ Digital IO and Counter, Direction and speed control of DC motor.
- Audio signal acquisition and importance of sampling rate.
- Introduction and Programming to low level DAQ programming- DAQmx VIs.
- NI myRIO introduction.
- Hands-on myRIO on-board device ACC, LED's and Push button, AI and DL
- Hands-on sensor value based actuator control IR sensor and DC motor, Embedded programming (Deploying EXE into myRIO).
- Configuring Wi-Fi network using myRIO and passing the sensor data from one myRIO to another.
- Hands-on Heart rate and Level sensor with NI myRIO in Wi-Fi mode, PWM and Counter channels.
- Hands-on Quadrature Encoder using NI myRIO counter terminal and Rotary Encoder.
- Introduction to myRIO protocols: UART, I2C and SPI
- Hands-on UART protocol: Loop back and PmodLCD, I2C, SPI, I2C protocol with help of GYROSCOPE and pressure sensor, SPI protocol with PmodALS, PmodLCD.
- Hands-on FPGA programming on myRIO on-board device Analog channels acquisition in FPGA mode.
- DMA FIFO configuration and FPGA I/O raw value conversion of Analog acquisition.
- Hands-on Mobile App with myRIO (NI Data Dashboard for LabVIEW) and Text to Speech.
- GSM and GPS Demo.

Subject: New India Student Championship 2018 :: Important Documents for Contest Coordinators

Respected Sir

Greetings from ICT Academy and Trail Head.

We thank you very much for participating in the first of its kind - the largest learning initiative of India. The "**New India Student Championship 2018**" is organized by your institution for your 100 students supported by ICT Academy and powered by Trail Head. We are happy to be partnering your esteemed institution for this great initiative, where we shall jointly set a new record on self-learning in India.

Please find attached the following for your reference.

1. A **Draft agenda for the inaugural session :: 2 Feb 2018 (9 am to 11 am)**
2. A **presentation for the Contest Coordinators to present** to students on the "**Registration Process**" for the contest : This has to be led by the Contest Coordinator / Facilitator by 11 am in the computer laboratory.
3. A **draft press release** which can be used by your institution for local press and media on taking this great initiative in your college.

We shall conduct a Virtual inaugural address of this contest from 10.00 am to 10.30 am, which will be made through official **ict academy youtube live**, where you can stream the same in the seminar hall for the students. Alternatively the same **recorded video** will be sent to you, so that you can download the video and play during the inaugural, in case if you do not have internet connectivity in the seminar hall.

Lets keep ourselves active by mailing photos of - inaugural sessions, learning sessions at labs, group pictures of 100 students, chairman/principal visits to learnathon, backdrop, banners etc., Requesting each of you to send us pictures often during this 24 hours so that we keep the memories of this initiatives recorded.

Requesting you to do effective social media postings on Facebook, LinkedIn, Twitter etc., with pictures and posters of the event. We shall provide you will necessary post drafts and hashtags in our coordinators whatsapp group.

We shall send you a presentation tomorrow about the **Check out process**, which can be followed by the contest coordinators/facilitators to close the contest by 12 noon of 3rd Feb 2018.

Please feel free to call us the following leaders from our academy or our ICT Academy Relationship Managers of your institution for any support / clarification on conducting the same.

Mr Saravanan :: 95000 46714

Mr Sherry :: 81488 07428

Mr Naresh :: 99403 30743

Presents

A Two day workshop on

Adaption of Technology for Teaching and Learning

Coordinator: Prof. Rajendar.S, H&S

Abstract:

Today, more than ever, the role of educational technology in teaching and learning is of great importance because of the use of information and communication technologies. Educational technology is a systematic and organized process of applying modern technology to improve the quality of education. It is a systematic way of conceptualizing the execution and evaluation of the educational process, i. e. learning and teaching and help with the application of modern educational teaching techniques. With the help of various applications for distance education, the Internet, teachers, and students themselves, they see the advantage of modern educational teaching techniques. It includes instructional materials, methods and organization of work and relationships, i.e. the behavior of all participants in the educational process.

The purpose of this workshop is to give an overview of the importance and Adaption of technology for teaching and learning in the classroom.

Outcomes:

By the end of the workshop, faculty will be able to

1. Develop a vision of classroom teaching with the use of technologies based on big ideas from the course with the understanding that our ideals will be challenged by the realities of Institute.
2. Understand different approaches to curriculum, instruction, assessment, and classroom community/leadership; when to use them; and why.
3. Develop ability to closely observe classroom teaching (curriculum, popular form of technology, pedagogy, assessment, classroom community/leadership), analyze using evidence, and apply lessons learned to one's vision of teaching (for excellence and equity).

Time:

9.00 AM to 4.00 PM

Venue:

E-Classroom, Block-5

Registration Details:

Registration: Open to All the faculty members

Speakers:

Dr. P.Sarah, Dean & Professor

Prof. S.Rajendar, Head, Freshman Engineering

Dr. P.Nageswara Rao, Professor

Schedule:

31 May 2017 to 01 June 2017

9:00 AM – 4:00 PM, Venue: E-Classroom, Block - 5

A Two day Workshop on “Adaption of Technology for Teaching and Learning”

VARDHAMAN COLLEGE OF ENGINEERING

(Autonomous)

Shamshabad, Hyderabad - 501 218

Department of Freshman Engineering

Report on A Two Day Workshop

On

Adaptation of Technology for Teaching and Learning

Introduction

Education has evolved with the times, particularly from the last few decades in the 20th century, into the 21st century. Gone are the one room schoolhouses, with their rows of wooden chairs, benches, and desks – other than as tourist attractions and reminders of simpler times. Today's classroom is more likely to be a computer lab, a room with rows of students using laptops, or perhaps students listening to a podcast or taking in a video lecture. Technological changes in the educational industry have created new ways to teach and to learn. Teachers have had to adopt new instructional methodologies, while students usually eagerly embrace this "new" style of learning. Technological changes allow teachers to access information on a global scale via the Internet, to enhance their lessons. Likewise, students can use the vast resources of the Internet to enrich their learning experience. Even earlier technology, such as slide projectors and overheads with transparencies, have given way to PowerPoint presentations or streaming videos projected for viewing by entire classes or entire school bodies in auditoriums. From audio and video technology, to podcasts and interactive tutorials, to e-learning and real-time online lectures, educational technology is here to stay.

Importance of Educational Technology and Role in Teaching

Educational technology simply refers to using various forms of technology to support and enhance the learning process. It also goes by other terms, including instructional technology and e-learning, although they are not totally synonymous. A more accurate definition for educational technology is "technology as it impacts upon the learning process in delivering learning materials, facilitating communication and providing assessment and feedback."

Popular Forms of Educational Technology

The following list offers a look at some of the most popular forms of educational technology, gaining acceptance at a rapid pace.

Computers and Laptops

Most classrooms these days, from grades K-12 through colleges, typically have at least one resident computer or laptop. Initiatives on local, state, and national levels sometimes

sponsor and fund drives to equip classrooms with enough computers or laptops for each student. As laptops become less expensive and more compact, they are increasingly popular alternatives to bulkier, stationary desktop computers.

Educational Software

The proliferation of computers and laptops in classrooms has created a substantial market for educational software. From simple kindergarten level games to aid students in learning their alphabet and numbers, to senior high level courses in calculus and biology, educational software adds a fun element to learning, while also promoting significant learning skills. In addition to initial instruction, most software programs include reinforcing learning elements, as well as assessments, to further ensure students improve their comprehension and implementation of a subject's concepts.

Audio, Video, and Other Multimedia Presentations

Podcasts, streaming videos, PowerPoint, and other forms of multimedia presentations provide an enriched learning experience for students. For instance, teachers can record lectures in podcasts, as well as share other important news and information with students. YouTube has also become a widely used teaching and learning tool. Instructors can post their own instructional videos, while students can likewise create videos depicting projects or other learning experiences.

Social Media: There seems to be no end to the uses of social media online. From keeping in touch with friends and family, or promoting a business, on Facebook, to tweeting about activities on Twitter, to setting up social networks on Ning to share resources and tips with like-minded people, to promoting one's academic or business endeavours with a professional profile on LinkedIn – "techno savvy" teachers can incorporate any or all of these forms of technology into the curriculum, depending on students' ages. Students can learn the various technology platforms, of course, but they can also develop social and communication skills, and older students can develop business and professional skills. (See the image of the header from this writer's Ning group – click for larger view)

E-Learning

E-learning is the ultimate form of educational technology, at least in this writer's opinion, as a doctoral student in an Educational Department program with a dual concentration in – what else – Educational Technology and E-Learning. Online learning provides one of the most flexible and convenient means to pursue higher education, especially for busy adult learners. Laptops and 24/7 internet access to course materials and virtual classrooms add even greater measures of freedom and manageability to e-learning.

Following is a screenshot from the opening assignment in a new course entitled Instructional Design and Engaging E-Learning Activities, ironically enough. This offers merely one perspective on what a virtual classroom looks like. This screenshot depicts

the assignment for participation in a discussion question in this particular course. Students and the instructor then have the opportunity to respond or comment on other entries.

Technological changes in the education industry have created greater opportunities for teachers and students alike. Teachers incorporate new instructional methodologies as they draw from global resources via the Internet. Students enjoy enhanced learning environments that often include online research, computer-based lessons, or virtual classroom interaction. Other technological changes in education, including online evaluations and assessments, provide new tools for teachers and challenging learning experiences for students. Educational technology has transformed the old one room schoolhouse model into a virtual classroom with a global student body.

Objectives

Following Objectives are expected to achieve:

1. Develop a vision of classroom teaching with the use of technologies based on big ideas from the course with the understanding that our ideals will be challenged by the realities of Institute.
2. Understand different approaches to curriculum, instruction, assessment, and classroom community/leadership; when to use them; and why.
3. Develop ability to closely observe classroom teaching (curriculum, popular form of technology, pedagogy, assessment, classroom community/leadership), analyze using evidence, and apply lessons learned to one's vision of teaching (for excellence and equity).

Speakers/Resource Persons

1. Dr.P.Sarah, Dean & Professor

Professor, Dr.P.Sarah has twenty four long years of teaching experiences, a great scholar with forty one international conferences paper publication and fourteen national conferences with paper publication that has also authored six books in area of Optical Fibres and Engineering Physics and Chemistry. Her areas of specializations are Ferroelectrics, Sensor Technology and Composite Materials. Her lectures included for the FDP were Role and Importance of Faculty Development Program and Innovative Teaching and Learning. She discussed at length regarding the current practices and methods of teaching and learning how out of box thinking would help the teachers to enhance their teaching. Her focus was to accept the challenges and respond creatively and innovatively.

2. Prof. S. Rajendar, Head

Prof. S. Rajendar needs no introduction as he is the head of the department and main resource person for the Faculty Development Program. It was his ideas which were materialized to go ahead with the FDP topic which was discussed at length during the program. He is equipped with thirteen years of teaching experience and several international and national publications. He has co-authored two books with his colleague. His area of specialization is Low Power and High-Performance VLSI Circuit Design and

Interconnect Modelling and Optimisation. For this particular Faculty Development Program he delivered his lectures on Instructional Design, Enhancing Learning Communities through Networking, Active Learning and Creating an Inclusive Classroom.

3. Dr.P.Nageswara Rao,Professor

Professor, P. Nageswara Rao is an enthusiastic and energetic faculty who loves to teach and shares his experience with other faculty. He has twenty six years of teaching career in which he has established himself as a great teacher trainer. His area of specialization is Microstrip Antennas. He has several research publications in International and National Journal. His topics for the Faculty Development program were Classroom Management, Educational Assessment, and Role of ICT in Teaching and Learning. His lectures mainly focussed on the role of teacher and instructional material to manage the classroom. He provided the details of Educational Assessment tools which was really helpful and stressed on the role and importance of Information and Communication Technology in the present context. He, further, suggested the faculty to start using technology in order to make teaching and learning meaningful.

Outcomes

- ❖ Faculty members tried to learn and enhanced teaching and learning environments that often include online research, computer-based lessons, or virtual classroom interaction.
- ❖ Other technological changes in education, including online evaluations and assessments, provide new tools for teachers and challenging learning experiences for students.
- ❖ Educational technology has transformed the old one room schoolhouse model into a virtual classroom with a global student body.

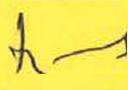

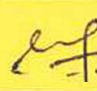

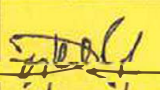

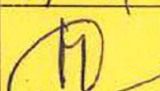

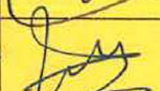

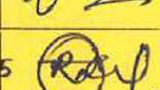

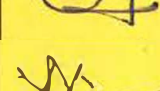

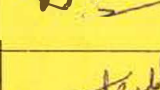

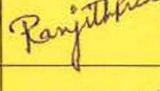

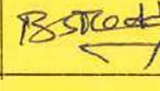

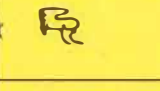

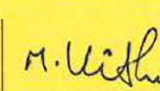

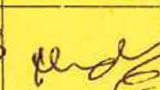

Conclusion

Educational reform efforts during the 1980s and 1990s played a significant role in the initiation and implementation of educational technology. Many school systems, during school restructuring initiatives, incorporated the technological changes in the educational industry as focal points. Their efforts back then, opened the door for even greater advances of educational technology as the 20th century ended. Computers, educational software, assistive technology, virtual classrooms, and other technological changes in education became more commonplace as the 21st century began. The sessions of A two day workshop was really helpful for the faculty members and helped them to update their knowledge and adopt technology while teaching.

Head, Freshman Engineering

NAME OF THE INDUCTION PROGRAM: PEDAGOGICAL TRAINING FOR OUTCOME BASED EDUCATION

ISTE MEMBERSHIP NUMBER: IM1151

UNDER ISTE FACULTY CHAPTER AP-102

DETAILS OF COORDINATOR:

DR P NAGESWARA RAO

PROFESSOR, DEPT. OF ECE,

VARDHAMAN COLLEGE OF ENGINEERING, KACHARAM (V), SHAMSHABAD – 501 218.

DATES: FROM 7-5-2018 TO 12-5-2018

OBJECTIVES:

THE OBJECTIVE OF THIS INDUCTION PROGRAMME IS TO TRAIN THE YOUNG FACULTY ON PEDAGOGICAL METHODS AND OUTCOME BASED EDUCATION TO MOTIVATE THE FACULTY TO CONTINUE RESEARCH TO GIVE SOLUTIONS TO REAL TIME PROBLEMS FOR BETTER SOCIETY CONTEXT CHANGING THE SCENARIO IN TECHNICAL EDUCATION MAKES THE FACULTY TO UPDATE THEIR KNOWLEDGE IN THEIR FIELD AND FOLLOW THE LATEST METHODS IN TEACHING AND TO HAVE INTERACTIVE ENVIRONMENT IN THE ENVIRONMENT IN THE CLASS CONTENT OF THE PROGRAMME.

1. ENGINEERING EDUCATION OUTCOME BASED APPROACH
2. EFFECTIVE TEACHING CLASSROOM COMMUNICATION
3. SELF ESTEEM MOTIVATION PERSONALITY AND PROFESSIONALISM
4. DEVELOPMENT LEADERSHIP TEAM BUILDING TIME MANAGEMENT
5. PREPARATION OF COURSE AND LESSON PLAN IN COMPLIANCE WITH
6. LEARNING OBJECTIVES AND OUTCOMES
7. INNOVATION AND CREATIVITY DEVELOPMENT IN TEACHERS AND STUDENTS
8. ENTREPRENEURSHIP DEVELOPMENT IN STUDENTS
9. GROUP DISCUSSION ROLE PLAY EXERCISES
10. ESSENTIAL COMPONENTS OF SPECIFIC RESEARCH
11. SELECTION OF NEED BASED RESEARCH PROBLEMS
12. FORMULATING RESEARCH GRANT PROPOSALS AND DEFUNDING
13. ENTREPRENEURSHIP AND INNOVATION PROGRAMMES
14. SELECTION OF PHD TOPICS AND RESEARCH METHODOLOGY
15. APPLICATION OF IT TOOLS IN RESEARCH IPR PATENTS
16. CASE STUDIES THROUGH SUCCESSFUL PRINCIPAL INVESTIGATORS

RELEVANCE:

THIS INDUCTION PROGRAMME IS ESSENTIAL AS VERY FEW ENGINEERING GRADUATES ARE INTERESTED IN TEACHING THERE IS A NEED TO MOTIVATE AND TRAIN THE YOUNG TEACHERS TO CHOOSE TEACHING AS CAREER THIS PROGRAMME IS HIGHLY RELEVANT TO THE FACULTY WHO HAVE LESS EXPERIENCE IN TEACHING.

BENEFITS TO FACULTY:

1. FACULTY GET MOTIVATED TO USE LATEST PEDAGOGICAL METHODS
2. TO IMPROVE THEIR PERSONALITY
3. FACULTY CAN IMPROVE LEADERSHIP QUALITIES SO THAT THEY CAN HANDLE THE CLASS EFFECTIVELY
4. FACULTY CAN BE MOTIVATED TO TAKEUP RESEARCH

EXPECTED OUTCOMES:

AT THE END OF THIS PROGRAMME THE FACULTY WILL BE ABLE TO

1. USE DIFFERENT ICT TOOLS AND LATEST METHODS IN TEACHING
2. EFFECTIVE TEACHING OUTCOME BASED EDUCATION

3. FACULTY CAN WRITE RESEARCH PROPOSALS
4. FACULTY WILL KNOW THE IMPOTANCE OF RESEARCH

NO. AND LEVEL OF PARTICIPANTS:

40 & FACULTY WORKING IN ENGINEERING COLLEGES WITH LESS EXPERIENCE

NO. AND LEVEL OF GUEST SPAEKERS:

EXPECTED 10 FACULTY AND EXPERTS FROM INDUSTRY

RESOUC E PERSONS:

1. DR D N REDDY, EX VC, JNTUH
2. DR K MALLIKARJUNA BABU, PRINCIPAL, BMS COLLEGE OF ENGINEERING
3. DR RANGANADH, PROFESSOR, BMS COLLEGE OF ENGINEERING
4. DR VISWANATH RAJU, PROFESSOR, JNTUH
5. DR HEMA CHANDRA REDDY, PROFESSOR, JNTUA
6. DR. S. V. RAMANA, PRINCIPAL, VASAVI COLLEGE OF ENGINEERING, HYDERABAD
7. DR. J. V. R. RAVINDRA, PROFESSOR, VARDHAMAN COLLEGE OF ENGINEERING
8. DR. H. S. JAIN, PROFESSOR, VARDHAMAN COLLEGE OF ENGINEERING

AICTE-ISTE REFRESHER PROGRAMME

One Week National Level Faculty Development Programme (FDP)

**PEDAGOGICAL TRAINING FOR
OUTCOME BASED EDUCATION**

Jointly
Organized
by

AICTE, New Delhi
and

AICTE & ISTE

under
ISTE Faculty Chapter
Dept. of Electronics and Communication Engg.
Vardhaman College of Engineering, Hyderabad

7th to 12th May 2018

VARDHAMAN COLLEGE OF ENGINEERING
(Autonomous)
Shamshabad - 501 218, Hyderabad, T.S.India
www.vardhaman.org

About the College

Vardhaman College of Engineering was established in 1999 with an endeavour to impart high quality Technical Education and innovative research in the fields of Engineering technologies, with emphasis on industry oriented programs for development of students as well as faculty. Vardhaman College of Engineering is affiliated to Jawaharlal Nehru Technological University (JNTU), Hyderabad, and is approved by the All India Council for Technical Education (AICTE), New Delhi.

The prime objective of Vardhaman College is to update and modernize the quality of professional education. Its aim is to employ innovative teaching methods which carry an emphasis on fast changing technological trends. This is to integrate classroom learning with actual work experience in the industry concerned or in a related professional field. In the course of continued march towards excellence the VCE was credited with the status of an Autonomous Institution by UGC, Accredited by NAAC with 'A' Grade and five UG programmes (ECE, EEE, CSE, IT, ME) are accredited by NBA.

RELEVANCE:

This Induction Programme is Essential as very few Engineering Graduates are Interested in Teaching there is a need to motivate and train the young teachers to choose teaching as career. This programme is highly relevant to the faculty who have less experience in teaching.

NO. AND LEVEL OF PARTICIPANTS:

Limited to 40 & Faculty working in AICTE approved Institutes with First come First Served basis and the faculty must be an ISTE Member.

BENEFITS TO FACULTY:

1. Faculty Get Motivated to Use Latest Pedagogical Methods
2. To Improve Their Personality
3. Faculty Can Improve Leadership Qualities So That They Can Handle The Class Effectively
4. Faculty Can Be Motivated To Takeup Research

EXPECTED OUTCOMES:

At the end of this programme the faculty will be able to

1. Use different ICT tools and latest methods in teaching
2. Effective teaching Outcome Based Education
3. Prepare effective lessons plans
4. Create Team building among students
5. Develop Entrepreneurship Skills

RESOURCE PERSONS:

1. **Dr. D. N. Reddy**,
Director, ESCI, Hyderabad.
2. **Dr. K. Mallikarjuna Babu**,
Principal, BMS College of Engg., Bangalore
3. **Dr. R.V. Ranganadh**,
Professor, BMS College of Engg., Bangalore
4. **Dr. S. Viswanadha Raju**,
Professor, JNTU College of Engg., Jagityal, TS
5. **Dr. K. Hema Chandra Reddy**,
Professor, JNTUA, Ananthapur, A.P.
6. **Dr. J. V. R Ravindra**,
Professor, Vardhaman College of Engg., Hyderabad
7. **Dr. S.V. Ramana**,
Principal, Vasavi College of Engg., Hyderabad
8. **Dr. H.S. Jain**,
Dean R & D, Vardhaman College of Engg., Hyd.
9. **Dr. K.E. Srinivasa Murthy**
Professor, GPCET, Kurnool.

OBJECTIVES

The objective of this refresher programme is to train the young faculty on pedagogical methods and outcome based education to motivate the faculty to continue research to give solutions to real time problems for better society context changing the scenario in technical education makes the faculty to update their knowledge in their field and follow the latest methods in teaching and to have interactive environment in the class to deliver content of the programme.

TOPICS:

1. Engineering Education Outcome Based Approach
2. Effective Teaching Classroom Communication
3. Self Esteem Motivation Personality and Professionalism
4. Development of Leadership Team Building and Time Management
5. Preparation of Course and Lesson Plan in Compliance with learning Objectives and Outcomes
6. Innovation and Creativity Development in Teachers and Students
7. CO-PO/PSO Mapping with Justification and Attainment
8. Entrepreneurship Development in Students
9. Group Discussion Role Play Exercises
10. Formulating Research Grant Proposals
11. Case Studies through Successful Principal Investigators.
12. Blooms Taxonomy and Setting Questions based on blooms level in compliance with OBE.
13. Art of Living.

VARDHAMAN COLLEGE OF ENGINEERING

Shamshabad, Hyderabad - 501218

Department of Electronics and communication Engineering
In Association with IQAC

Date: 23-04-2018

CIRCULAR

The ISTE Faculty Chapter of Vardhaman College of Engineering is conducting an AICTE – ISTE sponsored Refresher Programme on (FDP) PEDOGOGICAL TRAINING FOR OUTCOME BASED EDUCATION from 7th MAY 2018 to 12th MAY 2018. In this connection, I inform you to give wide publicity among your department faculty and other college faculty to participate in this FDP. Certification is done by AICTE – ISTE and 20% of faculty can be from the host institution. (TWO from each department).

Organized International Conference on Advanced Machine Learning and Soft Computing on 22nd and 23rd June 2018 in association with IEEE Computer society chapter, Hyderabad section

About the College

Vardhaman College of Engineering was established in 1999 with an endeavour to impart high quality Technical Education and innovative research in the fields of Engineering technologies, with emphasis on industry oriented programs for development of students as well as faculty. Vardhaman College of Engineering is affiliated to Jawaharlal Nehru Technological University (JNTU), Hyderabad, and is approved by the All India Council for Technical Education (AICTE), New Delhi.

The prime objective of Vardhaman College is to update and modernize the quality of professional education. Its aim is to employ innovative teaching methods which carry an emphasis on fast changing technological trends. This is to integrate classroom learning with actual work experience in the industry concerned or in a related professional field. In the course of continued march towards excellence VCE was credited with the status of an Autonomous College by UGC and accredited by NAAC with 'A' Grade.

About the Department

The Department of Mechanical Engineering was established in the year 2006. The department is equipped with well qualified and experienced faculty members, well established laboratories with latest softwares and advanced equipments as per university norms with an emphasis on practical approach and skills. The goal of the Mechanical Engineering Department is to prepare students for becoming competent Mechanical Engineers and is designed to meet a carefully planned set of educational objectives.

About the FDP

Cross disciplinary engineering is extending beyond the boundaries of traditional engineering disciplines and is finding more and more use in software industries, core industries, homes, sports, fitness to name a few. It is an exciting time in academia and industry where there is an increased use of new techniques involving various disciplines for solving problems in various fields of human life. This FDP is designed in multidisciplinary domain for the benefit of faculty and researchers working in cross disciplinary domains.

One Week Faculty Development Programme on

RECENT ADVANCEMENTS IN CROSS ENGINEERING

11 - 16 June, 2018

Organized by

Department of Mechanical Engineering

In Association with IQAC

VARDHAMAN COLLEGE OF ENGINEERING

(Autonomous)

Shamshabad – 501 218, Hyderabad, T. S., India

www.vardhaman.org

Topics

- Robotics
- Nano Materials
- Image Processing
- MEMS & Metallurgy
- Finite Element Methods (FEM)
- Refrigeration and Air Conditioning
- Computational Fluid Dynamics (CFD)
- Additive Manufacturing & 3D Printing

Objective

This FDP aims at highlighting recent advancements in cross engineering along with the research scope for the persons working in related areas. Recent development of various disciplines has led to interdisciplinary use of knowledge. This has led to the concept of cross engineering, meaning use of fundamentals of a discipline in the other core engineering disciplines. The area of research of cross engineering has seen a tremendous growth in recent years.

The objective of this FDP is to introduce the fundamentals of various areas of cross engineering. The primary objective of this FDP is to impart basic knowledge in the area and show its industry/research oriented applications.

Resource Persons

From IITs, NITs, Various Universities and Industries.

How to Apply

Please send the filled application form by post along with the DD (in favour of "Vardhaman College of Engineering" payable at HYDERABAD). Scanned copies may be sent by email to deepak045@vardhaman.org

Number of participants are limited to 50 on first cum first serve basis
(Spot Registrations are also accepted)

Registration Fee

Industrial Participants	: Rs. 1500/-
Faculty Members	: Rs. 1000/-
Research Scholars	: Rs. 750/-

Address for Correspondence

Dr. K. Deepak

Professor,

FEEDBACK FORM

Name & Designation of Participant: M. Vishnu Vardhan, Asst. prof

Organisation with address: Vardhaman College of Engg., Shamshabad

Name of the Programme: FDP on **RECENT ADVANCEMENTS in CROSS ENGINEERING (RACE-2018)**

Dates of the Event: **11-16 June, 2018**

Please tick the appropriate response for the following questions.

1) Have you found the programme useful ?

(a) Yes (b) No (c) Can't say (d) I already knew all this

2) Shall you be using the knowledge gained during this programme in your teaching or for personal professional advancement?

(a) Yes (b) No (c) Will try (d) There is no new learning

3) Your overall assessment of the course:

(a) Waste of time (b) Visit to exotic location (c) Career compulsion (d) Useful (e) No comments

Please rate the following on a scale of 0-10 in accordance with instructions given against each:

1. Course Structure and Organisation : 9 (Very Poor – 0, Excellent – 10)

2. Course Contents & Selection of Topics 8 (Useless and Mundane – 0 Balanced and Innovative – 10)

3. Administration and Logistics 9 (Registration, Tea and Snacks etc) (0 to 10)

4. Level of treatment of subject 8 (Too Preliminary – 0, Advanced – 10)

5. Overall quality of Theory Lectures 8 (Dull and Boring – 0, excellent – 10)

FINAL REMARKS AND SUGGESTIONS FOR IMPROVEMENT

TARGET AUDIENCE

- Faculty members from AICTE approved Institutions
- Industry Delegates

REGISTRATION FEE

- Faculty Members : Rs. 500/-
- Industry Delegates : Rs. 750/-

IMPORTANT DATES

Last date for Receipt of Applications: **08th June 2018**

The filled registration form should be sent by post or by email to hodeee@vardhaman.org

FACILITIES FOR PARTICIPANTS

Participants will be provided working lunch, tea/snacks along with the FDP kit. The participants are requested to make their own arrangements for Lodging.

OBJECTIVES OF THE PROGRAM

This course is designed to help you understand the benefits of blended learning and how to make more effective use of technology to support the learners. This course will enable you as a teacher ,trainer or instructor to develop your learners digital skills for successful employment and progress in modern work place.

2017-2018

Report on “Blended Learning Essentials”

A one week faculty development programme on “**Blended Learning Essentials**” was held at Department of Electrical and Electronics Engineering, Vardhaman College of Engineering from 11th June to 16th June, 2018. The FDP is to train the faculty from various engineering colleges. This course is designed to help you understand the benefits of blended learning and how to make more effective use of technology to support the learners. This course will enable you as a teacher, trainer or instructor to develop your learner’s digital skills for successful employment and progress in modern work place

TECHNICAL SESSIONS:

1st Day (11-6-2018):

First day was handled by Dr. S. Ravi Varman, Professor, Vardhaman college of Engineering, Hyderabad. He has delivered a lecture on

1. What is Blended Learning?
2. Teachers and Learners
3. Principles of Blended Learning
4. Systems, Tools and Resources for Blended Learning
5. The Skills for Digital Content Creation

2nd Day (12-6-2018):

Dr. S. Ravi Varman, Professor, Vardhaman college of Engineering, Hyderabad has a given a lecture on Word Press: A Content Management System. He said that Word Press is a content management system (CMS) based on PHP and MySQL. Features include a plug-in architecture and a template system, referred to inside Word Press as Themes. Word Press is most associated with blogging (its original purpose when first created) but has evolved to support other types of web content including more traditional mailing lists and forums, media galleries, membership sites, learning management systems (LMS) and online stores. Word Press is one of the most popular content management system (CMS) solutions in use.

3rd Day (13-6-2018):

Dr. S. Ravi Varman, Associate Professor, Vardhaman college of Engineering, Hyderabad has delivered a lecture on Padlet: Collaboration in the Classroom. He explains that Padlet is an application to create an online bulletin board that you can use to display information for any topic. Easily create an account and build a new board. You can add images, links, videos, and more. You can return to add more later. Installing Padlet Mini in your browser allows you to add the page you are browsing to your Padlet and gives you a shortcut to view your Padlets.

4th Day (14-6-2018):

Dr. S. Ravi Varman, Professor, Vardhaman college of Engineering, Hyderabad. He has talked on Screen cast-o-matic: Video Creation Tool for Education. Further he explained about Create screen cast videos with our screen recorder. It's fast, free and easy to use! Capture your screen, add a webcam and use narration to customize your video.

5th Day (15-6-2018):

Dr. S. Ravi Varman, Professor, Vardhaman college of Engineering, Hyderabad. She has given a lecture on Shortcut: Beginner Video Editing Tool. Further he explained about Shortcut is an open source, cross-platform video editor with a wonderfully sleek, intuitive interface. Shortcut supports video, audio, and image formats via FFmpeg. It uses a timeline for non-linear video editing of multiple tracks that may be composed of various file formats.

6th Day (16-6-2018):

Dr. S. Ravi Varman, Professor, Vardhaman college of Engineering, Hyderabad, has given a lecture on Web 2.0: Tools for Teaching and Learning. Further he explained that Web 2.0 refers to websites that emphasize user-generated content, ease of use, participatory culture and interoperability (i.e., compatible with other products, systems, and devices) for end users.

OUTCOME:

All the sessions were very much informative. The discussed areas are of great benefit in understanding the theoretical concepts and it enables the teacher, trainer or instructor to develop the learners digital skills for successful employment and progress in modern work place.

Entrepreneurship Talk series,Session-2, Vdeliver by Srinivas Madhavam , Gopi Krishna Lingala, Mr.Rahul Kanuganti, Ms.Priyanka Mechineni on 8th July 2017

Conducted two day workshop on data analytics using R –During 27th and 28th October 2017 in association with IEEE Computer society chapter, Hyderabad section

27 & 28 OCT 2017

Centre for Data Science, Dept. of CSE

About the College

Vardhaman Engineering College was established in the year 1999. The Institution aims at imparting quality education to students in Engineering and Technology & Business Management. The focus is on fully fledged development of the students besides excellence in academics.

Since the inception, the institution has been soaring high with its rich tradition of academic environment and on excellent infrastructure with dedicated, experienced and highly qualified faculty. The institute offers CSE, IT, EEE, ECE, Mechanical, and Civil at Bachelor's Level. MCA, MBA & M.Tech CSE, SE, ES, WMC, DECS and PEED at post Graduate level.

About the Department

Computer Science and Engineering has totally changed the complexion of the quality of life today, with so much of innovative research and development projects impacting everyday life. The scale of the achievement comes from the ability to integrate computer technology with communication technology. The Department of Computer Science and Engineering was established in 1999 with an intake of 60.

CSE is headed by Prof. **Vivek Kulkarni** a senior professor with teaching experience and is ably supported 58 well-qualified vibrant faculties, which includes 7 professors, 14 Associate professors and 36 Assistant professors. This program has been accredited by the National Board of Accreditation (NBA) since 2009.

The department employs modern teaching aids and methodologies helping the students to keep abreast of the latest trends worldwide with updated infrastructure in tune with emerging technologies & future requirements.

The department has been achieving consistently good results. Most of alumni found employment in highly reputed companies in India and abroad and a significantly large number of students have gone for higher studies in India and abroad.

ABOUT THE COLLEGE

Vardhaman College of Engineering was established in 1999 with an endeavour to impart high quality Technical Education and innovative research in the fields of Engineering technologies, with emphasis on industry oriented programs for development of students as well as faculty. Vardhaman College of Engineering is affiliated to Jawaharlal Nehru Technological University (JNTU), Hyderabad, and is approved by the All India Council for Technical Education (AICTE), New Delhi.

The prime objective of Vardhaman College of Engineering is to update and modernize the quality of professional education. Its aim is to employ innovative teaching methods which carry an emphasis on fast changing technological trends. This is to integrate classroom learning with actual work experience in the industry concerned or in a related professional field. In the course of continued march towards excellence the college was credited with the status of an Autonomous College by UGC and accredited by NAAC with 'A' Grade.

ABOUT THE DEPARTMENT

The department of Electrical and Electronics Engineering was established in 2002 and is accredited by National Board of Accreditation (NBA), AICTE. The department has competitive faculty members from prestigious institutions in specializations like Electrical Power Systems, Control systems, Power Electronics and Instrumentations. The department is also offering M. Tech. (Power Electronics and Electrical Drives) from the academic year 2008-2009 with an intake of 18 and is affiliated to Jawaharlal Nehru Technological university.

Objective of the department is to train and educate undergraduate engineering with academic excellence and to develop the student as a competent and responsible citizen with positive attitude, good character, self-confidence and leadership qualities and to keep pace with the rapidly growing technology in the Electrical and Electronics Engineering field. The department has well equipped laboratories to meet the demands of present day international Scenario.

The department organizes National level conferences/workshops/ seminars frequently for the benefit of faculty and students of various engineering college for meeting the industry standards.

TARGET AUDIENCE

- Faculty members from AICTE approved Institutions
- Industry Delegates

REGISTRATION FEE

- Faculty Members : Rs. 750/-
- Industry Delegates : Rs. 1000/-

IMPORTANT DATES

Last date for Receipt of Applications: **25th Nov 2017**

The filled registration form should be sent by post or by email to tohodeee@vardhaman.org

FACILITIES FOR PARTICIPANTS

Participants will be provided working lunch, tea/snacks along with the FDP kit. The participants are requested to make their own arrangements for Lodging.

OBJECTIVES OF THE PROGRAM

The objective of the program is to train the faculty from various engineering colleges in the field of Power Electronics and Renewable Energy Sources to help them in upgrading their knowledge with Intelligent tools in this field. The course also aims to target the research problems and to provide an opportunity for faculty to exchange and share ideas in intelligent tools and related fields. Such programs are essential to update the academia on emerging areas, especially those for which resources are limited at local/national level.

Report on “Transformation from Efficient to Effective Teaching”

A one week faculty development programme on **“Transformation from Efficient to Effective Teaching”** was held at Department of Electrical and Electronics Engineering, Vardhaman College of Engineering from 26th November to 6th December, 2017. The FDP is to train the faculty from various engineering colleges how to implement Innovative Classroom Strategies. The course also aims to making the teaching–learning process an interesting, engaging, and worthwhile experience is also of prime importance for the teachers. Such programs are essential to update the academia on teaching–learning process, Technology in the classroom, Professional development.

TECHNICAL SESSIONS:

1st Day (29-11-2017):

First day was handled by Dr. H.S. Jain, Professor, Vardhaman college of Engineering, Hyderabad. He has delivered a lecture on Implementing Innovative Classroom Strategies. He explains the role of every teacher should aims to overcome the above mentioned challenge efficiently. In order to do so, they should implement out-of-the-box teaching–learning strategies. This would make classroom sessions more interesting and would create a positive ambience of teacher–student interaction. The below mentioned strategies can assist in reinventing teaching methods and upgrade classroom sessions.

2nd Day (30-11-2017):

Dr. H.S. Jain, Professor, Vardhaman college of Engineering, Hyderabad has a given a lecture on Incorporating Creativity in Classroom. He said that Teachers can nurture the creative side of the students by conducting special classroom activities related to the curriculum. They can utilize various tools to stimulate students’ creativity. Including interesting games, visual exercises, power point presentations, images, and videos can excite students’ minds and attract their interest. Teachers should identify every student’s inventive abilities and encourage creative contributions. Bringing creativity in every subject and giving students the freedom to explore can work wonders.

3rd Day (1-12-2017):

Mr. Md Asif, Associate Professor, Vardhaman college of Engineering, Hyderabad has delivered a lecture on Using Audio–Video Teaching Aid. He explains that teachers can supplement textbook content by conducting audio–visual sessions in the classroom. Various tools like models, pictures, films, videos, info graphics, and so on can provide the scope for students' imagination to thrive. These techniques can boost their creativity and their ability to concentrate and understand concepts better. For example, if teachers play short videos about historical events and chemical experiments in the classroom, it can clarify various doubts that students have in their minds.

4th Day (2-12-2017):

Mr. B. Raja Gopal Reddy, Associate Professor, Vardhaman college of Engineering, Hyderabad. He has talked on Connecting with the Real World and explained that teachers can infuse real-life experiences and examples to conduct fresh and enriching sessions.

5th Day (4-12-2017):

Ms K. Jyothi, Associate Professor, Vardhaman college of Engineering, Hyderabad. She has given a lecture on Brainstorming can Work Wonders and explains about Conducting brainstorming sessions in the classroom widens the scope of nurturing creativity. When a group of students discuss and work together on a single idea, numerous ideas will be generated.

6th Day (5-12-2017):

Mr. Md Asif, Associate Professor, Vardhaman college of Engineering, Hyderabad, has given a lecture on Role play is an Effective Tool. Further he explained that it can be useful while teaching literature, history, or lessons on current affairs.

7th Day (6-12-2017):

Ms K C Archana, Assistant Professor, Vardhaman college of Engineering, Hyderabad, has given a lecture on Stepping outside the Classroom. Further she explained that by Confining within the boundaries of the classroom is not always sufficient for educational excellence

OUTCOME:

All the sessions were very much informative. The prime motive is to make sure that the ideas are thoroughly explained to the students. They aim to impart each lesson in such a way

that it creates a lasting impression on their minds. Another important aspect that concerns teachers is how to continuously hold the attention of the student throughout a classroom session. Making the teaching–learning process an interesting, engaging, and worthwhile experience is also of prime importance for the teachers.

Sir,

Sub: Mentoring and Guidance requested for NBA Accreditation Process and Outcome Based Education – Reg.

We are here by inviting your expertise mentoring and guidance in the process of NBA Accreditation and Outcome Based Education practice in our organization. In this connection we are requesting you to depute your resource persons to organize hands-on sessions on Outcome Based Education for our faculty under your supervision for the following departments.

1. Computer Science and Engineering
2. Information Technology
3. Electronics and Communication Engineering
4. Electrical and Electronics Engineering
5. Mechanical Engineering
6. Civil Engineering
7. Master of Business Administration

Thanking you sir.

Workshop On
3D PRINTING

18th – 23rd Dec 2017

Organized by

Department of Electronics and
Communication Engineering

**Vardhaman College of
Engineering**

Autonomous institute affiliated to JNTUH

About Vardhaman College of Engineering

Vardhaman College of Engineering was established in 1999. It is affiliated to Jawaharlal Nehru Technological University (JNTU), Hyderabad, and is approved by the All India Council for Technical Education (AICTE), New Delhi. It has been accredited by the NAAC WITH 'A' grade.

About the Department

The Department of Electronics and Communication Engineering was established in the year 1999. The department runs one under graduate program and two post graduate programs to cater to the ever – changing needs of technical excellence in all areas of Electronics and Communication Engineering such as VLSI Design, Embedded Systems, RF and MW Communications, Signal Processing etc. The intake for Under Graduate Program (B. Tech) is 240. The department also offers Post Graduation programs with specialization in Digital Electronics and Communication Systems (DECS) and Embedded Systems (ES) with an intake of 18 each.

About workshop:

3D printers are going to transform the future as they help engineers prototype and manufacture complex items very easily. You can print three-dimensional objects from a CAD model. In this course, you will build such a 3D printer from scratch.

In this course, you will learn the concepts of 3D printing and build a 3D printer from scratch. You will also program it to print objects with high precision. With this project, you can now print your very own objects and use them for building other projects. As part of the course, you will learn about:

- Additive Manufacturing
- RAMPS Board, SMPS & Motor Driver
- Arduino Programming

Course Content

- Introduction to 3D Printing
- Arduino Mega Introduction
- Arduino Mega Programming

- Stepper Motors with RAMPS and Arduino Mega
- Limit Switches with Arduino Mega

How to Apply

The interested Candidates need to E-Mail the completed signed and scanned registration form to hodece@vardhaman.org

Selection Criteria

Selection will be done based on First cum first serve basis and the confirmed candidates will be intimated to their personal E-Mail ids. The maximum number of participants will be 45.

Workshop on 3D Printing

14th – 15th July 2016

Lecture Schedule

Date	Forenoon (10:00AM to 1:00PM)	1:00PM to 1:30PM	Afternoon (1:30PM to 4:30PM)
14-07-2016	Introduction: Creation of STL file Mr. Venkateswaran P S	LUNCH BREAK	STL File: problems and repairing Mr. Venkateswaran P S
15-07-2016	Importing and exporting STL files in MATLAB Mr. Venkateswaran P S		visualizing surface mesh in MATLAB, generating faces and vertices using MATLAB Mr. Venkateswaran P S

VARDHAMAN COLLEGE OF ENGINEERING

(AUTONOMOUS)

Shamshabad – 501 218, Hyderabad

Department of Electronics and Communication Engineering

Workshop on 3D Printing

14th – 15th July 2016

Report

Day 1: 14-07-2016 FN & AN Session

“STL file format Description” by Mr. Venkateswaran P S

First day of workshop started by **Mr. Venkateswaran P S**, Manager R&D, ARK Infosolutions Pvt Ltd., Secunderabad. His presentation started with STL files, surface mesh and STL file formats. Examples of STL files, warning about facet normals. In the afternoon session he explains STL file problems and Repairing.

Day 2: 15-07-2016 FN & AN Session

“Importing and exporting STL files in MATLAB” by Mr. Venkateswaran P S

Second day he explained Importing and exporting STL files in MATLAB: how to store data, lazy array of vertices, eliminating redundant vertices, STL file creating by solid works; visualizing surface meshes in MATLAB, generating faces and vertices using MATLAB.

3D PRINTING

Interfacing MATLAB with CAD

on
14th – 15th July 2016

Mr. Venkateswaran P S
ARK Infosolutions Pvt Ltd.

14/7/2016 ARK Infosolutions Pvt. Ltd. 2

Lecture Outline

- STL Files
 - File format description
 - Problems and repairing
- MATLAB Topics
 - Importing and exporting STL files in MATLAB
 - Visualizing surface meshes in MATLAB
 - Generating faces and vertices using MATLAB
 - Surface mesh → 3D grid
- CAD Topics
 - Converting flat images to STL
 - Point clouds
 - Importing custom polygons into SolidWorks
 - STL to CAD file conversion
 - Exporting STL from Blender with proper units

14/7/2016 ARK Infosolutions Pvt. Ltd. 2

STL File Format Description

14/7/2016 ARK Infosolutions Pvt. Ltd. 3

What is an STL File?

STL – Standard Tessellation Language

STL does not mean stereolithography file.

This file format is widely used in rapid prototyping (i.e. 3D printing, additive manufacturing). It contains only a single triangular mesh of an objects surface. Color, texture, materials, and other attributes are not represented in the standard STL file format. Hacked formats exists to accommodate this type of additional information.

They can be text files or binary. Binary is more common because they are more compact. We will look at text files because that is more easily interfaced with MATLAB.

14/7/2016 ARK Infosolutions Pvt. Ltd. 4

Surface Mesh

Despite this sphere really being a solid object, it is represented in an STL file by just its surface.

Solid Object

STL Representation

STL File Format

```

solid name
***
facet normal nx, ny, nz
  outer loop
    vertex v1,1 v1,2 v1,3
    vertex v2,1 v2,2 v2,3
    vertex v3,1 v3,2 v3,3
  endloop
endfacet
***
endsolid name
    
```

This set of text is repeated for every triangle on the surface of the object.

$$\hat{n} = \frac{(\vec{v}_2 - \vec{v}_1) \times (\vec{v}_3 - \vec{v}_1)}{\|(\vec{v}_2 - \vec{v}_1) \times (\vec{v}_3 - \vec{v}_1)\|}$$

Outward Facet Normal

Facet

Facet indicates a keyword; these must appear in lower case. Note that there is a space in "facet normal" and in "outer loop," while there is no space in any of the keywords beginning with "end." Indentation must be with spaces; tabs are not allowed. The notation "{...}" means that the contents of the braces brackets can be repeated one or more times. Symbols in italics are variables which are to be replaced with user-specified values. The numerical data in the facet normal and vertex lines are single precision floats, for example, 1.23456E+789. A facet normal coordinate may have a leading minus sign; a vertex coordinate may not.

14/7/2016 ARK Infotechnologies Pvt. Ltd. 6

Example STL File

```

solid pyramid
facet normal -9.281842e+001 2.923717e+001 -4.781524e+001
  outer loop
    vertex 4.323172e+019 1.632799e+017 6.495190e+001
    vertex 3.750000e+001 7.581804e+001 4.330127e+001
    vertex 3.750000e+001 0.000000e+000 0.000000e+000
  endloop
endfacet
facet normal 0.000000e+000 0.000000e+000 0.000000e+000
  outer loop
    vertex 7.500000e+001 0.000000e+000 6.495190e+001
    vertex 3.750000e+001 7.581804e+001 4.330127e+001
    vertex 0.000000e+000 0.000000e+000 0.000000e+000
  endloop
endfacet
facet normal 0.281842e+001 2.923717e+001 -4.781524e+001
  outer loop
    vertex 3.750000e+001 -1.632799e+017 0.000000e+000
    vertex 3.750000e+001 7.581804e+001 4.330127e+001
    vertex 7.500000e+001 0.000000e+000 6.495190e+001
  endloop
endfacet
facet normal 0.000000e+000 -1.000000e+000 0.000000e+000
  outer loop
    vertex 3.750000e+001 0.000000e+000 0.000000e+000
    vertex 7.500000e+001 0.000000e+000 6.495190e+001
    vertex 0.000000e+000 0.000000e+000 0.000000e+000
  endloop
endfacet
endsolid pyramid
    
```

An STL file is essentially just a list of all the triangles on the surface of an object.

Each triangle is defined with a surface normal and the position of the three vertices.

14/7/2016 ARK Infotechnologies Pvt. Ltd. 7

A Single Triangle

```

facet normal -9.281842e+001 2.923717e+001 -4.781524e+001
  outer loop
    vertex 4.323172e+019 1.632799e+017 6.495190e+001
    vertex 3.750000e+001 7.581804e+001 4.330127e+001
    vertex 3.750000e+001 0.000000e+000 0.000000e+000
  endloop
endfacet
    
```

Facet Normal

Vertex 1

Vertex 2

Vertex 3

Facet 1

- Facet normal must follow right-hand rule and point outward from object.
 - Some programs set this to [0,0,0] or convey shading information.
 - Don't depend on it!
- Adjacent triangles must have two common vertices.
- STL files appear to be setup to handle arbitrary polygons. Don't do this.

14/7/2016 ARK Infotechnologies Pvt. Ltd. 8

ARK
EXPOSURE LIVES

Warnings About Facet Normals

- Since the facet normal can be calculated from the vertices using the right-hand rule, sometimes the facet normal in the STL file contains other information like shading, color, etc.
- Don't depend on the right-hand rule being followed.
- Basically, don't depend on anything!

STL File Problems and Repairing

14/7/2016 ARK Infocolutions Pvt. Ltd. 10

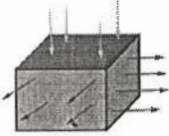

ARK
EXPOSURE LIVES

Inverted Normals

All surface normals should point outwards.

Good

Bad

14/7/2016 ARK Infocolutions Pvt. Ltd. 11

ARK
EXPOSURE LIVES

Intersecting Triangles

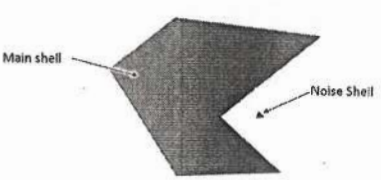

No faces should cut through each other. Intersections should be removed.

14/7/2016 ARK Infocolutions Pvt. Ltd. 12

Noise Shells

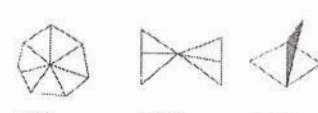

A shell is a collection of triangles that form a single independent object. Some STL files may contain small shells that are just noise. These should be eliminated.

14/7/2016 ARK Infocolutions Pvt. Ltd. 13

Nonmanifold Meshes

A manifold (i.e. watertight) mesh has no holes and is described by a single continuous surface.

14/7/2016 ARK Infocolutions Pvt. Ltd. 14

Importing and Exporting STL Files in MATLAB

14/7/2016 ARK Infocolutions Pvt. Ltd. 15

How to Store the Data

We have N facets and $\leq 3N$ vertices to store in arrays.

$F(N, 3)$ Array of triangle facets
 $V(? , 3)$ Array of triangle vertices

Many times, the number of vertices is $3N$. Observing that many of the triangle facets share vertices, there will be redundant vertices.

STL files can be compressed to eliminate redundant vertices, but many times they are not.

14/7/2016 ARK Infocolutions Pvt. Ltd. 16

Lazy Array of Vertices (1 of 2)

$V = \begin{bmatrix} V_{x,1} & V_{y,1} \\ V_{x,2} & V_{y,2} \\ \vdots & \vdots \\ V_{x,12} & V_{y,12} \end{bmatrix}$

V is an array containing the position of all the vertices in Cartesian coordinates.

N is the total number of vertices.

14/7/2016 ARK Infosolutions Pvt. Ltd. 17

Lazy Array of Vertices (2 of 2)

There is redundancy here. Twelve vertices are stored, but the device is really only composed of four.

While an inefficient representation, this is probably not worth your time fixing.

SolidWorks exports a lazy array of vertices.

$V = \begin{bmatrix} V_{x,1} & V_{y,1} & V_{z,1} \\ V_{x,2} & V_{y,2} & V_{z,2} \\ \vdots & \vdots & \vdots \\ V_{x,12} & V_{y,12} & V_{z,12} \end{bmatrix}$

14/7/2016 ARK Infosolutions Pvt. Ltd. 18

Example of Lazy Arrays

$F = \begin{bmatrix} 1 & 2 & 5 \\ 4 & 5 & 6 \\ 7 & 8 & 9 \\ 10 & 11 & 12 \end{bmatrix}$

$V = \begin{bmatrix} 0.0000 & 0.6195 & 0.0000 \\ 0.3928 & 0.4350 & 0.7032 \\ 0.3710 & 0 & 0 \\ 0.7850 & 0.6195 & 0 \\ 0.3710 & 0.4350 & 0.7032 \\ 0 & 0.6195 & 0 \\ 0.3710 & 0 & -0.0000 \\ 0.3710 & 0.4350 & 0.7032 \\ 0.7850 & 0.6195 & 0 \\ 0.3710 & 0 & 0 \\ 0.7850 & 0.6195 & 0 \\ 0 & 0.6195 & 0 \end{bmatrix}$

14/7/2016 ARK Infosolutions Pvt. Ltd. 19

Eliminating Redundant Vertices

Redundant vertices are easily eliminated using MATLAB's built in `unique()` command.

```
V = ELIMINATE REDUNDANT VERTICES
[V, indm, indn] = unique(V, 'rows');
F = indn(F);
```

Identifies unique rows in V and eliminates them from V .

Corrects indices in F that referenced eliminated vertices.

$indm$ – indices of rows in V that correspond to unique vertices.
 $indn$ – Map of row indices in original V to new row indices in the reduced V .

14/7/2016 ARK Infosolutions Pvt. Ltd. 20

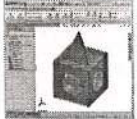

STL Files Generated by SolidWorks 

For some reason, Solidworks does not use the z-axis as the vertical axis.

For convenience, STL files can be easily reoriented.

```

    & REORIENT SOLIDWORKS AXES TO MATLAB AXES
    Y = V(1,2);
    V(1,2) = V(1,3);
    V(1,3) = Y;
  
```

Orientation in SolidWorks

Imported Orientation

Adjusted Orientation

14/7/2016 ARK Infosolutions Pvt. Ltd. 21

Visualizing Surface Meshes in MATLAB

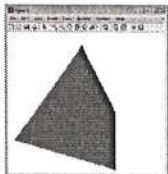

14/7/2016 ARK Infosolutions Pvt. Ltd. 22

How to Draw the Object 

Given the faces and vertices, the object can be drawn in MATLAB using the patch () command.

```

    & DRAW STRUCTURE USING PATCHES
    P = patch('Faces',F,'Vertices',V);
    set(P,'FaceColor','b','FaceAlpha',0.5);
    set(P,'EdgeColor','k','LineWidth',2);
  
```

14/7/2016 ARK Infosolutions Pvt. Ltd. 23

Generating Faces and Vertices Using MATLAB

14/7/2016 ARK Infosolutions Pvt. Ltd. 24

MATLAB Surfaces

Surfaces composed of square facets are stored in X, Y, and Z arrays.

The surface shown is constructed of arrays that are all 5x5.

```

X =
-1.0000 -0.8000 -0.2000 0.2000 0.4000
-1.0000 -0.8000 -0.2000 0.2000 0.4000
-1.0000 -0.8000 -0.2000 0.2000 0.4000
-1.0000 -0.8000 -0.2000 0.2000 0.4000
-1.0000 -0.8000 -0.2000 0.2000 0.4000

Y =
-1.0000 -1.0000 -1.0000 -1.0000 -1.0000
-0.4000 -0.8000 -1.2000 -1.6000 -1.6000
-0.2000 -0.2000 -1.2000 -1.2000 -1.2000
-0.2000 -0.2000 -0.2000 -0.2000 -0.2000
-0.4000 -0.4000 -0.4000 -0.4000 -0.4000

Z =
0.1000 0 0.1000 0.2000 0.2000
0 0 0.1000 0.2000 0.2000
0 0.1000 0.1000 0.2000 0.2000
0.1000 0.1000 0.1000 0.2000 0.2000
0.1000 0.1000 0 0.1000 0.2000
    
```

14/7/2016 ARK Innovations Pvt. Ltd. 25

Direct Construction of the Surface Mesh

MATLAB has a number of built-in commands for generating surfaces. Some of these are cylinder(), sphere() and ellipsoid().

```

% CREATE A UNIT SPHERE
[X,Y,Z] = sphere(41);
    
```

Surfaces can be converted to triangular patches (facets and vertices) using the surf2patch() function.

```

% CONVERT TO PATCH
[F,V] = surf2patch(X,Y,Z,'triangles');
    
```

The faces and vertices can be directly visualized using the patch() function.

```

% VISUALIZE FACES AND VERTICES
h = patch('faces',F,'vertices',V);
set(h,'FaceColor',[0.5 0.5 0.8],'EdgeColor','k');
    
```

14/7/2016 ARK Innovations Pvt. Ltd. 26

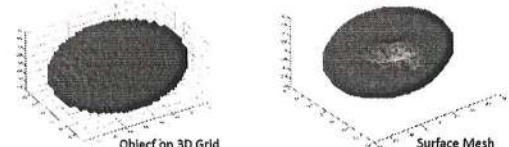

Grid → Surface Mesh

3D objects on a grid can be converted to a surface mesh using the command isosurface().

```

% CREATE ELLIPTICAL OBJECT
OBJ = (X/rx).^2 + (Y/ry).^2 + (Z/rz).^2;
OBJ = (OBJ < 1);

% CREATE SURFACE MESH
[F,V] = isosurface(X,Y,Z,OBJ,0.5);
    
```

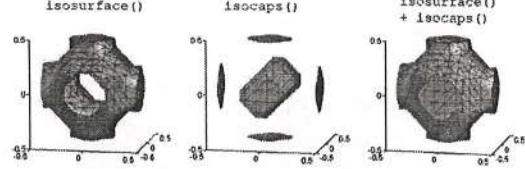

Object on 3D Grid Surface Mesh

14/7/2016 ARK Innovations Pvt. Ltd. 27

May Need isocaps ()

When 3D objects extend to the edge of the grid, you may need to use isocaps() in addition to isosurface().

```

% CREATE SURFACE MESH
[F1,V1] = isosurface(X,Y,Z,OBJ,0.5);
[F2,V2] = isocaps(X,Y,Z,OBJ,0.5);
    
```

14/7/2016 ARK Innovations Pvt. Ltd. 28

One week FDP on “data science and big data analytics “by ICT academy in association with DELL EMC during 5th December 2017 to 9th December 2017 Held at Vardhaman College of engineering

Conducted one week FDP on Emerging Trends in Computer Science & Engineering in Association with IEEE Computer society chapter, Hyderabad section on 8th to 14th June 2017

**Electronics and ICT Academy
ONE WEEK FACULTY DEVELOPMENT
PROGRAMME (FDP)**

**On
RF ANTENNA DESIGN AND EVALUATION
From
15th May 2017 to 20th May 2017**

REGISTRATION FORM

1. Name:
2. Designation:
3. Institution:
4. E-mail and mobile :
5. DD No:
Bank:
Date:
6. Address for Correspondence
7. Educational Qualifications with specialization:
8. Subjects taught so far:
9. No. of refresher courses/workshops attended:
10. Experience (in years)

Teaching	Research	Industry

11. Accommodation required: YES / NO
12. Do you belong to SC/ST: YES/NO

Declaration

The information provided above is true to the best of my knowledge. If selected, I agree to abide by the rules and regulations of the FDP and shall attend the course for the entire duration. I also undertake the responsibility to inform the Coordinator in case, I am unable to attend the course.

Place:

Date:

Signature of the applicant

SPONSORSHIP CERTIFICATE

Dr./Mr./Ms. _____ is an employee of our Institute/Organization and is hereby sponsored to participate in the FDP on RF Antenna Design and Evaluation sponsored by Electronics & ICT Academy during 15th May 2017 to 20th May 2017 at Vardhaman College of Engineering, Hyderabad.

Place:

Date:

Signature of Head
of the Institution (with seal)

ADDRESS FOR CORRESPONDENCE

Post your application form along with DD to

Dr. P. Nageswara Rao, Professor,
Dept. of ECE,
Vardhaman College of Engineering,
Hyderabad-501218

Mail the scanned copies of filled-in and duly signed application form along with DD

Mail id: nrraop@yahoo.com

For more information visit: <http://nitw.ac.in/eict/>

FOR ANY ENQUIRY CONTACT COORDINATORS:

ONE WEEK FACULTY DEVELOPMENT PROGRAMME (FDP)

On

RF ANTENNA DESIGN AND EVALUATION

Jointly Organized

by

Electronics & ICT Academy, NIT Warangal

and

Department of ECE,

Vardhaman College of Engineering, Hyderabad

15th May 2017 to 20th May 2017

**VARDHAMAN COLLEGE OF ENGINEERING
(AUTONOMOUS)**

Shamshabad – 501 218, Hyderabad, Telangana, India
www.vardhaman.org

PREAMBLE

"Electronics & ICT Academy" is set up at NIT Warangal with financial assistance from DeitY, MCIT, Gol. The role of academy is to offer faculty development programs in emerging areas of Electronics & Information and Communication Technologies; training & consultancy services for Industry; Curriculum development for Industry; CEP for working professionals; Advice and support for technical incubation and entrepreneurial activities.

The jurisdiction of this academy is Telangana, Andhra Pradesh, Karnataka, Pondicherry, Goa and Andaman & Nicobar islands. Under the umbrella of this academy, a standardized course namely 'RF Antenna Design and Evaluation' is proposed to be held at Vardhaman College of Engineering, Hyderabad. This FDP aims to cover new and emerging antenna designs for various wireless applications. Several types of antennas from microstrip patches to Vivaldi antennas and from monopoles to conformal arrays that are used for emerging wireless technologies (Wi-Fi, Wi-Max, WLAN, LTE, Cognitive radio Networks, Vehicular Networks, Security and privacy, Car to Car Communication, Mobile Telecommunications, indoor / outdoor systems and experimental systems for future internet research and many others) are discussed.

RF industry today is being driven by the consumer demand for wireless applications that allow "anytime, anywhere" connectivity. Today's RF industry rallies behind a single goal: to realize true convergence. In other words, the future of the RF industry lies in its ability to enable next-generation mobile devices to cross all of the boundaries of the RF Spectrum. Essentially then, this converged mobile device would bring together traditionally disparate functionality (eg. Mobile Phone, Television, Personal Computer and Personal Data Assistant) on the mobile platform.

This FDP focuses on recent developments of antennas and research outcomes addressing related theoretical and practical aspects on Wireless Communications.

RESOURCE PERSONS FOR THIS FDP

The program will be conducted by the faculty members of NIT Warangal. Academicians in the concerned field from IITs/NITs are invited to deliver lectures in the program. Speakers from R&D organizations are also expected as part of the course.

ELIGIBILITY:

The program is open to the teachers of engineering colleges from Electronics and Communication Engineering, Scholars in Telangana, Andhra Pradesh, Karnataka states and Goa. Industry personnel working in the concerned/allied discipline can also attend.

Registration Fee Particulars:

Faculty members : Rs 2000/- (For SC/ST: Rs. 500/-)
Industry participants : Rs 6000/-

The participants need to send a crossed demand draft (DD) for an amount of Rs.2000 / Rs.500 / Rs.6000 as the case may be drawn in favor of "Director, NIT Warangal" and payable at SBH, NIT Warangal branch.

HOW TO APPLY :

The application filled in the prescribed format duly signed and sponsored by appropriate authorities (along with DD) should reach the coordinator by speed-post. It is also mandatory to send scanned application form and demand draft through e-mail.

ACCOMMODATION:

For outside participants accommodation will be provided on prior request. No TA will be paid for the participants.

Important dates:

Last date for submission of application : 11.05.2017
Selection intimation by email will be on : 13.05.2017

Duration of Program:

15th May 2017 – 20th May 2017

About NITW:

National Institute of Technology (formerly Regional Engineering College), Warangal is the first among 17 RECs setup as joint venture of the Government of India and the state government. Over the years the college has established itself as a premier Institution imparting technical education of a very high standard leading to the B.Tech degrees in various branches of engineering and M.Tech. and Ph.D. programs in various specializations.

ABOUT VCE:

The Vardhaman College of Engineering was established in 1999. The college is UGC autonomous under JNTUH and offers B.Tech. programs in six branches of Engineering, viz., Civil, EEE, ME, ECE, CSE & IT., and PG courses in MBA, M. Tech(DECS), M. Tech(ES), M. Tech (CSE), M. Tech (PEED), M. Tech (SE) and M. Tech (ED). All the eligible UG engineering programmes have been accredited by National Board of Accreditation (NBA) of AICTE, New Delhi and by NAAC. The College is recognized with Centre for Potential Excellence by UGC. The college is also accredited by TCS.

DEPARTMENT OF ECE:

The Department is headed by Prof. Y. Pandurangaiah having vast teaching experience and supported by highly qualified faculty- 11 Professors, 18 Associate Professors and 34 Assistant Professors. The department has established centers of excellence in Cadence VLSI Design, NI LabVIEW Academy, Signal processing and RF and Microwave Engineering.

MAJOR COURSE CONTENT:

Antenna Basics, HF, VHF, UHF and MW Antennas, Antenna Measurements, Array Design, Patch Antennas, CPW Based antenna design, CEM, Fractal Antennas, Meta-materials. There will be hands on sessions on software tools

Electronics & ICT ACADEMY

NATIONAL INSTITUTE OF TECHNOLOGY

WARANGAL, TELANGANA -506004

The following are the terms and conditions for organizing the programme at your institute.

1. Registration details:

Faculty and Research Scholars from Telangana, Andhra Pradesh, Karnataka, Puducherry, Andaman and Nicobar Islands, Goa	Rs. 2000/-
Faculty of SC/ST Category from Telangana, Andhra Pradesh, Karnataka, Puducherry, Andaman and Nicobar Islands, Goa	Rs. 500/- (SC/ ST participants should submit their caste certificate to claim the concession along with application form)
Industry Participants	Rs. 6000/-
Participants from other states	Rs. 8500/-

- Research scholars are allowed for each FDP up to maximum of 5% of the strength.
- Complimentary registrations can be given at the ratio of 1:5. i.e., One free registration for every 5 registrations of host institution faculty.
- **Please note that if the number of participants does not reach at least 40, the programme should be cancelled. Budget allocation will decrease proportionately according to the no. of participants.**

2. Accommodation and food charges for participants should be provided by Host institute only.

3. Registration kit and material will be provided by the academy. In case if you wish to give any other additional material, you can give it to participants. These charges will not be included in E&ICT Academy expenses.

4. Based on the number of registrations coordinator's honorarium will be shared by both coordinators.

5. All travel, lodging and boarding expenses for all speakers will be met by academy. You are requested to arrange accommodation for speakers and pick up as per their travel plan. Host Institute coordinator will reimburse the expenditure incurred for this purpose through wire transfer after completion of the programme.

6. The entire registration fee is to be collected in the form of DDs/online transfer using the following details:

DD Details	Online Transfer Details
Demand Draft in favor of "Director, NIT Warangal" payable at NIT Warangal	Account Name: Electronics & ICT Academy NITW Account No: 62423775910 and IFSC: SBHY0020149

VARDHAMAN COLLEGE OF ENGINEERING

(AUTONOMOUS)

Affiliated to JNTUH, Approved by AICTE,

Accredited by NAAC with 'A' Grade and ISO 9001:2008 Certified

Dr. S. Sai Satyanarayana Reddy,

01-05-2017

M. Tech, Ph. D

Principal

To

The Director

National Institute of Technology

Warangal – 506004

TS, INDIA

Dear Sir,

Sub: - Request to give permission to host workshop – under NMEICT – Reg.

For the Kind Attention of: Prof. D.V. L. N. Somayajulu, Chair, E&ICT
Dr. T. Kishore Kumar, Head, ECE

I am happy to brief you that Vardhaman College of Engineering (Autonomous) is established in 1999, permanently affiliated to Jawaharlal Nehru Technological University Hyderabad (JNTUH), Hyderabad, and is approved by the All India Council for Technical Education (AICTE), New Delhi. Further the institute is accredited by NAAC with 'A' Grade and Department of ECE is accredited by NBA. The department is planning to organize **One Week National Level Workshop on "Emerging Antennas and RF Circuit Design Using HFSS"** for the benefit of faculty across various Engineering Colleges, in association with NIT Warangal under National Mission on Education through ICT (NMEICT) being funded by MHRD, Govt. of India, with an objective to improve quality of technical education, leading to skill up-gradation in India.

The Proposed dates for the workshop are 15th May, 2017 to 20th May, 2017.

The institute is ready to provide accommodation to outside participants, working lunch for participants and other infrastructure facilities to conduct the workshop. In this connection I request you to kindly accord permission to host the above said workshop in our organization.

Dr. P. Nageswar Rao, Professor in ECE (9908843163) will coordinate this programme from department of ECE of our institute.

We look forward for your kind cooperation in this regard.

Thanking You Sir

Yours Sincerely

Certificate

This is to certify that Prof. N. Uma maheshwar Rao, Professor
from Vardhaman College of Engineering, Hyderabad has
participated in MeitY, Govt. of India, Sponsored Faculty Development Programme (FDP) on "RF ANTENNA
DESIGN AND EVALUATION" Organized by the E & ICT Academy, National Institute of Technology,
Warangal at Vardhaman College of Engineering (A), Hyderabad, from 15th May - 20th May, 2017.
Participant obtained A grade in the test.

Report on One week faculty Development program

Title of the FDP : RF Antenna Design and Evaluation

Conducted by : Department of ECE, Vardhaman College of Engineering in association with E & ICT, NIT Warangal

Co-ordinator : Dr. N. V.S. N. Sarma, E & ICT, NIT Warangal
Dr. P. Nageswara Rao, Professor, Dept. of ECE, VCE

Dates : 15-05-2017 to 20-05-2017

No. of Participants : 41

Amount Paid to the NIT Warangal towards Registration fee : Rs. 64,000/-

No. of SC/ST Candidates Registered : 12

S. No.	Day	Session	Name of the Resource Person and Organization	Topic Covered
1	1	10.30 AM – 11.30 AM	Smt. Madumita Chakrabarti, Scientist 'F', RCI, Hyderabad	Target Detection System
2		11.45 AM – 1.00 AM	Dr. N. V.S. N. Sarma, Professor, Dept. of ECE, NIT Warangal	Introduction to Antennas
3		2.00PM - 4.30 PM	Dr. N. V.S. N. Sarma, Professor, Dept. of ECE, NIT Warangal	Radiation Mechanism and Antenna Parameters
4	2	10.00 AM – 11.30 AM	Sri Sairama, Scientist 'F', DLRL, Hyderabad	High Frequency Antennas for Broadband Applications
5		11.45 AM – 1.00 AM		VHF Antennas used for Practical Applications
6		2.00 PM - 4.30 PM	Dr. D. Vakula, Assistant Professor, Dept. of ECE, NIT Warangal	Computational Electromagnetics (FDTD, MOM and FEM)
7	3	10.00 AM – 4.30 AM	Sri. Kaviarasu.K Entuple Technologies, Bangalore	Design of Microstrip Antennas with line feed Using HFSS tool

8	4	10.00 AM – 1.00 AM	Sri Nagaraju, Scientist 'C', RCI, Hyderabad	Antenna Array design
9		2.00 PM - 4.30 PM	Sri Rakesh Kumar Singh, Scientist 'F'	RCI Visit Measurement of radiation pattern in anechoic Chamber
10	5	10.00 AM – 11.30 AM	Sri. Sanjay, Scientist 'D', RCI, Hyderabad	Microstrip Antenna Constructions and Parameters
11		11.45 AM – 1.00 AM		CPW based microstrip antenna Design
12		2.00 PM - 3.30 PM	Dr. L. Anjaneyulu, Associate Professor, Dept. of ECE, NIT Warangal	Multiband, Wideband and Ultra wideband Antennas
13		3.30 PM – 4.30 PM		Antenna Miniaturization Techniques
14	6	10.00 AM – 11.30 AM	Dr. P. Nageswara Rao, Professor, Dept. of ECE, VCE	Fractal Antennas used for multiband Operation and Miniaturization
15		11.45 AM – 1.00 AM	Dr. N. V.S. N. Sarma, Professor, Dept. of ECE, NIT Warangal	Meta materials for Antenna Design
16		2.00 PM - 3.30 PM	Sri M. Balachary, Scientist 'H', DLRL, Hyderabad	Broadband Antennas
17		3.30 PM – 4.00 PM		Test
18		4.00 PM – 4.30 PM	Sri M. Balachary, Scientist 'H', DLRL, Hyderabad	Valedictory

Test was conducted on the topics covered during the FDP Program

No. of Participants	41
No. of Participants got A grade	12
No. of Participants got B grade	10
No. of Participants got C grade	19

Budget : Rs. 40,000/-

Co-ordinator

Day 1: 15-05-2017

Inaugural Function

Lightening the Lamp by Chief Guest Dr. Madhurnita Chakrabarti

Session by Dr. N. V. S. N. Sarma on Antenna Fundamentals

Day 2: 16-05-2017

Session by Sri C. Sairam on HF and VHF Broadband Antennas

Session by Dr. D. Vakula on Computational Electromagnetics

Day 3 : 17-05-2017

Hands on Experience on HFSS by Mr. Kaviarasu. K, Entuple Technologies Bangalore

Day 4: 18-05-2017

Session by Mr. Nagaraju on Slotted Antenna Array Design

RCI Visit

Day 5 : 19-05-2017

Session by Mr. Sanjay, Scientist 'D', RCI on Microstrip Patch Antenna and CPW Antennas

Session by Dr. L. Anjaneyulu on Broadband, Multi band and Ultra Wideband Antennas

Day 6: 20-05-2017

Session by Dr. P. Nageswara Rao on Fractal Antennas

Session by Dr. N.V.S.N. Sarma on Metamaterials

Session by Dr. M. Balachary, Scientist 'H' on Broadband Antennas

From
Mr. J. Krishna Chaithanya
Co-ordinator
One week FDP on "Excellence in Intelligent Systems"
(15th May, 2017 to 20th May, 2017)
(Being conducted in association with FICE, Bangalore)

To
The Principal
Vardhaman College of Engineering
Shamshabad, Hyderabad

Sir,

Sub :- One week FDP on "Excellence in Intelligent Systems" certain requirements – Reg.

The department of Electronics and Communication Engineering is conducting a one week Faculty development program on Excellence in Intelligent Systems from 15th May, 2017 to 20th May, 2017 in association with FICE, Bangalore.

In this connection I would like to request to provide the following

1. Accommodation for out station Resource Persons (1 Male & 1 Female) in this college hostel.
2. Permitting the participants to avail College bus during the course.
3. Three Special Lunches for Resource Persons.
4. One Vehicle to take care dignitaries pickup and drop throughout FDP period.

Thanking You,

Yours Faithfully

13/5/17
Mr. J. Krishna Chaithanya

VARDHAMAN COLLEGE OF ENGINEERING

(AUTONOMOUS)

Affiliated to JNTUH, Approved by AICTE.

Accredited by NAAC with 'A' Grade and ISO 9001:2008 Certified

19-05-2017

To,
The Office of FICE,
Bangalore – 560095, India.

Dear Sir/Madam,

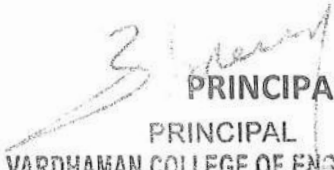

Sub: FICE – Faculty Development Program (FDP) – Citation on performance – reg.

Advertant to the FDP on Excellence in Intelligent Systems under the aegis of the FICE, Bangalore. We acknowledge Ms. Yamini Shale & Mr. Suryender Sharma, Subject Matter Experts FICE, respectively.

In view of the concluded FDP at our campus at the Embedded Systems Laboratory (Room No. 3021) as venue for the same. The Dept. of ECE under the auspices of VCE, Hyderabad, held between 15th May & 19th May 2017. The department as well as the college found the program informative, purposeful & the contribution by the trainers cited above is worth mentioning and performance wise, it was found to be commendable in appreciation of the levels of their imparting the training.

We look forward to have similar events of education trainings in near future to happen. We also earnestly hope that in pursuance of the Intel IoT Lab, the future coordination in further execution of internship programmes.

The assistance is well appreciated in the wake of undertaking similar efforts towards undertaking research oriented for sustainability.

Intel® College Excellence Program
 Excellence in Intelligent Systems .
 4-day Workshop

Workshop Pre-requisite:

- Familiarity with Linux based OS / Linux command line interface and editors like vi, nano.
- C/C++ based application building in Linux environment.
- Prior knowledge of basic python is desirable.
- Basic Arduino API and its role in building Embedded Systems is desirable.

NOTE:

*Both Ethernet and Wi-Fi facilities is necessary for the training and they should not be using any firewall and proxy settings.

Workshop agenda:

WORKSHOP AGENDA		
S. No.	Day One Objective: Understanding Intel Galileo and its Interfacing techniques	Total Duration 6.5 hours
1	Embedded Linux and Intel Galileo - platforms, IOT applications and related case studies	
2	Familiarity with Arduino API Programming using Arduino API and its role in building embedded applications	
3	Lab Demonstration: Interfacing various Digital/Analog Sensors (GPIO, PWM, Analog)	
	Day Two Objective: Embedded protocols and setting up IoT components for Intel Galileo	Total Duration 6.5 hours
4	Introduction to Serial communication protocols	
5	Project Case Study: <ul style="list-style-type: none"> • Data logging using SD library • Programming UART based GPS/GSM-GPRS Shields and related applications 	
6	Lab demonstration: <ul style="list-style-type: none"> • Building IoT SD card image • Accessing Linux terminal using Virtual Serial Interface like PUTTY/Tera term (Shell commands and utilities) • Setting up Networking (*Ethernet and *Wi-Fi) 	
	Day Three Objective: Project Ideation and Building IoT based Applications	Total Duration 6.5 hours
7	Building POSIX based Embedded Linux applications	
8	3-Tier architecture of IoT applications and related protocols: <ul style="list-style-type: none"> • Understanding TCP/IP and Arduino Ethernet Library API • HTTP based Arduino applications

IUCEE Workshop on Engineering Education Transformations, Embedded Design

FOURTH INTERNATIONAL CONFERENCE ON TRANSFORMATIONS IN ENGINEERING EDUCATION (ICTIEE 2017)

6 - 8 JANUARY 2017

PROGRAMME SCHEDULE AT A GLANCE

6 JANUARY 2017											
Registration for Workshops at 9:00: WORKSHOPS start at 9:30 am											
9:30 A.M.	Quanser Rm. 1001	NI Rm. 1002	NI Rm. 1003	Mathworks Rm. 1101	Digikey Rm. 1110	ARM Rm. 1104	Dassault Rm. 1009	Spectraquest Rm. 1111	Virtual IAS Rm. 1004	Emong Rm. 1102	
10:30 AM	TEA BREAK										
11:00 AM	WORKSHOPS (contd from 9:30 am or start at 11:30 am)										
11:30 AM	Quanser Rm. 1002	NI Rm. 1002	NI Rm. 1003	Mathworks Rm. 1101	IaPods Rm. 1011	Cypress Rm. 1104	IonCubes Rm. 1010	Comsol Rm. 1012	Virtual IAS Rm. 1004	Flagstarom Rm. 1113	International Deligates Colleges Leaders only
1:00 PM	LUNCH BREAK Walk to Auditorium										
2:00 PM	INAUGURAL SESSION										
2:45 PM	Distinguished Guest: Dr. R. Natarajan, Former Chairman AICTE, Former Director IIT Madras										
3:15 PM	Chief Guest - Shri BVR Mohan Reddy, CEO, Cyient										
3:30 PM	TEA BREAK										
4:00 PM	Keynote Address: Alok Sharma, Entrepreneur, former MD Apple India Walk to Auditorium										
4:30 PM	Special Guest: Tara Beteille, TEQIP, World Bank Walk to Auditorium										
5:00 PM	Session 1 T&L 1 Rm: 1001 Ch: Sakshi	Session 2 T&L 2 Rm: 1002 Ch: Sach	Session 3 T&L 3 Rm: 1003 Ch: Lakshmi	Session 4 CBE 1 Rm: 1009 Ch: Rajan	Session 5 CBE 2 Rm: 1010 Ch: Saanya	Session 6 CBE 3 Rm: 1011 Ch: Kulkarni	Session 7 PBL Rm: 1012 Ch: Harshad	Session 8 T&L Short P/IDE Short P1 Rm: 1110 Ch: Mahajan	Session 9 T&L Short P/IDE Short P2 Rm: 1111 Ch: Kanbar	Rm: 1114	EPICS Partner Meeting MITACE Invitation only
7:00 PM	INDIAN STUDENT FORUM VALEDICTORY										
7:30 PM	ENTERTAINMENT VARDHAMAN CRICKET STADIUM										
8:30 PM	DINNER VARDHAMAN CRICKET STADIUM										

7 JANUARY 2017												
Sessions start 9:30 am												
9:30 AM	Keynote Address Michael Milligan, CEO, ASSET											
10:00 AM	Welcome Address, Dean, Laksh University (from IUCEE Institute for students planning to pursue MEd degree in IIT)											
10:15 AM	Parallel Session Introductions Walk to Auditorium											
10:30 AM	Workshop (Rm. 1002)	Workshop (Rm. 1001)	Workshop (Rm. 1009)	Workshop (Rm. 1102)	Workshop (Rm. 1104)	Workshop (Rm. 1102)	Workshop (Rm. 1102)	Workshop (Rm. 1102)	Workshop (Rm. 1102)	Workshop (Rm. 1102)	Workshop (Rm. 1102)	Workshop (Rm. 1102)
11:00 AM	TEA BREAK											
11:30 AM	Workshop (Rm. 1002)	Workshop (Rm. 1001)	Workshop (Rm. 1009)	Workshop (Rm. 1102)	Workshop (Rm. 1104)	Workshop (Rm. 1102)	Workshop (Rm. 1102)	Workshop (Rm. 1102)	Workshop (Rm. 1102)	Workshop (Rm. 1102)	Workshop (Rm. 1102)	Workshop (Rm. 1102)
1:00 PM	LUNCH BREAK Walk to Auditorium											
2:00 PM	Sponsor Keynote Talks Dassault Systems: "Indian Engineering Education 2037: a conjunction of tidal waves" National Instruments: "Accelerating Discovery in Engineering Education" Quanser: "What does an engineering campus look like in the age of IoT?" Comsol: "Desktop Experiments to Enhance Classroom Learning: A Bridge Between Theory and Practice"											
4:00 PM	TEA BREAK											
4:30 PM	Parallel Paper Sessions											
5:00 PM	Parallel Paper Sessions											
6:00 PM	Parallel Paper Sessions											
7:00 PM	LEADERSHIP BANQUET By Invitation Only											

8 JANUARY 2017												
Sessions start 9:30 am												
9:30 AM	KEYNOTE ADDRESS Yaj Meedury, VC, Bennett University											
10:00 AM	Parallel Session Introductions Walk to Auditorium											
10:30 AM	Invited Talks (Rm. 1001)	Invited Talks (Rm. 1002)	Invited Talks (Rm. 1009)	Invited Talks (Rm. 1102)	Invited Talks (Rm. 1104)	Invited Talks (Rm. 1102)	Invited Talks (Rm. 1102)	Invited Talks (Rm. 1102)	Invited Talks (Rm. 1102)	Invited Talks (Rm. 1102)	Invited Talks (Rm. 1102)	Invited Talks (Rm. 1102)
11:00 AM	TEA BREAK											
11:30 AM	Invited Talks (Rm. 1001)	Invited Talks (Rm. 1002)	Invited Talks (Rm. 1009)	Invited Talks (Rm. 1102)	Invited Talks (Rm. 1104)	Invited Talks (Rm. 1102)	Invited Talks (Rm. 1102)	Invited Talks (Rm. 1102)	Invited Talks (Rm. 1102)	Invited Talks (Rm. 1102)	Invited Talks (Rm. 1102)	Invited Talks (Rm. 1102)
1:00 PM	LUNCH BREAK Walk to Auditorium											
2:00 PM	Sponsor Talks Mathworks: "Enabling Computational Thinking in Engineering Education: MathWorks Solutions" Spectraquest, ARM, IonCubes											
3:00 PM	TEA BREAK											
3:30 PM	Awards and Valedictory											

VARDHAMAN COLLEGE OF ENGINEERING

Engineering is the application of scientific, economic, social, and practical knowledge in order to invent, design, build, maintain, research and improve structures, machines, devices, systems, materials, and processes. Engineering education is the activity of teaching knowledge and principles related to the professional practice of engineering.

The **ICTIEE-2017: 04th International Conference on Transformations in Engineering Education** aims to bring together leading academic scientists, researchers and research scholars to exchange and share their experiences and research results on all aspects of Transformations in Engineering Education. It also provides a premier interdisciplinary platform for researchers, practitioners and educators to present and discuss the most recent innovations, trends, and concerns as well as practical challenges encountered and solutions adopted in the fields of Transformations in Engineering Education. It was held on in (Hyderabad, Rajkot, Jaipur) India during January 6 – 12, 2017.

At ICTIEE-2017, Hyderabad – a congregation of 36 international delegates from all over the globe along with a union of industrialists, bureaucrats, academicians, researchers of national importance, gathered together to steer the technical education in INDIA to its pinnacle.

ICTIEE-2017, Hyderabad center has received more than 150 submissions. The papers came from both academia and industry reflecting the international flavor of this event in the topics of Outcome based education (OBE), Teaching and learning process (T&LP), Project based learning (PBL) & Online learning environment (OLE) under the platform of Engineering Education and Technology. Based on the review committee, constituted on international repute report 87 papers were accepted for presentations. All the accepted papers have been presented by oral presentations & were grouped into various parallel sessions viz., T&L, OBE, PBL & OLE on DAY-1 & 2 from 04:30 PM to 07:00 PM. During the conference, many novel research works caught the attentions of the participants.

The inaugural session was conducted on 06th January 2017 in the auditorium of Vardhaman College of Engineering, Hyderabad, Telangana State, India. Prior to the inaugural session, there were preamble talks by Industry personnel along with hands – on sessions to make the sessions fruitful to the participants. The following organizations participated in these sessions: Quanser, NI, Virtual Labs, Dassault Systems, Emona, ARM, Digilent, Spectraquest, IonCudos, InPods, Comsol, Mathworks, Cypress. An invited talk on “Confronting Plagiarism to Safeguard Academic Integrity “ by Dr. Veena Kumar, Professor, University of Maryland University College, USA made the audience clear in their minds about what is plagiarism and the thin line between plagiarism and collecting information from Internet.

During Inauguration, the Guest of Honor Sri. CH. Mallareddy, Member of Parliament spoke at length regarding the role of youth in national development. He advised the participants to mould the youth under their stewardship to be constructive in building social cohesion, economic prosperity and political stability in INDIA in an inclusive and democratic way. The Chief Guest, a noted entrepreneur Dr. B V R Mohan Reddy, Founder and Managing Director Cyient (Formerly known as Infotech Enterprises) India, Former Chairman NASSCOM stressed the importance of entrepreneurship and suggested to the audience to admonish the young engineers to take to entrepreneurship as an alternative to employment, higher studies & research. The Distinguished Guest Dr. R. Natarajan, Former Director IIT Madras & Former Chairman AICTE, laid emphasis on research in addition to teaching for the engineering educators and enjoined the utilization of research grants for their R&D works thereby improving the standards of technical education in INDIA. Also he underlined the importance of accreditation and vision for global competitiveness. At the end of strenuous DAY 1 schedule, the students of Vardhaman College of Engineering entertained all the international delegates and participants with their great cultural performance which made the audience pleasant and cheerful.

The DAY 2: 07th January, 2017 was started by the key note address by Dr. Michael Miligan, CEO, ABET reiterated the significance of outcome based education and the role of ABET in establishing processes that make the ABET accredited programs setting standards globally. This was followed by a series of interesting talks and discussions by expert academicians & industrialists which kept the participants learning all through. In recognition to the active participation and support given by the various organizations/persons to this conference, Prof. Krishna Vedula hosted a LEADERSHIP BANQUET in honor of them at the end of DAY-2.

On the concluding day at Hyderabad i.e. 08th January 2017, a series of invited talks on transformations in engineering education by experienced professionals of international stature took place at various parallel sessions. While this international conference ICTIEE – 2017 was in progress, Women in Engineering & EPICS programs went on simultaneously for invited delegates of IUCEE consortium colleges. The valedictory session was very vibrant with Dr. Krishna Vedula taking an electrifying lead and announcing various awards for the institutions and personnel for their overall contribution to IUCEE activities for the year of 2016. It was an honor to have Dr D N Reddy, Director of ESCI & Ex Vice Chancellor JNTUH as Chief Guest of valedictory function. Dr D N Reddy, mentioned that India has a potential for becoming one of the technological leaders globally and the country has seen remarkable developments over the past couples of years. However, there are some issues that are to be sorted like system planning, infrastructure, social acceptance for making our OBE system more effective. He reminded that all the engineering educators should strive constantly to meet the objectives of OBE in

the country. On the eve of this conference, the management of VARDHAMAN COLLEGE OF ENGINEERING felicitated notable academicians and administrators for their valuable contributions towards improvements of higher education in India.

Finally, it was heartening to note that this ICTIEE-2017 acted as a platform for engineering educators to CONNECT, SHARE, TRANSFORM and there by fulfilling the motto of this event.

Objectives of the workshop

This workshop on Antenna & RF Component Modeling using HFSS will incorporate theory into practice and will enable the participants to gain insights into the design, development and testing of various RF components and circuits that are being implemented as MINI and MAJOR Projects..

The workshop on HFSS will fulfill the following objectives:

- Explain the Basics of HFSS Software
- Understand existing and emerging Research Topics for implementation of projects
- Design of various types of Antennas and RF components.
- Describe and understand a broad spectrum of Filters, Power dividers etc. and their types
- Expertise in HFSS Tool for designing various RF components, SAR, EMI Analysis, optimization, tuning techniques etc.

Keeping in mind, the importance of research in frontier areas like RF & Microwaves, ECE Dept., Vardhaman College of Engineering in association with ARK Info Solutions Bangalore is organizing a workshop on RF Circuit Design using Ansys-HFSS.

Registration Details

- ❖ No Registration Fee for the Participants.
- ❖ Limited number of Participants (35 - 40) will be accommodated on first-cum-first served basis.
- ❖ Lunch, Tea and Snacks will be provided.

Important Dates

Last date for Registration : 17/07/2016
Date of Acceptance Intimation : 20/07/2016

Shamshabad, Hyderabad – 501218

DEPARTMENT OF ELECTRONICS AND COMMUNICATION ENGINEERING

WORKSHOP ON ANTENNA & RF COMPONENTS MODELING USING HFSS

WORK-SHOP OUTCOMES

- Students understood how to simulate and validate the performance of different types of antennas and RF components using Ansys-HFSS software.
- Students are capable of design, develop and test their mini/major projects.
- Faculty upgraded their technical skills in RF domain.
- Faculty exhibited enhanced confidence levels for their pursuing higher studies/ research / publications/patents in Antennas & RF Components design.

DEPARTMENT OF ELECTRONICS AND COMMUNICATION ENGINEERING WORKSHOP ON ANTENNA & RF COMPONENTS MODELING USING HFSS

REPORT

The Department of Electronics & Communication Engineering, in pursuance of improving the capabilities of the faculty and students, had organized a three day workshop from 21-07-2016 to 23-07-2016 on **Antenna & RF Components Modeling using HFSS** in association with M/s. Embedded RF Technologies, Hyderabad.

Overview: ANSYS - HFSS Software is the industry standard for simulating 3D, Full wave, Electromagnetic fields. Its gold-standard accuracy, advanced solvers and high performance computing technologies make it an essential tool for engineers tasked with executing accurate and rapid design in high frequency and high speed electronic devices and platforms. HFSS offers state-of-the-art solver technologies based on finite element, integral equation, asymptotic and advanced hybrid methods to solve a wide range of microwave, RF and high speed digital applications.

Objectives of the workshop: The main objectives in mounting this workshop are

- To educate the students in terms of technical expertise right from fundamentals to design level so that they will be able to design, develop, test their mini and major projects in RF and Microwave areas.
- To impart training to faculty in terms of latest trends in technology using HFSS software simulation tools.

DAY-1 (21-07-2016, THURSDAY):

The hands on Session were performed. Mr.Sourabh Joshi of Embedded RF Technologies lead the participants to design bi conical antenna and corporate feed network in the forenoon (FN) session.

In the afternoon session (AN) participants were busy with design and simulation of log periodic antenna.

DAY-2 (22-07-2016, FRIDAY):

All the participants actively participated on day 2 involving in the design and simulation of aperture coupled patch antenna and helical antenna in the forenoon (FN)session.

In the afternoon (AN) session, helical antenna and dielectric resonator antennas were modeled and analyzed.

DAY-3 (23-07-2016, SATURDAY):

In the forenoon (FN) session of day 3, participants had hands on session dealing with the modeling of RF components like Filters, Mixers, Hybrid coupler etc.,

In the afternoon session (AN) of day 3, all participants interacted and exchanged their views with the experts (both external and internal) regarding the realization of their mini/major projects.

The workshop concluded by taking the feed back from all the participants.

2. Developing the Hardware and Software of Development to IoT environment in ARDUINO platform.
3. Hands-on experience for participants with Human-machine interfaces.

TEAM OF RESOURCE PERSONS:

From Embedded RF Team

1. **Bhavani Shankar** – 9030409804
2. **Sourabh Joshi** – 9618155458

SCHEDULE:

DAY	MODULE	TIME
DAY 1 (11/07/16)	Introduction to IOT(Internet Of Things)	9:45 – 11:30
	Arduino Hardware Description	
	BREAK	11:30 – 11:40
	Various applications of IOT & Basic Configuration	11:40 – 1:00
	LUNCH	1:00 – 2:00
	Technologies involved & Servers available in Market	2:00 – 4:30
Arduino – Sensor interfacing like DHT-11, Gas sensor, PIR sensor etc		
DAY 2 (12/07/16)	Constructing a Message format, transmitting it through NRF to another arduino.	9:45 – 11:30
	Raspberry PI Introduction & Hardware Description	11:30 – 11:40
	BREAK	
	Raspberry Pi- NRF connection	11:40 – 1:00
	Raspberry Pi- NRF programming	
	LUNCH	1:00 – 2:00
Basics of SQLite Database	2:00 – 4:30	
Practical Session		
DAY 3 (13/07/16)	Receiving data from one node	9:45 – 11:30
	Receiving data from multiple nodes	
	BREAK	11:30 – 11:40
	Receiving data from multiple nodes and uploading to SQLite server	11:40 – 1:00
	LUNCH	1:00 – 2:00
	Uploading the data into Firebase	2:00 – 4:30
	Retrieving data from Firebase	
TEST PROJECTS BASED ON ALL INTERFACES		

DAY 4 (14/07/16)	Introduction on various PROJECTS done in 2015-16	9:45 – 11:30
	BREAK	11:30 – 11:40
	Assessing of all TEAMS from each section	11:40 – 12:15
	Transforming the ideas of PROJECTS	12:15 – 1:00
	LUNCH	1:00 – 2:00
	Discussion on PROJECTS (Q & A)	2:00 – 4:30
DAY 5 (15/07/16)	Discussion on Ideation PROJECTS for MINI & MAJOR PROJECTS	9:45 – 11:30
	BREAK	11:30 – 11:40
	Finalizing the PROJECT TITLE	11:40 – 1:00
	LUNCH	1:00 – 2:00
	Execution of allocated PROJECTS	2:00 – 4:30
	QUESTION & ANSWER SESSION	

Faculty Coordinators:

1. Mr. J. Krishna Chaithanya
2. Mr. S. Janardhan Rao
3. Mr. M. Gopi Krishna
4. Mr. B. Raveendranath
5. Mr. G. Bhaskar Phani Ram
6. Mrs. V. Jyothi

VARDHAMAN COLLEGE OF ENGINEERING

Workshop on MATLAB Applications

18 - 22 JULY 2016

About College

Vardhaman College of Engineering was established in 1999. It is affiliated to Jawaharlal Nehru Technological University (JNTU), Hyderabad, and is approved by the All India Council for Technical Education (AICTE), New Delhi. It has been accredited by the NAAC WITH 'A' grade.

Objectives:

1. To provide a theoretical & practical introduction to MATLAB.
2. MATLAB functions
3. To Write simple MATLAB programs

About Workshop

This workshop is intended for the broader academic community who seeks to explore the impact of MATLAB in the industry and Academics. Workshop provides students with a personalized experience that is rich with technical knowledge. This workshop covers basic concepts of MATLAB and its Applications in various areas.

Resource Persons

Mr. Pavan Kumar Nanduri

Technical Manager-EBU Division
ARK Infosolution Pvt. Ltd.,
Secunderabad.

Mr. D. Praveen Kumar

Associate Professor, Malla
Reddy Engineering College,

2. Edit the properties of these components. Double click one of the *Static Text* components. You should see the *property Inspector*.

Department of ECE, Vardhaman College of Engineering, Shamshabad

3. Do the same for the next *Static Text* component, but instead of changing the *String* parameter to *a*, change it to *x*, and another it to *MyAdderGUI*.

4. For *Static Text* component 0, modify the *Zig* parameter to *answer_staticText*.

5. You should have something that looks like the following:

Department of ECE, Vardhaman College of Engineering, Shamshabad

Creating the Visual Aspect of the GUI: Part 2

1. Modify the *Edit Text* components. Double click on the first *Edit Text* component. Set the *String* parameter to *0*. Change the *Zig* parameter to *input_editText*.

2. The second *Edit Text* component, set the *String* parameter to *0*. Set the *Zig* parameter *input2_editText*.

Department of ECE, Vardhaman College of Engineering, Shamshabad

3. Modify the *pushButton* component. Change the *String* parameter to *Add!*. Change the *Zig* parameter to *add_pushbutton*.

Department of ECE, Vardhaman College of Engineering, Shamshabad

4. You should have something like this:

5. Save your GUI under any file name you please. I chose to name mine *myAdder*. When you save this file, MATLAB automatically generates two files: *myAdder.fig* and *myAdder.m*. The *.fig* file contains the graphics of your interface. The *.m* file contains all the code for the GUI.

Department of ECE, Vardhaman College of Engineering, Shamshabad

Writing the Code for the GUI Callbacks

1. Open up the *.m* file that was automatically generated when you saved your GUI.

2. In the MATLAB editor, click on the  icon, which will bring up a list of the functions within the *.m* file. Select *input2_editText_Callback*.

Department of ECE, Vardhaman College of Engineering, Shamshabad

Creating the Visual Aspect of the GUI: Part 1

1 For the adder GUI we will need the following components.

- 1. Add two *Axis* components to the GUI figure.
- 2. Add three *Pushbutton* components onto the GUI figure.

2 Double click the *Axis* component to bring up the Property Inspector. The *Tag* property is named *axes1*. The other *Axis* component's *Tag* property is named *axes2*.

Department of ECE, Vardhaman College of Engineering, Shamshabad

3. Modify the properties of the *Pushbutton* components.

Double click on one of the *Pushbutton* components. Change the *String* property to Plot Axes 1, and the *Tag* property to *plotAxes1_pushbutton*.

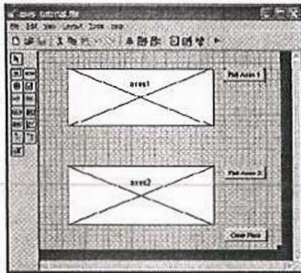

4. Double click on the next *pushbutton* and change the *String* property to Plot Axes 2 and change the *Tag* property to *plotAxes2_pushbutton*.

Double click on the final *pushbutton* and change the *String* property to Clear Axes and change the *Tag* property to *clearAxes_pushbutton*.

Department of ECE, Vardhaman College of Engineering, Shamshabad

5. The figure should look like below after you add the components and modify them.

Department of ECE, Vardhaman College of Engineering, Shamshabad

Writing the Code for the GUI Callbacks

1. Open up the *.m* file that was automatically generated when you saved your GUI.

2. In the MATLAB editor click on the *callback* icon which will bring up a list of the functions within the *.m* file. Select *plot1_pushbutton_Callback*.

Department of ECE, Vardhaman College of Engineering, Shamshabad

3. Add the following code to the function:

```

handles.axes1 as the current axes, so that
MATLAB knows where to plot the data.
axes(handles.axes1)
-
creates a vector from 0 to 10, [0 1 2 3 ... 10].
x = 0:10;
creates a vector from 0 to 10, [0 1 2 3 ... 10].
y = 0:10;
-
plots the x and y data.
plot(x,y);
Adds a title, x-axis description, and y-axis description.
title('Axes 1');
xlabel('X data');
ylabel('Y data');
guidata(hObject, handles); updates the handles
    
```

Department of ECE, Vardhaman College of Engineering, Shamshabad

4. Put the following code into the *plot2_pushbutton_Callback*

```

selects axes2 as the current axes, so that
MATLAB knows where to plot the data.
axes(handles.axes2)
-
creates a vector from 0 to 10, [0 1 2 3 ... 10].
x = 0:10;
creates a vector [0 1 4 9 ... 100].
y = x.^2;
-
plots the x and y data.
plot(x,y);
Adds a title, x-axis description, and y-axis description.
title('Axes 2');
xlabel('X data');
ylabel('Z data');
guidata(hObject, handles); updates the handles
    
```

Department of ECE, Vardhaman College of Engineering, Shamshabad

5. Add some code to the `clearPlot_pushButton_Callback`

```

clear(handles.axes1,'reset');
clear(handles.axes2,'reset');
update(handles_handles);
    
```

6. Add the following line of code to `ave_natural_OpeningFcn`

```

set(hObject,'toolbar','standard');
    
```

This line of code effectively adds the standard toolbar to the GUI, allowing the user to zoom, pan, query the plot, and more.

Department of ECE, Vardhaman College of Engineering, Shamshabad

Run and Test the GUI

- From the m-file editor, you can click on the icon to save and run the GUI.
- Alternatively from the GUIDE editor, you can click on the icon to launch the GUI.

Department of ECE, Vardhaman College of Engineering, Shamshabad

MATLAB GUI Tutorial - Button Types and Button Group

You will learn how to use the different types of buttons available within Matlab GUIs. These button types are: push button, radio button, check box, and toggle buttons. In addition, you will learn how to use the button panel to control a group of buttons.

Department of ECE, Vardhaman College of Engineering, Shamshabad

Create the Visual Aspect of the GUI

- Open up MATLAB. Go to the command window and type in `guide`

- Choose the first option Blank GUI (Default)

Department of ECE, Vardhaman College of Engineering, Shamshabad

- You should now see the following screen

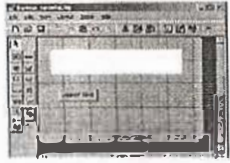

Department of ECE, Vardhaman College of Engineering, Shamshabad

Part One: The Pushbutton

- For the adder GUI we will need the following components.
 - add one *Static Text* component to the GUI figure.
 - Add three *Pushbutton* components onto the GUI figure
- Double click the *Static Text* component to bring up the Property Inspector.
 - Change the *String* property so that there is nothing inside.
 - Change the *Tag* property to `display_staticText`.
 - Double click on the *Pushbutton* component and change the *String* property to `Display Text` and change the *Tag* property to `displayText_pushButton`.

Department of ECE, Vardhaman College of Engineering, Shamshabad

1. The figure should look like below after you add the components and modify them.

Writing the Code for the GUI Callbacks

1. Open up the `m` file that was automatically generated when you saved your GUI.
2. In the MATLAB editor, click on the `@` icon, which will bring up a list of the functions within the `m` file. Select `callback` for `pushbutton_Callback`.

Department of ECE, Vardhaman College of Engineering, Shamshabad

3. Add the following code to the function:

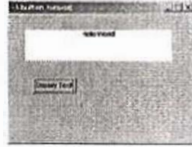

```

set(handles.'hello_world') in the root text component when the
callback function is pressed:
set(handles.display_staticText,'FontSize','hello_world');

```

Run and Test the GUI

1. From the m-file editor, you can click on the `Run` icon to save and run the GUI.
2. Alternatively, from the GUIDE editor, you can click on the `Run` icon to launch the GUI.

Department of ECE, Vardhaman College of Engineering, Shamshabad

Part Two: The Check Box

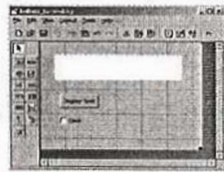

1. For the adder GUI we will need the following components.
 add one *Check Box* component to the GUI figure

2. Double click the *Check Box* component to bring up the Property Inspector.
 Change the *String* property to *Bold*.
 Change the *Tag* property to *bold_checkbox*.

Department of ECE, Vardhaman College of Engineering, Shamshabad

3. The figure should look like below after you add the Check Box component and modify it.

4. Add the following code to the `bold_checkbox_Callback` function:

```

checkboxStatus = 0; if the box is unchecked;
checkboxStatus = 1; if the box is checked;
checkboxStatus = get(handles.bold_checkbox,'Value');
if checkboxStatus
    if box is checked, text is set to bold;
    set(handles.display_staticText,'FontSize','bold');
else
    if box is unchecked, text is set to normal;
    set(handles.display_staticText,'FontSize','normal');
end

```

Department of ECE, Vardhaman College of Engineering, Shamshabad

Run and Test the GUI

1. Run the GUI to make sure it works before we move on. Try checking and unchecking the Check Box component to make sure that the text "Hello World" is set to bold and unbolded.

Department of ECE, Vardhaman College of Engineering, Shamshabad

Thank you

Shamshabad, Hyderabad - 501 218

Department of Freshman Engineering

Report on
National Seminar
On

"Role of Mathematics and its Applications in Engineering"

(July 09 – 10, 2015)

Background

Seminars of any types play an important role to enhance the teaching-learning process as well as the professional development of teachers. This seminar purports to contribute to the ongoing debates in the challenges and quality of teaching mathematics and create a new knowledge base that would provide a plausible solution without sacrificing the concerns of all stake holders from different quarters. To brace up a fight against this humpty number of challenges and reach the success is not going to be an ice-cream chewing for many; rather a path of daunting challenges. Attending the seminar would benefit teacher educators, students, researchers, policy-makers and anyone who is interested in teacher education. Our college is proud to venture and initiate this small effort of conducting a seminar on identifying the challenges and alternatives in teacher education with special reference to mathematics.

Introduction

Vardhaman College of Engineering conducted two days national seminar on the theme "Role of Mathematics and its application" in July 09-07-2015 to 10-07-2015 on the campus surrounded by greenery and beautiful natural location.

Our college take pride to take pride to announce to be able to conduct two days national seminar with great success. All the sessions were thought-provoking and gave insight to teaching faculty as well as research scholars including students of the college.

Objective

Mathematics plays a key role in the development of various branches of science, engineering as well as in the understanding of physical world problems. We would like to hold a Two-day national seminar on "*Role of Mathematics and its Applications in Engineering*", July 09 – 10, 2015, with a view to giving researchers/teachers an opportunity to have interactions among themselves. There will be invited lectures and interactive sessions. The following objectives of the seminar were:

- ❖ To find out the strategies to promote the quality in teaching and researching in the field of mathematics.

- ❖ To stress the importance of technology integrated teaching-learning process in the present scenario.
- ❖ To identify the challenges experienced in today's operational research
- ❖ To adapt and adopt teaching methodology by the teachers in their changing role of teacher

Themes and sub-themes of the Seminar

The topics include (but not limited to) the following:

- Partial Differential equations
- Number Theory
- Fluid Mechanics
- Numerical Methods
- Operational Research
- Mathematical Modeling

Young researchers were given opportunity to demonstrate their own works and have suggestions from experts.

Participants

Any teacher/ Researcher/ student of mathematics may participate in the seminar.

Invited Speakers

Dr. C. R. Rao, Professor of CSE, Central University, Hyderabad

C. R. Rao was the eighth of the ten children born to a Telugu family in Hadagali, Bellary, and Karnataka, India. He received an MSc in mathematics from Andhra University and an MA in statistics from Calcutta University in 1943. He obtained a PhD degree at King's College in Cambridge University under R. A. Fisher in 1948, to which he added a Sc.D. degree, also from Cambridge, in 1965. Rao worked at the Indian Statistical Institute and the Anthropological Museum in Cambridge.

He held several important positions, as the Director of the Indian Statistical Institute, Jawaharlal Nehru Professor and National Professor in India, University Professor at the University of Pittsburgh and Eberly Professor and Chair of Statistics and Director of the Centre for Multivariate Analysis at Pennsylvania State University. As Head and later Director of the Research and Training School at the Indian Statistical Institute for a period of over 40 years, Rao developed research and training programs and produced several leaders in the field of Mathematics. On the basis of Rao's recommendation, the ASI (The Asian Statistical Institute) now known as Statistical Institute for Asia and Pacific was established in Tokyo to provide training to statisticians working in government and industrial organisations

Dr. A. Ramakrishna Prasad, Professor of Mathematics, JNTU, Hyderabad

Dr. A. Ramakrishna Prasad is presently Head of the Department of Mathematics, Jawaharlal Nehru Technological University College of Engineering, Hyderabad and Chairman Board of Studies (Mathematics) of Jawaharlal Nehru Technological University, Hyderabad. He has a vast teaching experience of over two decades and has been teaching varied subjects such as Engineering Mathematics, Information Systems, Database Management Systems, etc., and continues to explore different domains in Sciences and Engineering. He played a pioneering role in elevating the image of the university during his stint (2004-2008) as the Professor-in-charge of Training and Placement for United Jawaharlal Technological University, Hyderabad. He was instrumental in developing a healthy rapport with the industry and in helping the students in their career search. To cite a few, he was the co-coordinator for the BHEL-JNTU project and business associate for Wipro.

Dr. J.V. R. Ravindra

Professor of ECE, VCE, Hyderabad

Dr. J.V.R. Ravindra is a professor of ECE and currently teaching in Vardhaman College of Engineering His area of interest

Dr. J.V.R. Ravindra is a professor of ECE and currently teaching in Vardhaman College of Engineering His area of interest is Modeling of Ultra Low power Interconnects, High-Speed and Low power Arithmetic circuits, Low Power DSP Architectures, Hardware Security, Wireless Sensor Networks. He has been teaching for last 17 years. He has been teaching different courses for many years. He had five international Journal Publications. He has an Indian Patent "A Novel Graphics Compatible Adder (GCA) for Digital Displays, Devices and systems.

Outcomes

The outcomes of two days national conference were as follows:

- ❖ Distinguish the multiple mathematical problems and solve it and encourage students to take mathematical problems as challenge rather than dropping it down..
- ❖ Identify and understand assumptions of the mathematical formulas.
- ❖ Evaluate and synthesize evidence in order to draw conclusions consistent with the mathematical issues
- ❖ Students learn various strategies to be used in the field of Engineering Mathematics.
- ❖ Researchers were able to identify the methodology and procedure of research and get clarity to their research.

Conclusion

The two day national seminar on "*Role of Mathematics and its Applications in Engineering*" was highly successful. It was a great opportunity to the students of VCE, research scholars who came from various parts of country and teaching faculty who explored the new ways and ideas to make teaching mathematics interesting in the context of Engineering.

FACULTY DEVELOPMENT PROGRAMME IN ENTREPRENEURSHIP

RATIONALE

Entrepreneurship Development Institute of India (EDI), backed by over 33 years of experience in the field of Entrepreneurship, designed a module to develop a cadre of trained teachers involved in teaching entrepreneurship at the school and college levels and has been implementing Faculty Development Programmes successfully across the country and abroad. The Institute has been receiving enthusiastic response for this programme from the academic community.

OBJECTIVE

The programme is designed to train and develop professionals in the area of Entrepreneurship Development so that they can act as "Resource Persons" in guiding and motivating young students, particularly from science & technology stream, to take up Entrepreneurship as their career.

CONTENT

The content of the programme is broadly classified as follows.

- Entrepreneurship Development Process & Model : Concept, Process, EDP Model and Strategies
- Skills and Behavioral Training : Entrepreneurial Motivation and Competencies, Counseling, Confidence Building.
- Resource Building : Procedures and formalities in setting up new enterprises, incentives and benefits for entrepreneurs
- Knowledge-based Information Inputs :Curriculum Development, Procedures Involved in initiating, Planning, implementing and Evaluating EDP Curriculum
- Business Opportunity identification
- Business Profile Preparation, Business Plan Formulation, Assessing the Viability of a Business Plan
- Small Business Management

PEDAGOGICAL TOOLS AND METHODOLOGY

INPUTS WILL BE IMPARTED THROUGH:

- Lecture-cum-discussion, case studies, role-plays and simulation exercises
- Interaction with experts in entrepreneurship development, curriculum development and opportunity guidance and with successful entrepreneurs for practical insights
- Study visits in institutions and small enterprises
- Group work and practice sessions

Fees

The programme fee is ₹ 5000/-
(plus 15% service tax)

Vardhaman College of Engineering

To

The Principal
Vardhaman College of Engineering
Shamshabad

Sir,

Sub: Approval for conducting one week Faculty Development Program – reg.

The Department of Freshman Engineering is planning to conduct One Week Faculty Development Program on “Innovative Pedagogy and Research: *Driven by Ethical Milieu*” from 30th June to 5th July 2016. The program aims to motivate faculty members to adopt innovative pedagogic skills and beacon them towards pragmatic methods in research.

I hope you will consider our proposal and grant permission to conduct the FDP.

Thank you

Yours sincerely,

Prof. S. Rajendar
Head
Department of Freshman Engineering

Ethical Issues in Research

- What is "ethical" research?
 - 'Based on Diener and Chandall (1978) we can say that behaving ethically means:
 - No harm should come to research participants,
 - They should agree to participate and know what the research is about,
 - Their privacy should not be invaded,
 - They should not be lied to or cheated.

Paraphrase

"Vardhaman aims to emerge as a pace-setting institution that will provide tailor made teaching-learning programmes. It will be responsive to societal needs, dedicated to excellence, and committed to international educational perspective. It will continue to explore emerging areas in Information & Technology, Management Science and other disciplines with a view to constantly revamp its academic program"

ENGINEERING

- ### Why write a scientific paper? (2)
- Present outcomes of research
- Define fundamentals
 - State the hypothesis
 - Describe experimental method and results structure
 - Show results
 - Critically analyze results
 - State corollaries and implications
- (Keep backup of all files: code, output, logs, notes)

Talk on Innovative Pedagogy and Research by Guest Speaker

Objective of the FDP

LabVIEW software is ideal for any measurement or control system, and the heart of the NI design platform. Integrating all the tools that engineers and scientists need to build a wide range of applications in dramatically less time, LabVIEW is a development environment for problem solving, accelerated productivity, and continual innovation.

LabVIEW is a graphical programming platform that helps engineers scale from design to test and from small to large systems. It offers unprecedented integration with existing legacy software, IP, and hardware while capitalizing on the latest computing technologies.

LabVIEW provides tools to solve today's problems—and the capacity for future innovation—faster and more effectively.

The faculty development program on National Instruments LabVIEW - Real Time Applications in Engineering will fulfill the following objectives:

- ❖ Learn how to develop basic applications in the LabVIEW graphical programming environment.
- ❖ Design, implement, and distribute stand-alone applications using LabVIEW.
- ❖ Learn the skills needed to create scalable, readable, and maintainable applications.

Keeping in mind, the importance of research in frontier areas like Virtual Instrumentation, ECE Dept., Vardhaman College of Engineering in association with National Instruments & VI Solutions is organizing a FDP on National Instruments LabVIEW - Real Time Applications in Engineering, NIL – 2014.

Registration Details

- ❖ No Registration Fee for the Participants.
- ❖ Limited number of Participants (35 - 40) will be accommodated on first-cum-first served basis.
- ❖ Lunch, Tea and Snacks will be provided.

Important Dates

Last date for Registration	:	15/05/2016
Date of Acceptance Intimation	:	19/05/2016

CIRCULAR

All the Staff and ECE students of IInd year and IIIrd year are hereby informed to attend Four day workshop on **NI LabVIEW CLAD Refreshment Course** organized by the department of Electronics and Communication Engineering in association with M/s VI Solutions, Bangalore. The details are as follows:

Workshop Period	:	21 st May (Saturday) to 24 th May 2016 (Tuesday)
Venue	:	NI Lab (Room No. 3003)
Time	:	10.00 AM to 1.00 PM 2.00 PM to 4.30 PM

For further details, please contact Mrs. M. Srilatha, Associate Professor, ECE Department.

Objective of the FDP

The FDP explains modern hardware and software techniques in developing embedded systems, with the emphasis on utilizing ARDUINO, ARM & PI BOARDS families of processor. Presented are the features that enable the ease-of-use, such as integrated debug control, the architectural optimizations such as efficient interrupt processing, and the software tools and the existing functionality enhancement in software. The FDP also explains modern system interfaces and the sensor and actuator integration techniques.

The faculty development program on Design and Development of Embedded Systems by Multiprocessor Technologies will fulfill the following objectives:

- ❖ To introduce faculties to the modern embedded systems and to show how to understand and program such systems using a concrete platform built around.
- ❖ To equip faculties with the fundamental concepts and tools of embedded system design.
- ❖ To do hardware/software co-design and develop a broad base of skills for embedded systems.

Keeping in mind, the importance of research in frontier areas like Embedded Systems, ECE Dept., and Vardhaman College of Engineering in association with Team EmbeddedRF Technologies is organizing a FDP on Design and Development of Embedded Systems by Multiprocessor Technologies, ESMT - 2015.

Registration Details

- ❖ No Registration Fee for the Participants.
- ❖ Limited number of Participants (35 - 40) will be accommodated on first-cum-first served basis.
- ❖ Lunch, Tea and Snacks will be provided.

DEPARTMENT OF ELECTRONICS AND COMMUNICATION ENGINEERING

LIST OF RESOURCE PERSONS

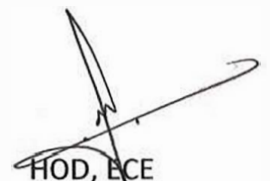

From Embedded RF Technologies

S. Bhavani Shankar, MSc (Electronics) having 05+ years of experience in the field of Embedded Systems and conducted several student workshops, FDPs & Project Executions. He got certifications from SPRIHA IT Solutions (Diploma in Embedded Systems) & IGIAT (Diploma in PLC Programming).

Sourabh Joshi, M. Tech (RF & MICROWAVE) from IIT Karagpur having 02+ years of experience in the field of RF & MICROWAVE antenna designing and development in Embedded Systems and conducted number of student workshops, FDPs & Projects.

VISION of Embedded RF Technologies

Embedded RF Technologies is into design, development and manufacturing of various sub-assemblies, assemblies, sub-systems & systems . Embedded RF technologies Manufacture and Production competencies are in multi engineering disciplinary solutions of Mechanical, Electrical, Electronics & Software and meeting MIL Standards. Embedded RF technologies offers unique, complex systems, design & analysis, proven engineering practices, and support for seamless transition and integration of new architecture capabilities. Embedded RF technologies is a professional training partner dedicated to help both company and the aspirant achieve a win-win situation. In our profession, we work with people and not just projects, because each training course offers a chance to change a person's life.

VARDHAMAN COLLEGE OF ENGINEERING

(AUTONOMOUS)

Shamshabad, Hyderabad – 501218

DEPARTMENT OF ELECTRONICS AND COMMUNICATION ENGINEERING

FACULTY DEVELOPMENT PROGRAM ON

DESIGN AND DEVELOPMENT OF EMBEDDED SYSTEMS BY MULTIPROCESSOR TECHNOLOGIES

FDP SCHEDULE

OBJECTIVES:

1. To introduce faculties to the modern embedded systems and to show how to understand and program such systems using a concrete platform built around.
2. To equip faculties with the fundamental concepts and tools of embedded system design.
3. To do hardware/software co-design and develop a broad base of skills for embedded systems.

OUTCOMES:

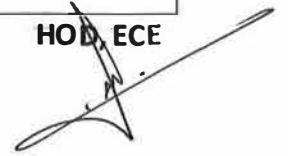

At the end of this WORKSHOP, each FACULTY should be able to perform the following tasks:

1. Describe and compare the various types of peripherals used in embedded systems.
2. Use modern engineering tools necessary for integrating software and hardware components in embedded system designs.
3. Design systems, components, or processes for broadly-defined engineering technology problems as a member or leader on a technical team.

DAY	MODULE	TIME
DAY 1 (07/12/15)	Introduction to Arduino (ATMEGA168/328)	9:45 – 11:00
	Arduino Hardware Description	
	Arduino IDE Installation – Install The Usb Driver – The Arduino IDE Setup – The Arduino IDE	
	BREAK	
	Arduino to LED Blinking	11:15 – 12:45
	LED interfacing to Arduino using PWM pin	
	Switch and Push Button interfacing to Arduino	
	Potentiometer interfacing to Arduino	12:45 – 1:40
	LUNCH	
	Relay interfacing to Arduino	
LCD interfacing to Arduino	1:45 – 4:00	
Motor interfacing to Arduino		
DAY 2 (08/12/15)	Bluetooth Module interfacing to Arduino	9:45 – 11:00
	GPS Module interfacing to Arduino	11:00 – 11:10
	BREAK	
	RFID Module interfacing to Arduino	11:15 – 12:45
	Smart Card Module interfacing to Arduino	
	LUNCH	12:45 – 1:40
GSM Module interfacing to Arduino	1:45 – 4:00	

	TEST PROJECTS BASED ON ALL INTERFACES	
DAY 3 (09/12/15)	ARM Embedded Systems	9:45 – 11:00
	ARM Processor Fundamentals	
	ARM Hardware Description	
	BREAK	11:00 – 11:10
	Introduction to the ARM Instruction Set (GENERAL & THUMB)	11:15 – 12:45
	Introduction to KEIL COMPILER	
	Writing and Optimizing ARM Assembly Code and C programming	
	LUNCH	12:45 – 1:40
	ARM to LED Blinking and using PWM pin	1:45 – 4:00
	Switch and Push Button interfacing to ARM	
Relay interfacing to ARM		
DAY 4 (10/12/15)	LCD interfacing to ARM	9:45 – 11:00
	Motor interfacing to ARM	
	Potentiometer interfacing to ARM	
	BREAK	11:00 – 11:10
	Bluetooth Module interfacing to ARM	11:15 – 12:45
	GPS Module interfacing to ARM	
	GSM Module interfacing to ARM	
	LUNCH	12:45 – 1:40
RFID Module interfacing to ARM	1:45 – 4:00	
Smart Card Module interfacing to ARM		
TEST PROJECTS BASED ON ALL INTERFACES		
DAY 5 (11/12/15)	Raspberry PI Introduction	9:45 – 11:00
	Raspberry PI Hardware Description	
	Raspbian Operating System NOOBS – Install The USB Driver – The Raspberry PI IDE Setup	
	BREAK	
	Getting started with Raspberry Pi	11:00 – 11:10
	LINUX Commands	11:15 – 12:45
	LUNCH	12:45 – 1:40
	Raspbian Scratch/Python Language	1:45 – 4:00
	Networking, USB and Wireless	
LED interfacing to Raspberry PI using PWM pin		
DAY 6 (12/12/15)	Switch, Push Button, LCD, Relay and Motor interfacing to Raspberry PI	9:45 – 11:00
	Bluetooth Module interfacing to Raspberry PI	11:00 – 11:10
	BREAK	
	RFID and Smart Card Module interfacing to Raspberry PI	11:15 – 12:45
	GPS Module interfacing to Raspberry PI	12:45 – 1:40
	LUNCH	
	GSM Module interfacing to Raspberry PI	
	Interfacing Arduino To Raspberry Pi	1:45 – 4:00
TEST PROJECTS BASED ON ALL INTERFACES

ABOUT THE COLLEGE

Vardhaman College of Engineering was established in 1999 with an endeavour to impart high quality Technical Education and innovative research in the fields of Engineering technologies, with emphasis on industry oriented programs for development of students as well as faculty. Vardhaman College of Engineering is affiliated to Jawaharlal Nehru Technological University (JNTU), Hyderabad, and is approved by the All India Council for Technical Education (AICTE), New Delhi.

The prime objective of Vardhaman College of Engineering is to update and modernize the quality of professional education. Its aim is to employ innovative teaching methods which carry an emphasis on fast changing technological trends. This is to integrate classroom learning with actual work experience in the industry concerned or in a related professional field. In the course of continued march towards excellence the college was credited with the status of an Autonomous College by UGC and accredited by NAAC with 'A' Grade.

ABOUT THE DEPARTMENT

The department of Electrical and Electronics Engineering was established in 2002 and is accredited by National Board of Accreditation (NBA), AICTE. The department has competitive faculty members from prestigious institutions in specializations like Electrical Power Systems, Control systems, Power Electronics and Instrumentations. The department is also offering M. Tech. (Power Electronics and Electric Drives) from the academic year 2008-2009 with an intake of 18 and is affiliated to Jawaharlal Nehru Technological university.

Objective of the department is to train and educate undergraduate engineering with academic excellence and to develop the student as a competent and responsible citizen with positive attitude, good character, self-confidence and leadership qualities and to keep pace with the rapidly growing technology in the Electrical and Electronics Engineering field. The department has well equipped laboratories to meet the demands of present day international Scenario.

The department organizes National level conferences/workshops/ seminars frequently for the benefit of faculty and students of various engineering college for meeting the industry standards.

FACILITIES FOR PARTICIPANTS

along with the FDP kit. The participants are requested to make their own arrangements for Lodging.

OBJECTIVES OF THE PROGRAM

The objective of the program is to train the faculty from various engineering colleges in the field of Electrical Power Systems and to help them to update their knowledge with Modern Power Quality Devices and Intelligent tools in this field. The course also aims to target the research problems and to provide an opportunity for faculty to exchange and share ideas in intelligent tools and related fields. Such programs are essential to update the academia on emerging areas, especially those for which resources are limited at local / national level.

2015-2016

Report on “Real Time Applications in Power Systems and MATLAB”

A one week faculty development programme on “**Real Time Applications in Power Systems and MATLAB**” was held at Department of Electrical and Electronics Engineering, Vardhaman College of Engineering from 07th December to 12th December, 2015. The FDP is aimed in setting a platform to the academicians, research scholars, Industry experts and students to enrich their skills in modern power quality devices. The main intent to conduct this FDP is to examine mechanisms for bridging the gap between academics and research.

TECHNICAL SESSIONS:

1st & 2nd Day (07-12-2015 to 07-12-2015):

First and second day was handled by H. S. Jain, Professor, Vardhaman College of Engineering, Hyderabad. He has delivered a lecture on Electric power generation, Commercial facilities and Utility distribution during 1st day. Further, applications of power system simulation include: long-term generation and transmission expansion planning, short-term operational simulations and market analysis during 2nd day. These programs typically make use of mathematical optimization techniques such linear programming, quadratic programming, and mixed integer programming.

3rd & 4th Day (09-12-2015 to 10-12-2015):

Dr. P. Chandra Sekhar, Assistant Professor, National Institute of Technology, Warangal, has a given a lecture modeling power generation equipment, planning the integration of power plants onto the electric grid and performing generator control system parameter estimation which includes Simulating performance against grid code and ensuring production goals, Automating control system parameter estimation to meet regulatory requirements and Performing EMT simulation and harmonic analysis to identify and mitigate power quality issues.

5th & 6th Day (11-12-2015 to 12-12-2015):

Dr. Y. Chandra Sekhar, Assistant Professor, National Institute of Technology, Warangal, has a given a lecture Renewable energy resources in power systems, Microgrids, Optimization techniques, Meta-heuristic Techniques, Fast EV Charging stations, Blockchain Technologies to Smart Grid and Power system Reliability.

OUTCOME:

All the sessions were very much informative. The discussed areas are of great benefit in understanding the theoretical concepts and laboratory practices on Real Time Applications in Power Systems and MATLAB for the participants further helps in research activity.

10:15 AM	Welcome address by Program Co-ordinator, IIEECP
10:20 AM	Address by Principal, VCE
10:25 AM	Introduction of Chief Guest
10:30 AM to 10:45 AM	Address by Chief Guest
10:45 AM to 11:00 AM	Introduction of the participants
11:00 AM – 11:30 AM	Session I – About IIEECP program – objectives and structures
11:30 AM – 11:45 AM	Tea break
11:45 AM – 12:45 PM	Session II – Introduction modules I – The Teaching-Learning process
12:45 PM – 1:30 PM	Lunch break
1:30 PM – 3:00 PM	Session III – Introduction modules II – Fundamentals of Course Design - I
3:00 PM – 3:15 PM	Tea break
3:15 PM – 4:45 PM	Session IV – Introduction modules II – Fundamentals of Course Design - II
4:45 PM – 5:15 PM	Summing up ; Follow-up activities; Plan for the next day

Thursday, December 10, 2015

Time	Activity
9:45 –11:00	Session V - Introduction Modules III- Creating a Dynamic Classroom
11:00 – 11:15	Tea break
11:15 – 12:45	Session VI - Introduction Modules V- Collaborative Learning
12:45 – 1:30	Lunch break
1:30 – 3:00	Session VII - Introduction Modules VI - Effective Assessment
3:00 – 3:15	Tea break
3:15 – 4:45	Session VIII - Introduction Modules VI – Harnessing the Power of Technology
4:45 – 5:15	Summing up ; Follow-up activities; Plan for the next day

Friday, December 11, 2015

Time	Activity
9:45 –11:00	Session IX –Microsoft Training – Teaching with Technology, hands-on workshop
11:00 – 11:15	Tea break
11:15 – 12:45	Session X –Microsoft Training – Teaching with Technology, hands-on workshop
12:45 – 1:30	Lunch break
1:30 – 3:00	Session XI – Effective Assessment – Part II
3:00 – 3:15	Tea break
3:15 – 4:45	Session XII –Review of hands-on exercise of Course Design
4:45 – 5:15	Summing up ; Follow-up activities; Plan for the next day

Saturday, December12, 2015

Time	Activity
9:45 –11:00	Session XIII –Finalizing Planning for Experimental Course
11:00 – 11:15	Tea break
11:15 – 12:45	Session XIV –Communication Review Activities
12:45 – 1:30	Lunch break
1:30 – 3:00	Session XV - Hands-On Session on In Pods Platform – I
3:00 – 3:30	Session XVI – Hands-On Session on In Pods Platform - II
3:30 – 4:30	Summing up ; Follow-up activities; Feedback

Report on IUCEE – IGIP International Engineering

Educators Certification Program (IIEECP)

An international Certification program viz IIEECP with duration of ONE SEMESTER (09 December, 2015 – 10 June, 2016) was launched by Vardhaman College of Engineering with an objective to transform its faculty capable of imparting effective, student – centered instruction.

This program is planned in four Phases:

Phase I – orientation (09th December, 2015 – 12th December, 2015)

Phase II – Theory + Practicum (21st December, 2015 – 20th April, 2016)

Phase III – Reporting (09th May 2016 – 01st June, 2016)

Phase IV – Valedictory (02nd June, 2016 – 06th June, 2016 (tentative))

The first phase Face to Face orientation started on 09th December, 2015 (Wednesday).

Day 1(09-12-2015, Wednesday):

The Principal Dr. S. Sai Satyanarayana Reddy initiated the program and in his inaugural speech he talked about transformation of engineering education worldwide to meet the needs of the twenty – first century.

The Day I was organized into four sessions:

Session I – About IIEECP Program – objectives and structures

Session II – Introduction module I – The Teaching – Learning Process

Session III – Introduction module II – Fundamentals of course design – I

Session IV – Introduction module III – Fundamentals of course design – II

All the above sessions were handled by Dr. Veena Kumar, Executive Director, IIEECP.

In these sessions Dr. Veena Kumar reviewed all the information about the IGIP Teacher Certification Program. She shared her own extensive experience and knowledge of the Indian context. She emphasized on teaching methodologies that effectively integrated multimedia resources, software and chalk and board teaching.

Day 2 (10-12-2015, Thursday):

The day II was organized into four sessions:

Session – V: Introduction module V – Creating a dynamic class room

Session – VI: Introduction Module VI – Collaborative Learning

Session – VII: Introduction Module VI – Effective assessment

Session – VII: Introduction Module VII – Harnessing the power of Technology

In this sessions Dr. Kumar stressed on various levels at which collaboration between industry and academia can happen. She emphasized the importance of this interaction for various reasons including curriculum design and development, training and skill development, basic and applied research technology development and transfer.

Day 3 (11-12-2015, Friday):

The day III was organized into four sessions:

Session – IX: Microsoft Training – Teaching with Technology, Hands – on workshop

Session – X: Microsoft Training – Teaching with Technology, Hands – on workshop

Session – XI: Effective Assessment

Session – XII: Review of hands – on exercise of course design

During forenoon sessions IX and X, the Microsoft personnel Mr. Samuel Srivastav and Mr. Kunal Shukla demonstrated the following software tools windows10, office Mix, Sway. One Note, Yammer to all the participants. After the practice, the participants expressed their satisfaction over the usage of the above tools.

In the An sessions XI and XII, Dr. Veena Kumar reviewed the importance of pedagogy in the field of engineering.

Day 4 (12-12-2015, Saturday):

The day IV was organized into four sessions:

- Session – XIII: Finalizing planning for experimental Course
- Session – XIV: Communication Review Activities
- Session – XV: Hands on session on InPods platform I
- Session – XVI: Hands on session on InPods platform II

During FN sessions, Dr. Veena kumar talked about webinars and courses in a blended format for faculty development.

In the AN sessions, all the participants used InPods (<http://www.inpods.com/>) as the platform to get themselves explored for delivering the online component.

OUTCOMES:

The following are the outcomes at the end of IIEECP program – Phase I:

- I. All the participating faculty are fully aware of the program objectives
- II. Participants are ready to grasp the two components – the theory and the practicum

CONCLUSION:

The Phase II (The theory and the practicum) will commence on 21-12-2015 and will end by 20-04-2016. Awaiting Phase II.

6 DAY WORKSHOP ON "MICROSOFT CERTIFICATION TRAINING ON WINDOWS APPLICATION DEVELOPMENT USING C#.NET"

Date: 5th – 10th AUGUST, 2015

Timings: 09:40 AM – 4:30 PM.

Venue: Block 1 LAB's and Auditorium, Vardhaman College of Engineering.

1. SUMMARY:

Vardhaman College of Engineering in collaboration with the DevmenIT conducted a workshop on "Microsoft Certification Training On Windows Application Development Using C#.Net". The six-day workshop focused entirely on the basic concepts of windows application development using C#.NET in Microsoft Visual Studio and then moved onto practical implementation of these concepts to develop Windows Applications .

The Entire training program is planned two modules.

- I. Introduction to Visual Studio , programming in C#, basics of windows 8 Apps programming, programming on windows 8 controls and then moved onto the Dynamic App Development(**First Five Days**)
- II. HACKATHON(**24 hrs non-stop windows application development contest-Sixth Day**)

TARGET STUDENTS:

The participants of the workshop were students from 2nd & 3rd years of CSE , IT and ECE Branches.

EVENT:

The 6 Day training program began with the inauguration ceremony by the beloved principal Dr.S Sai Satyanarayana Reddy who is also professor of CSE Department followed by speeches of Dr.H.Venkateswara Reddy, Convener of this training Program and co-convener Dr. M Gopi Chand.

Later the Instructors from DevmenIT started the training program. The Training program started with the introduction to .NET and Microsoft Visual Studio. The basics of C# programming language were discussed and moved onto windows forms, controls during the first five days of the training program.

The C# programming language basics including windows forms which were learnt during the first five days paved path for the ultimate App Development contest "**HACKATHON-24 hrs non-stop windows application development contest**" on the sixth day.

2. OBJECTIVES:

The main objectives of this workshop are:

1. To enhance programming skills in C#.NET among students
2. To increase awareness in windows application development.
3. To prepare students with adequate knowledge for Microsoft certification in windows application development.

3. EXPECTED OUTCOMES OF WORKSHOP:

The following outcomes are expected after the completion of this

workshop: 1. The programming skills of students will be improved

2. The industry oriented application development skills will be enhanced among students.

4. PARTICIPANTS:

LIST OF STUDENTS PARTICIPATED:

CSE STUDENTS:

5. WORKSHOP SCHEDULE AND CONTENT:

The schedule for six day event was as follows:

DAYS	SESSION	TOPICS	TRAINING
Day1 (05/08/15)	F.N	Introduction to .NET, introduction to visual studio	Theory
	A.N	Programming in C#.net, Programming using windows Forms	Hands ON
Day 2 (06/08/15)	F.N	Introduction to Windows 8,Introduction windows 8 Apps, Basic programming in Windows 8 Apps	Theory Hands ON Hands ON
	A.N	Programming in Windows 8 Apps	Hands ON
Day3 (07/08/15)	F. N	Programming using Windows 8 Controls	Hands ON
	A.N	Programming using Windows 8 Controls	Hands ON
Day4 (08/08/15)	F. N	Programming using Windows 8 Controls	Hands ON
	A.N	Programming using Windows 8 Controls	Hands ON
Day5 (09/08/15)	F. N	Dynamic App development	Hands ON
	A.N	.NET Fundamentals MTA Course	Theory
Day6 (10/08/15) (11/08/15)	24 Hrs	HACKTHON	Practical

HACKATHON

APP DEVELOPMENT CONTEST

With your Creative Thoughts

24 Hrs

**Time:
11:00am
to 11:am**

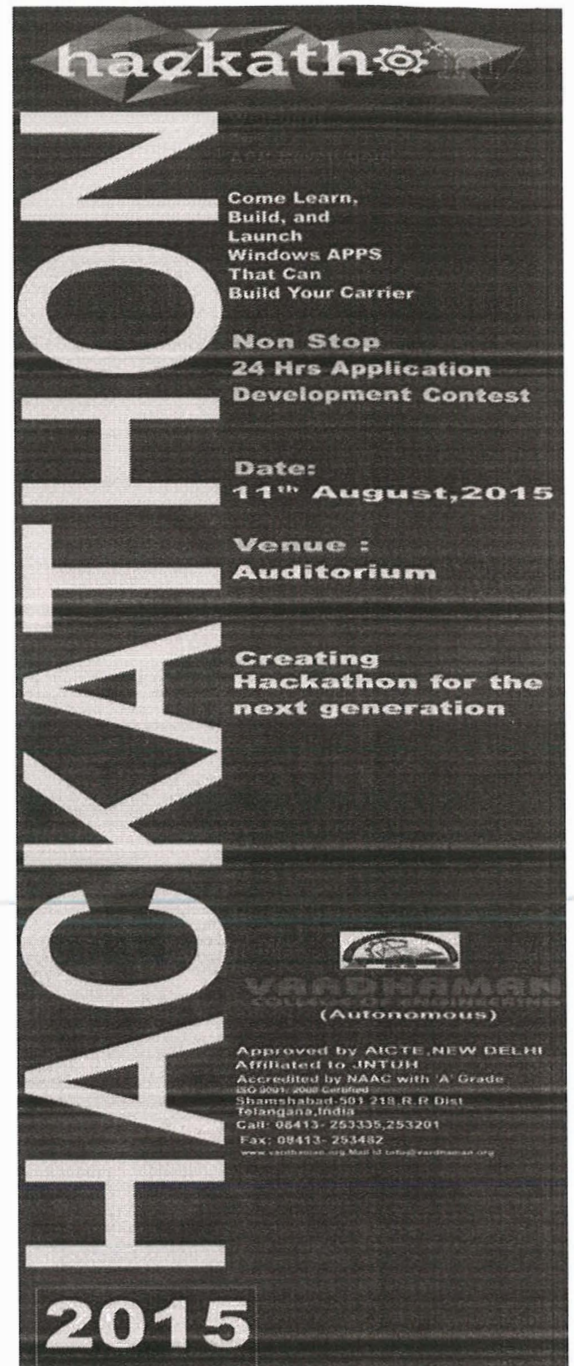

6. HACKATHON:

The 24 hrs non-stop windows application development contest began on 10th Aug, 2015 at 11 AM which is continued up to 11 AM on 11th AUG, 2015.

The Hackathon Contest started with guidelines given by DevmenIT instructor Mr. Naga Kumar and his team.

The students immediately started the App Development with their creative thoughts. The students continued to transform their creative thoughts into Windows applications till contest ends. In the 24hr journey of APPLICATION DEVELOPMENT CONTEST, the students are not only buzzed with programming but also with entertainment and food carnival.

ABOUT THE COLLEGE

Vardhaman Engineering College was established in the year 1999. The Institution aims at imparting quality education to students in Engineering and Technology & Business Management. The focus is on fully fledged development of the students besides excellence in academics.

Since the inception, the institution has been soaring high with its rich tradition of academic environment and on excellent infrastructure with dedicated, experienced and highly qualified faculty. The institute offers CSE, IT, EEE, ECE, Mechanical, Civil and AERO at Bachelor's Level. MCA, MBA & M.Tech CSE, SE, ES, WMC, DECS and PEED at Post Graduate level.

ABOUT THE DEPARTMENT'S

Information Technology and Computer Science & Engineering have totally changed the complexion of the quality of life today, with so much of innovative research and development projects impacting everyday life. The scale of the achievement comes from the ability to integrate computer technology with communication technology. Information Technology and Computer Science and Engineering departments were established in 1999 with an intake of 60 & 120.

Information Technology is headed by Dr. M Gopi Chand and Computer Science and Engineering is headed by Prof. H. Venkateswara Reddy a senior professor with teaching experience and is ably supported 66 well-qualified vibrant faculties, which includes 3 professors, 11 Associate professors and 52 Assistant professors. These programs have been accredited by the National Board of Accreditation (NBA) since 2009.

The department employs modern teaching aids and methodologies helping the students to keep abreast of the latest trends worldwide with updated infrastructure in tune with emerging technologies & future requirements.

CHIEF PATRONS

Dr. T. Vijender Reddy (Chairman)
Sri. T. Uppender Reddy (Secretary)
Sri. M. Rajasekhara Reddy (Vice Chairman)
Sri. E. Prabakar Reddy (Treasurer)

ABOUT THE FDP

The main objective of this faculty development programme is to inculcate awareness among the faculty and Researchers, towards major challenging areas of Computer Science and Engineering. In the last two decades there has been tremendous technological development and research in Computer Science. The outcome of Research and Development needs to be shared with teaching fraternity.

COURSE CONTENT

- Software Engineering
- Data Warehousing and Data Mining
- Image Processing
- Grid and Cloud Computing
- Network Security
- Mobile Computing
- Big Data Analytics

TARGET AUDIENCE

The Course is designed for the Faculty Members, Research Scholars and PG Students of Information Technology & Computer Science and Engineering in the Institutions affiliated to JNTUH.

REGISTRATION FEE

Academics/ Faculty - 500
Research scholar/Student - 250

e.	Overall rating of the Programme		✓		

5. Do you feel this Seminar is useful?

(a) Excellent

(b) Very Good ✓

(c) Good

(d) Fair

6. Suggestion for improvement

- a) we would get sufficient time to listen then it
- b) will be very good to us.
- c) ^{more} Practical oriented sessions are encouraged.

Signature of the Participant

Number of participants: 44

Key Notes:

- The Inaugural session done Dr S Sai satyanara Reddy , Principal Vardhaman College of Engineering.
- The speakers came also from different backgrounds and presented the audience with different practical experiences, insights, and views, both at an organisational and national level. It gave a good impression and understanding of the many perspectives that can and should be taken into account when defining and implementing preservation policies.

The feedback of the participants confirmed that the Programme was very much appreciated as well as that there is a pressing need for more practical approaches and for other opportunities to discuss the many issues.

Conclusion:

The programme help for the faculty to focus on research work, and speakers provide the good information about many research areas of Computer Science . All the participants were satisfied with the outcome of programme.

VARDHAMAN COLLEGE OF ENGINEERING

(AUTONOMOUS)

Shamshabad – 501218, Hyderabad

DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING

Summary Report On Faculty Development Program Research Trends in Computer Science & Engineering

Date: 12/01/2015

On January 05-11, 2015, Department of Computer Science and Engineering of Vardhaman College of Engineering hosted a One Week Faculty Development Programme entitled Research Trends in Computer Science & Engineering at Vardhaman College of Engineering. This Programme was part of the *Stepping up the research work of defaulters*.

Objective:

The Faculty Development Programme will function provides the resources to improve the quality of life for CSE faculty and its community. It strives to generate a climate where all faculty will blossom to the full of their potential.

FDP Outcomes:

- a) Faculty is appraised of latest Research trends
- b) Faculty is in a position to identify his area of research
- c) Faculty can formulate his own area of research problem
- d) Faculty will be able to find his supervisor
- e) The following research areas have exposed to the Faculty
 - Data Warehousing and Data Mining
 - Image Processing
 - Software Engineering
 - Computer Networks

Signal Processing Society

Amateur Radio Communications, Software and Computer Networks in Education

Programme

Topic:

Amateur Radio
Communications,
Software and Computer
Networks in Education

Speaker:

Miroslav Skoric
Faculty of Technical
Sciences,
University of Novi Sad,
Serbia.

Date:

Tuesday
16th September, 2014

Time:

10 am to 3 pm

Venue:

Vardhaman College of
Engineering,
Shamshabad,
Hyderabad

Registration:

Free, but RSVP to
y.pandurangaiah@vardhaman
.org

or

nvenkatesh@ieee.org

Abstract

This workshop begins with introductory information about the amateur radio communications and continues with studying one of the most popular computer-related radio communication modes: the VHF/UHF and HF "packet-radio" (other popular modes, like "amtor", "pactor", "g-tor", "clover" etc. are also the options). The tutorial discusses (with examples) on how to choose inexpensive hardware and software needed for establishing the amateur radio links from either home or work. The tutorial explains step-by-step how to build an AMUNET – the Amateur Radio University Network – a grid of radio stations within or between universities' campuses and surrounding schools, including an opportunity to become a low-cost solution for communicating in educational institutions in rural areas and developing countries.

Speaker Biography

Miroslav Skoric has 20+ years of experience in computer network administration and system maintenance (Diploma in Business Computing, a local equivalent of M.Sc.) and 20+ years of practice in the amateur radio (licensed amateur since 1989, amateur radio call sign YT7MPB). The instructor has been maintaining various types of amateur radio bulletin board systems (MS DOS, Windows and Linux platforms) with VHF/HF radio frequency and Internet inputs/outputs in the local amateur radio union and clubs-societies. The instructor voluntarily served as the information manager and union's secretary during the nineties – where he was compiling technical and scientific information for broadcasting via local amateur radio frequencies and repeaters. Teaching experience includes several classes in a local high-school amateur radio club; technical paper presentations during domestic and international events; visiting lectures, tutorials and workshops on the amateur radio in education, one round-table session, four book chapters and several magazine/journal articles, as well as a dedicated web page <http://tdp.org/HOWTO/FBB.html> featuring a popular amateur radio software user manual. The instructor's researching efforts include his graduate studies in Computer Sciences, as well as his membership in IEEE Computer Society, IEEE Communications Society, IEEE Education Society, ACM, NIAR, and IAENG.

WORKSHOP ON AMATEUR RADIO

Date: 16-09-2014

PROGRAM SCHEDULE

- 1015 - Welcome Address by Prof. Y. Pandurangaiah, Head, ECE
- 1025 - Address by Dr. S. Sai Satya Narayana Reddy, Principal, VCE
- 1035 - Introduction to IEEE Hyderabad Section, Communications / Signal Processing Society Activities by Prof. Zafar, IIT, Hyderabad
- 1045 - Overview of NIAR, Hyderabad and its Activities by Mr. Ram Mohan
- 1055 - Introduction of Speaker Prof. Skoric by Prof. Zafar, IIT, Hyderabad
- 1100 - Session-I : Prof. Skoric.
- 1240 - Lunch Break
- 1330 - Session-II : Mr. Ram Mohan
- 1450 - Vote of Thanks by Prof. N. Uma Maheshwar Rao
- 1500 - End of the Program

VARDHAMAN COLLEGE OF ENGINEERING

(AUTONOMOUS)
SHAMSHABAD-501218, HYDERABAD.

DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING

6 DAY WORKSHOP ON "MICROSOFT CERTIFICATION TRAINING ON WINDOWS APPLICATION DEVELOPMENT USING C#.NET"

Date: 10th – 16th DECEMBER, 2014

Timings: 09:40 AM – 4:30 PM.

Venue: 1102, 1103 LAB's and Auditorium, Vardhaman College of Engineering.

Number of Participants: 151

1.SUMMARY:

Department of Computer Science and Engineering in collaboration with the DevmenIT conducted a workshop on "**Microsoft Certification Training On Windows Application Development Using C#.Net**". The six-day workshop focused entirely on the basic concepts of windows application development using C#.NET in Microsoft Visual Studio and then moved onto practical implementation of these concepts to develop Windows Applications .

The Entire training program is planned two modules.

1.Introduction to Visual Studio , programming in C#, basics of windows 8 Apps programming, programming on windows 8 controls and then moved onto the Dynamic App Development(**First Five Days**)

2.HACKATHON(**24 hrs non-stop windows application development contest-Sixth Day**)

TARGET STUDENTS:

The participants of the workshop were students from 3rd years of CSE , IT and ECE Branches.

EVENT:

The 6 Day training program began with the inauguration ceremony by the beloved principal Dr.S Sai Satyanarayana Reddy who is also professor of CSE Department followed by speeches of principal sir, Prof.H.Venkateswara Reddy, Convener of this training Program and co-convener Dr. M Gopi Chand. Later the Instructors from DevmenIT started the training program. The Training program started with the introduction to .NET and Microsoft Visual Studio. The basics of C# programming language were discussed and moved onto windows forms, controls during the first five days of the training program.

The C# programming language basics including windows forms which were learnt during the first five days paved path for the ultimate App Development contest "**HACKATHON-24 hrs non-stop windows application development contest**" on the sixth day.

2. OBJECTIVES:

The main objectives of this workshop are:

- 1.To enhance programming skills in C#.NET among students
- 2.To increase awareness in windows application development.
- 3.To prepare students with adequate knowledge for Microsoft certification in windows application development.

3. EXPECTED OUTCOMES OF WORKSHOP:

The following outcomes are expected after the completion of this workshop:

- 1.The programming skills of students will be improved
- 2.The industry oriented application development skills will be enhanced among students.

4.PARTICIPANTS:

LIST OF STUDENTS PARTICIPATED:

5. CONTENTS:**WORKSHOP SCHEDULE:**

The schedule for six day event was as follows:

DAYS	SESSION	TOPICS	TRAINING
Day1 (10/12/14)	F.N	Introduction to .NET, introduction to visual studio	Theory
	A.N	Programming in C#.net, Programming using windows Forms	Hands ON
Day 2 (11/12/14)	F.N	Introduction to Windows 8, Introduction windows 8 Apps, Basic programming in Windows 8 Apps	Theory Hands ON Hands ON
	A.N	Programming in Windows 8 Apps	Hands ON
Day3 (12/12/14)	F. N	Programming using Windows 8 Controls	Hands ON
	A.N	Programming using Windows 8 Controls	Hands ON
Day4 (13/12/14)	F. N	Programming using Windows 8 Controls	Hands ON
	A.N	Programming using Windows 8 Controls	Hands ON
Day5 (14/12/14)	F. N	Dynamic App development	Hands ON
	A.N	.NET Fundamentals MTA Course	Theory
Day6 (15/12/14) (16/12/14)	24 Hrs	HACKTHON	Practical

6. HACKATHON:

The 24 hrs non-stop windows application development contest began on 15th Dec, 2014 at 3.25 PM which is continued upto 3.25 PM on 16th Dec, 2014.

The Hackathon Contest started with guidelines given by DevmenIT instructor Mr. Naga Kumar and his team.

The students immediately started the App Development with their creative thoughts. The students continued to transform their creative thoughts into Windows applications till contest ends. In the 24hr journey of APPLICATION DEVELOPMENT CONTEST, the students are not only buzzed with programming but also with entertainment and food carnival.

The poster is a vertical banner for a hackathon. At the top, it says 'hackathoN' with a gear icon. Below that, 'HACKATHON' is written vertically in large, bold, white letters. To the right of the vertical text, there is a dark grey box containing white text: 'Organized by Department Of Computer Science and Engineering', 'Non Stop 24 Hrs Application Development Contest', 'Date: 15th December, 2014', 'Venue: Auditorium', and 'Creating Hackathon for the next generation'. At the bottom right, there is a logo for Vardhaman College of Engineering (Autonomous) and contact information: 'Approved by AICTE, NEW DELHI', 'Affiliated to JNTUH', 'Accredited by NAAC with 'A' Grade UGC', 'Shamshabad-501 216, R. R. Dist Telangana, India', 'Call: 08413-253335, 253201', 'Fax: 08413-253482', and 'www.vardhaman.org Mail: info@vardhaman.org'. At the very bottom, '2014' is written in a white box.

7.RESULTS:

Winning Teams:

Team	Application Name	Student Name	Position
1	1)Dynamic HTML Editor	A.Dilip	WINNER
	2)Password Manager	K.V.S. Sai Sasank	
	3)PowerWall	L. Saaketh	
2	1)Game nany	yogada kancharla	1ST RUNNER
		sri udaya	
	2)Adventurex	Sai sharan	
3	1)Bingo	K.Bhanuteja Reddy	2ND RUNNER
	2)Mind scanner	s.shek shavali	
	3)Premiere T20 leagues	p.bharadhwaja	

8. GALLERY:

Motivational Talks :

Instructors Team:

Students busy in App Creation:

Instructors resolving students queries:

Student creations being examined:

Getting relaxed from programming vexed brains by an entertainment booster given by First Year Students:

Shining thoughts of Creativity and entertainment blowing out in Campfire:

Young brains showing their knowledge and skills achievement:

Finally here comes the winner of the 24 hrs APP Development contest..!

9. Committee:

Patron

Dr. S Sai Satyanarayana Reddy (Principal)

Convener

Prof. H.Venkateswara Reddy
HOD, CSE.

Co-Convener

Dr. M. Gopi Chand
HOD, IT

Coordinator

Mr. K.Srinivas, Assistant professor of CSE

Organizing Committee:

Mr.S. Venu Gopal, Associate professor of CSE
Mr. CH.Sravan Kumar, Assistant professor of CSE
Ms.A.Annapurna, Assistant professor of CSE
Ms.K.Krishnaveni, Assistant professor of CSE
Mr.P.Buddha Reddy, Assistant professor of CSE
